Item	Quarter 2, 2026	Quarter 2, 2025	Difference	Increase/ Decrease (%)
(A)	(1)	(2)	(3)=(1)-(2)	(4)=(3)/(2)

Explanation:

The above figures show that the consolidated business results for the second quarter of 2026 decreased by 65%, with profit after tax fluctuating by more than 10% compared with the same period of 2025. The main reasons are as follows:

Net revenue decreased significantly, mainly due to a substantial decline in revenue from civil construction activities compared with the same period of the previous year.

Cost of goods sold decreased in line with the decline in revenue.

Although cost of goods sold decreased along with revenue, the decline in revenue while fixed costs continued to be incurred resulted in a decrease in profit after tax compared with the same period of the previous year.

The Company commits that the information published above is true and is responsible before the law.
