2. Accounting period and accounting currency

Annual accounting period commences from 1 January and ends as at 31 December. The Company maintains its accounting records in VND.

3. Standards and Applicable Accounting Policies*Applicable Accounting Policies*

The Company applies Corporate Accounting System issued under the Circular No. 200/2014/TT-BTC dated 22 December 2014 by the Ministry of Finance and the Circular No. 53/2016/TT-BTC dated 21 March 2016 issued by Ministry of Finance amending and supplementing some articles of the Circular No. 200/2014/TT-BTC .

Declaration of compliance with Accounting Standards and Accounting System

The Company applies Vietnamese Accounting Standards and supplementary documents issued by the State. Financial Statements are prepared and presented in accordance with regulations of each standard and supplementary document as well as with current Accounting Standards and Accounting System.

4. Accounting policies

The following are the significant have been adopted by the company in preparing these consolidated financial statements. The accounting policies that have been adopted by the Company in the preparation of these consolidated financial statements are consistent with those adopted in the preparation of its most recent consolidated financial statements.

4.1 Basis for preparation of Financial Statements

Consolidated financial statements are prepared and presented in accordance with regulations of each standard and supplementary document as well as with current Accounting Standards and Accounting System, issued under Circular No. 200/2014/TT-BTC dated December 22, 2014, Circular No. 202/2014/TT-BTC dated December 22, 2014 of the Ministry of Finance and Circular No. 53/2016/TT-BTC dated March 21, 2016 of the Ministry of Finance amending Circular No. 200/2014/TT-BTC dated December 22, 2014.

The consolidated financial statements are prepared based on consolidated figures of the parent company as of December 31, 2025 and figures of the subsidiaries as of September 30, 2025.

4.2 Foreign currency transaction

Transactions currencies other than VND during the period have been translated into Vietnamese Dong at the actual rate of exchange ruling at transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rate and account transfer selling rate, respectively, at the end of the accounting period quoted by the commercial bank where the company most frequently conducts transactions and has the largest outstanding balance of foreign currencies at the end of the accounting period

Exchange rate differences resulting from revaluation of foreign currency monetary items at the end of the accounting period after offsetting increases and decreases are recorded in financial income or financial expenses

4.3 Cash and cash equivalents

Cash comprises cash on hand, demand deposits.

Cash equivalents are short-term highly liquid investments that are readily convertible to known amount of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes

4.4 Financial investments

Investments held to maturity comprise: term deposits (including treasury bills and promissory notes), bonds, preference shares which the issuer is required to repurchase at a certain time in the future and loans, etc. held to maturity to earn profits periodically and other held to maturity investments.

Investments in associates are initially recognized at original cost. After initial recognition, the value of these investments is measured at original cost less provision for devaluation of investments.

Equity Investments in other entities comprise: investments in equity instruments of other entities without having control, joint control, or significant influence on the investee. These investments are initially stated at original cost. After initial recognition, these investments are measured at original cost less provision for devaluation of investments.

Dividends received in the form of shares only monitor the number of shares received but do not record the increase in the value of the investment and financial income.

Provision for devaluation of investments is made at the end of the period as follows:

With regard to long-term investments (other than trading securities) without significant influence on the investee: If the fair value of the investment is not determined at the reporting date, the provision shall be made based on the Financial Statements at the provision date of the investee.

For investments held to maturity: based on the ability to recover, set up provisions for doubtful debts according to the provisions of law.

4.5. Receivables

The receivables shall be recorded in details in terms of due date, entities receivable, types of currency and other factors according to requirements for management of the Company.

The provision for doubtful debts is made for receivables that are overdue under an economic contract, a loan agreement, a contractual commitment or a promissory note and for receivables that are not due but difficult to be recovered. Accordingly, the provisions for overdue debts shall be based on the due date stipulated in the initial sale contract, exclusive of the debt rescheduling between contracting parties and the case where the debts are not due but the debtor is in bankruptcy, in dissolution, or missing and making fleeing.

4.6. Inventories

Inventories are initially recognized at original cost including purchase price, processing cost and other costs incurred in bringing the inventories to their location and condition at the time of initial recognition. After initial recognition, at the reporting date, inventories are stated at the lower of cost and net realizable value.

The cost of inventory is calculated using weighted average method.

Inventory is recorded by perpetual method.

Provision for devaluation of inventories made at the end of the year is based on the excess of original cost of inventory over their net realizable value.

4.7. Fixed assets, Finance lease fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost comprises its purchase price, including import duties, non refundable purchase taxes and any directly attributable cost of bringing the asset to its working condition for it is located. Expenses incurred after tangible fixed assets have been put into operation, such as repair and maintenance and overhaul cost, is charged to the separate statement of income in the period in which the costs are incurred. In situations where its can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use tangible fix asset beyond their originally assessed standard of beformance, the expenditure is capitalised as in capitalised as an additional cost of tangible fixed assets.

When tangible fixed assets are sold or disposed of, their cost and accumulated depreciation are eliminated from the accounts and any gain or loss resulting from their disposal is recognized as income or expense in the period.

Fixed assets are depreciated (amortised) using the straight-line method over their estimated useful lives as follows:

- | | |
|------------------------|---------------|
| - Machinery, equipment | 05 - 10 years |
|------------------------|---------------|

4.8. Prepaid expenses

The expenses incurred but related to operating results of several accounting periods are recorded as prepaid expenses and are allocated to the operating results in the following accounting periods.

The calculation and allocation of long-term prepaid expenses to operating expenses in each accounting period should be based on the nature of those expenses to select a reasonable allocation method and criteria. Prepaid expenses are allocated gradually into operating expenses on the straight-line basis.

4.9. Payables

The payables shall be recorded in details in terms of due date, entities payable, types of currency and other factors according to the requirements for management of the Company.

Trade and other payables are starter at their cost. Trade and other payables are classified as fmonetary items denominated in foreign currencies are revalued at account transfer selling rate at the at the reporting date.

When preparing financial statements, accountants payable are classified as long-term or short-term in the separate statement of financial position based on the remaining period of these payables at the reporting date

4.10. Owner's equity

Owner's equity is stated at actually contributed capital of owners.

Share premium is recorded at the difference between the par value with costs directly attributable to the issuance of shares and issue price of shares (including the case of re-issuing treasury shares) and can be a positive premium (if the issue price is higher than par value and costs directly attributable to the issuance of shares) or negative premium (if the issue price is lower than par value and costs directly attributable to the issuance of shares).

F14.21, Golden King Building, Tân Mỹ Ward, Ho Chi Minh City For the period from 01/01/2025 to 31/12/2025

Treasury shares are shares issued and bought-back by the issuing company itself. Treasury shares are uncanceled and shall be re-issued within the period as regulated by the law on securities. Treasury shares shall be recorded at the actual buyback price and presented on the Statement of Financial position as a decrease in owner's equity. Cost of Treasury shares when being re-issued or used to pay dividend, bonus, etc. shall be calculated using the weighted average method

Dividends to be paid to shareholders are recognized as a payable in Statement of Financial position after the announcement of dividend payment from the Board of Management and announcement of cut-off date for dividend payment of Vietnam Securities Depository Center.

Retained earnings are used to present the Company's operating results (profit, loss) after corporate income tax and profit appropriation or loss handling of the Company. In case dividend payment or profit distribution for the owners exceeds the net profit, the difference shall be recorded as a decrease in contributed capital. Net profit can be distributed to investors based on capital contribution rate after being approved by General Meeting of Shareholders/Board of Management and after being appropriated to funds in accordance with the Company's Articles of Incorporation and Vietnamese statutory requirements.

4.11. Revenue

Sale of goods

Revenue from the sale of goods shall be recognized when all of the following conditions have been satisfied:

- Significant risks and rewards associated with the ownership of the goods have been transferred to the buyer;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company; and
- The cost incurred or to be incurred in respect of the transaction can be measured reliably.

Rendering of services

- The amount of the revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Company;
- The stage of the completion of the transaction at the end of the reporting period can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Financial income

Revenue arising from the use by the others of the Company's assets yielding interest, royalties and dividends shall be recognized

when:

- It is probable that the economic benefits associated with the transaction will flow to the Company; and
- The amount of the revenue can be measured reliably.

Revenue deductions

Revenue deductions from sales and service provisions arising in the year include: Trade discounts, sales discounts and sales returns.

Trade discount, sales discount and sales return incurred in the same period of sale of goods and rendering of services are recorded as a decrease in revenue in the incurring period. In case goods and services are sold in the previous periods, but until the next period they are incurred as deductible items, the Company records the decrease in revenue under the following principles: If it is incurred prior to the issuance of Financial Statements, it is then recorded as a decrease in revenue on the Financial Statements of the reporting period (the previous period); and if it is incurred after the issuance of Financial Statements, it is recorded as a decrease in revenue of incurring period (the next period).

4.12. Cost

Cost of goods sold

The recognition of cost of goods sold is matched against revenue in the year and complies with the prudence principle. Cases of loss of materials and goods exceeded the norm, abnormal expenses and losses of inventories after deducting the responsibility of collective and individuals concerned, etc. is recognized fully and promptly into cost of goods sold in the year.

Financial expenses

Items recorded into financial expenses comprise:

- Expenses or losses relating to financial investment activities;
- Borrowing costs;
- Losses from the disposal and transfer of short-term securities, transaction cost of selling securities;
- Provision for diminution in value of trading securities price; provision for losses from investment in other entities, losses from sale of foreign currency, exchange loss, etc.

The above items are recorded by the total amount arising in the year without offsetting against financial income.

4.13. Corporate income tax

a, Current corporate income tax expenses

Current corporate income tax expenses are determined based on taxable income during the year and current corporate income tax rate.

b, Current corporate income tax rate

The Company applies the corporate income tax rate of 20% for the operating activities which has 20% taxable income for the year 2020.

4.14. Segment information

Due to in the year the Company's revenue only arises from commercial activities in Vietnamese territory, the Company does not prepare segment reports by business segment and geographical segment.

4.15. Related Parties

The parties are regarded as related parties if that party has the ability to control or significantly influence the other party in making decisions about the financial policies and activities. The Company's related parties include:
Companies, directly or indirectly through one or more intermediaries, having control over the Company or being under the control of the Company, or being under common control with the Company, including the Company's parent, subsidiaries and associates;
Individuals, directly or indirectly, holding voting power of the Company that have a significant influence on the Company, key management personnel including directors and employees of the Company, the close family members of these individuals;
Enterprises that the above-mentioned individuals directly or indirectly hold an important part of the voting power or have significant influence on these enterprises.
