2. ACCOUNTING CONVENTION AND OPERATING PERIOD**Accounting convention**

The accompanying separate financial statements, expressed in Vietnam Dong (VND), are prepared under the historical cost convention and in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to separate financial reporting.

The accompanying separate financial statements are prepared for the Corporation as a holding company, and do not include the financial statements of the Corporation's subsidiaries. For an overview of the Corporation's financial position and performance as a whole, we recommend that these separate financial statements should be read in conjunction with the Corporation's consolidated financial statements which were prepared and issued separately.

The accompanying separate financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Vietnam.

Financial year

The Corporation's financial year begins on 01 January and ends on 31 December. This separate financial statements was prepared for the period of the Corporation operated under a Join Stock Company model from 01 January 2026 to 30 June 2026.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)

The significant accounting policies, which have been adopted by the Corporation in the preparation of these separate financial statements, are as follows:

Estimates

The preparation of the separate financial statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires the Board of Management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the balance sheet date and the reported amounts of revenues and expenses during the financial year.

Although these accounting estimates are based on the Board of Management's best knowledge, actual results may differ from those estimates.

Financial Instruments***Initial recognition***

Financial Assets: At initial recognition, financial assets are recorded at its fair value plus transaction costs that are directly attributable to the acquisition of the financial assets. Financial Assets of the Corporation include cash and cash equivalents, receivables and other receivables, held-to-maturity investments and other long-term investments.

Financial Liabilities: At initial recognition, financial liabilities are recorded at its fair value plus transaction costs that are directly attributable to issue of the financial liabilities. Financial liabilities of the Corporation include loans, trade payables, other payables and accrued expenses.

Revaluation after initial recognition

Currently, there are no regulations on revaluation of financial instruments after initial recognition.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits, cash in transit and short-term, highly liquid investments (not exceeding 3 months) that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Financial investments***Held-to-maturity investments***

Held-to-maturity investments comprise investments that the Corporation has the positive intent or ability to hold to maturity, including bank term deposits.

Held-to-maturity investments are recognized on a trade date basis and are initially measured acquisition price plus directly attributable transaction costs.

Post-acquisition interest income from held-to-maturity investments is recognised in the separate income statement on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date.

Held-to-maturity investments are measured at cost less provisions for financial investments .

Provision for impairment of financial investments relating to held-to-maturity investments is made in accordance with prevailing accounting regulations.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)***Investments in subsidiaries***

Subsidiaries are entities in which the Corporation holds controlling shares (51% or more) as well as corresponding control rights. Control is achieved where the Company has the power to govern the financial and operating policies of an investee enterprise so as to obtain benefits from its activities. Investments in subsidiaries are stated at cost less provisions for impairments loss of investment (if any).

Investments in associates

An associate is an entity over which the Corporation has significant influence and that is neither a subsidiary nor an interest in joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control or joint control over those policies.

Investments in joint ventures

A joint venture is a contractual arrangement whereby the Corporation and other parties undertake an economic activity that is subject to joint control, i.e., the strategic financial and operating policy decisions relating to the activities require the unanimous consent of the parties sharing control.

Where a group entity undertakes its activities under joint venture arrangements directly, the Corporation's share of jointly controlled assets and any liabilities incurred jointly with other ventures are recognised in the separate financial statements of the relevant entity and classified according to their nature. Liabilities and expenses incurred directly in respect of interests in jointly controlled assets are accounted for on an accrual basis. Income from the sale or use of the Corporation's share of the output of jointly controlled assets, and its share of joint venture expenses, are recognised when it is probable that the economic benefits associated with the transactions will flow to/from the Corporation and their amount can be measured reliably.

Joint venture arrangements that involve the establishment of a separate entity (with or without a legal entity) in which each venturer has an interest are referred to as jointly controlled entities.

Interests in subsidiaries, joint ventures and associates and equity investments in other entities are initially recognised at cost. After that, the value of investments in subsidiaries, associates, joint ventures and equity investments in other entities of the Corporation are revalued for the purpose of valuation of enterprises for equitization. Therefore, investments in subsidiaries, associates, joint ventures, and investments in other entities as at 30 June 2026 are recorded at revaluation value less provision for impairment of such investments (if any).

Provisions for impairment of investments are made in accordance with current accounting regulations when there is reliable evidence for declining in value of investments at the balance sheet date. Provisions for impairment of investments in subsidiaries, joint ventures and associates are made based on the figures of the consolidated financial statements, including the portion of non-controlling shareholder interests.

The Corporation's share of the net accumulative profit of the investees after acquisition is recognised in the separate income statement. Other distributions received other than such profit share are deducted from the cost of the investments as recoverable amounts.

Equity investments in other entities

Equity investments in other entities represent the Corporation's investments in ordinary shares of the entities over which the Corporation has no control, joint control, or significant influence.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)

Equity investments in other entities are stated at at cost less provisions for impairment of investment.

Receivables

Receivables represent the amounts recoverable from customers or other debtors and are stated at book value less provision for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue for six months or more, or when the debtor is in dissolution, in bankruptcy, or is experiencing similar difficulties and so may be unable to repay the debt.

Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises direct materials and where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. Inventories are accounted for under a perpetual system. Cost is calculated using the weighted average method. Net realisable value represents the estimated selling price less all estimated costs to completion and costs to be incurred in marketing, selling and distribution.

The evaluation of necessary provision for inventory obsolescence follows current prevailing accounting regulations which allow provisions to be made for obsolete, damaged, or sub-standard inventories and for those which have costs higher than net realisable values as at the balance sheet date.

Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

The costs of purchased tangible fixed assets comprise their purchase prices and any directly attributable costs of bringing the assets to their working conditions and locations for their intended use. The costs of tangible fixed assets formed from construction investment by contractual mode or self-construction or self-generating process are the settled costs of the invested construction projects in accordance with the prevailing State's regulations on investment and construction management, directly-related expenses and registration fee (if any). In the event the construction project has been completed and put into use but the settled costs thereof have not been approved, the cost of tangible fixed assets is recognised at the estimated cost based on the actual cost incurred. The estimated cost will be adjusted according to the settled costs approved by competent authorities.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives as follows:

	Years
Buildings and structures	6 - 50
Machinery and equipment	5 - 10
Motor vehicles	5 - 6
Office equipment	3 - 5
Others	3 - 6

Tangible fixed assets of the Corporation were revalued when the equitization was performed. The cost and accumulated depreciation of tangible fixed assets are adjusted based on the revaluation value approved by competent authorities as regulated.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)

Loss or gain resulting from sales and disposals of tangible fixed assets is the difference between profit from sales or disposals of assets and their residual values and is recognised in the separate income statement.

Leasing

Leases where substantially all the rewards and risks of ownership of assets remain with the leasing company are accounted for as operating leases. Rentals payable under operating leases are charged to the separate income statement on a straight-line basis over the term of the relevant lease. Benefits received and receivable as an incentive to enter into an operating lease are also spread on a straight-line basis over the lease term.

Intangible fixed assets and amortisation

Intangible fixed assets represent land use rights and computer software that are stated at cost less accumulated amortisation.

Indefinite-term land use rights are not amortised. Definite-term land use rights are amortised over the duration specified in the land use right certificate.

Computer software is amortised using the straight-line method over 5 years.

For intangible fixed assets that are revalued, the cost, accumulated amortisation and net book value are adjusted according to the revaluation results.

Construction in progress

Properties in the course of construction for production, rental and administrative purposes or for other purposes are carried at cost includes any costs that are necessary to form the asset including construction cost, equipment cost, other directly attributable costs in accordance with the Corporation's accounting policy. Such costs will be included in the estimated costs of the fixed assets (if settled costs have not been approved) when they are put into use.

According to the State's regulations on investment and construction management, the settled costs of completed construction projects are subject to approval by appropriate level of competent authorities. The final costs of these completed construction projects may vary depending on the final approval by competent authorities.

Prepayments

Prepayments comprise prepaid office rental, land rental, land use rights, privilege of land rent rights and other types of prepayments.

Land rental and office rental represent rentals that have been paid in advance. Prepaid rentals are charged to the separate income statement using the straight-line method over the rental term.

Other types of prepayments comprise costs of small tools, supplies, spare parts issued for consumption and other expenses which are expected to provide future economic benefits to the Corporation. These expenditures have been capitalised as prepayments and are charged to the separate income statement using the straight-line method in accordance with the current prevailing accounting regulations.

Resources and profit distribution

Owner's equity of the Corporation was approved in Decision No. 1979/QĐ-TTg dated 08 December 2017 of the Prime Minister and was confirmed at the 17th amended Business Registration Certificate dated 1 August 2018 issued by the Department of Planning and

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)

Investment of Ho Chi Minh City with charter capital of VND 10,342,295,000,000. The funds are established from the distribution of profits from business activities after deducting corporate income tax payable or additional contributions.

Revenue recognition

Revenue from the sale of goods is recognised when all five (5) following conditions are satisfied:

- (a) The Corporation has transferred to the buyer the significant risks and rewards of ownership of the goods;
- (b) The Corporation retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- (c) The amount of revenue can be measured reliably;
- (d) It is probable that the economic benefits associated with the transaction will flow to the Corporation; and
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue of a transaction involving the rendering of services is recognised when the outcome of such transactions can be measured reliably. Where a transaction involving the rendering of services is attributable to several periods, revenue is recognised in each year by reference to the percentage of completion of the transaction at the balance sheet date of that year. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- (a) The amount of revenue can be measured reliably;
- (b) It is probable that the economic benefits associated with the transaction will flow to the Corporation;
- (c) The percentage of completion of the transaction at the balance sheet date can be measured reliably; and
- (d) The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Interest income is accrued on a time basis, by reference to the principal outstanding and at the applicable interest rate.

Dividend income from investments is recognised when the Corporation's right to receive payment has been established.

Foreign currencies

The Corporation applies the treatment of exchange rate differences according to the guidance of Vietnamese Accounting Standard No. 10 (VAS 10) "Effects of changes in foreign exchange rates". Accordingly, transactions arising in foreign currencies are translated at exchange rates ruling at the transaction date. Balances of foreign currency monetary items at the balance sheet date are converted at the exchange rate on that date. Exchange differences arising from the translation of these accounts are recognised in the separate income statement. Interests from exchange rate differences from revaluation of balances at the balance sheet date are not distributed to owners.

Borrowing costs

Borrowing costs are recognised in the separate income statement in the period when incurred unless they are capitalised in accordance with Vietnamese Accounting Standard No. 16 "Borrowing costs". Accordingly, borrowing costs are directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the cost of those assets. For specific borrowings for the purpose of construction of fixed assets and investment properties, borrowing costs are capitalised even when the construction period is under 12 months.

All other interest expenses are recognized in the income statement when incurred.

Payable provisions

Payable provisions are recognised when the Corporation has a present obligation as a result of a past event, and it is probable that the Corporation will be required to settle that obligation. Provisions are measured at the Board of Management's best estimate of the expenditure required to settle the obligation at the balance sheet date.

Petroleum price stabilization fund

The petroleum price stabilization fund is appropriated and utilized in accordance with Circular No. 103/2021/TT-BTC dated November 18, 2021 issued by the Ministry of Finance, providing guidance on the appropriation, utilization and management of the Petroleum Price Stabilization Fund as prescribed in Government's Decree No. 95/2021/ND-CP dated November 1, 2021 ("Decree 95"), which amends and supplements a number of articles of Government's Decree No. 83/2014/ND-CP dated September 3, 2014 ("Decree 83") on petroleum trading; Government's Decree No. 80/2023/ND-CP dated November 17, 2023 amending and supplementing a number of articles of Decree 95 and Decree 83 on petroleum trading; and Circular No. 19/2026/TT-BCT dated April 3, 2026 providing for advances to the Petroleum Price Stabilization Fund from the state budget, the appropriation of the Petroleum Price Stabilization Fund, and the reimbursement of state budget advances.

The Petroleum Price Stabilization Fund is appropriated by a specific fixed amount included in the base price of the actual volume of petroleum sold and is recognized as a cost component in the base price structure in accordance with the prevailing regulations.

The petroleum price stabilization fund is utilized according to directives issued by the Ministry of Industry and Trade in each period. The utilization of the petroleum price stabilization fund is based on actual consumption volumes, multiplied by the usage rate per liter of petroleum as regulated by the Ministry of Industry and Trade.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the separate income statement because it excludes items of income or expense that are taxable or deductible in other periods (including loss carried forward, if any) and it further excludes items that are never taxable or deductible.

Corporate income tax payable is calculated using the prevailing normal tax rate of 20% ruling at the balance sheet date.

Deferred tax is recognised on significant differences between carrying amounts of assets and liabilities in the separate financial statements and the corresponding tax bases used in the computation of taxable profit and is accounted for using balance sheet liability method. Deferred tax liabilities are generally recognised for all temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which deductible temporary differences can be utilised.

Deferred tax is calculated at the tax rates that are expected to apply in the year when the liability is settled or the asset realised. Deferred tax is charged or credited to profit or loss,

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)

except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same tax authority and the Corporation intends to settle its current tax assets and liabilities on a net basis.

The determination of the Corporation's tax currently payable is based on the current interpretation of tax regulations. However, these regulations are subject to periodic variation and their ultimate determination depends on the results of the tax authorities' examinations. Other taxes are paid in accordance with the prevailing tax laws in Vietnam.

Vietnamese Accounting Standards as well as current prevailing regulations provide no detailed guidance on the determination of the recoverable amount of receivables. Accordingly, as at 30 June 2026, the Corporation's Board of Management prudently assessed and determined the recoverable amount of receivables as follows:

- Based on book value less provision that had been made for doubtful debts without collateral.

- For receivables with collateral value higher than their book value, the recoverable amount of receivables is determined based on the historical cost of receivables.

As at 30 June 2026, the Corporation has financially handled provisions for doubtful debts in accordance with regulations (Details stated in Note 28).

- (i) As at 30 June 2026, the Corporation's capital contribution in PETEC Trading and Investment Corporation ("PETEC") that was recognized and presented by the Corporation exceeded the amount recorded and accounted for by PETEC by VND 111,225,298,544 (compared to the pre-adjusted investment value according to the value of re-evaluation for equitization of VND 2,464,251,000,000). The Corporation's Board of Management believes that such difference amount will be settled when PETEC has completed the finalization of equitization. On 12 February 2025, Vietnam National Industry - Energy Group ("Petrovietnam") issued Resolution No. 1004/NQ-DKVN approving the decision to cease the transfer of the Corporation's shares at PETEC to Vietnam Gas Corporation - Joint Stock Company ("PV GAS").
- (ii) On December 3, 2025, the Board of Directors of the Corporation issued Resolution No. 98/NQ-DVN approving the plan for the establishment of PVOIL Aviation Energy Joint Stock Company (PVOIL AVIATION). On January 13, 2026, PVOIL AVIATION was granted its initial Enterprise Registration Certificate with a registered charter capital of VND 300,000,000,000, of which PVOIL holds a 51% equity stake. Pursuant to Decision No. 322/QĐ-DVN dated April 10, 2026 and Decision No. 612/QĐ-DVN dated June 30, 2026, the Corporation completed the first and second capital contribution installments in accordance with the approved schedule, with a total contribution amount of VND 153,000,000,000. Regarding the provision recognized in proportion to PVOIL's ownership interest in the investee, such

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)

provision relates to the investee's pre-operating expenses, which were recognized in profit or loss in accordance with Circular No. 99/2025/TT-BTC dated October 27, 2025.

- (i) According to Notice No. 385/TB-VPCP dated 02 October 2018 of the Government Office, the dissolution and bankruptcy plan for Phu Tho Biofuel Plant Project of PetroVietnam Biofuel Joint Stock Company ("PVB") was proposed in accordance with legal regulations for consideration. On 24 October 2018, the Corporation's Board of Directors sent a document to the Vietnam National Industry - Energy Group regarding the bankruptcy plan of PVB. On 10 December 2018, the Corporation sent Official Letter No. 211/DVN-TCKT to the Vietnam National Industry - Energy Group (PVN) to propose the revaluation of this investment to nil (VND 0) when finalizing equitization, and that in the course of implementing the bankruptcy procedure, any income from liquidation of Phu Tho Biofuel Plant will be fully transferred to the Enterprise Support and Arrangement Fund. This matter has been submitted by the PVN to the Committee for Management of State Capital at Enterprises (CMSC) under Official Letter No. 3540/DKVN-HDTV dated 01 July 2019 on rearrangement, handling of houses and land and solution for difficulties in equitization of PVOIL. As at the date of issuance of these separate financial statements, the Corporation and PVB are coordinating and working with the relevant parties to review and determine the appropriate course of action for PVB in accordance with the applicable authority and legal regulations. The Corporation has made provision for this investment with an amount of VND 190,299,147,235 as at 30 June 2026 (as at 31 December 2025: VND 190,299,147,235) based on PVB's unaudited financial statements for the financial year ended 31 December 2024, which was prepared on a going concern basis.
- (ii) The value investments in these investees is nil in accordance with the State Audit Report on the results of enterprise valuation and handling of financial issues before officially announcing the value of the equitized PetroVietnam Oil Corporation as a holding company, which has been approved by the Ministry of Industry and Trade under Decision No. 1220/QD-BCT dated 10 April 2017 on the valuation of PetroVietnam Oil Corporation (a member entity of Vietnam National Industry - Energy Group) for equitization. The costs of the investments in Phu Yen Cashew Joint Stock Company and Orient Biofuels Company Limited as at 31 December 2015 before revaluation for equitization are VND 51,707,577,602 and VND 198,044,907,747 respectively.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)

- (iii) On 27 May 2024, the People's Court of Quang Ngai province issued Decision No. 01/2024/QĐ-MTTPS opening bankruptcy proceedings against Central Petroleum Biofuel Joint Stock Company (BSR-BF). On November 28, 2025, BSR-BF issued Official Letter No. 115/BSR-BF-KHHĐ to the People's Court of Quang Ngai Province, the insolvency administrator, and the creditors regarding an update on the plan to resume operations of the Dung Quat Bio-ethanol Plant. On January 23, 2026, the Creditors' Meeting was convened and unanimously approved the business recovery plan, and adopted the Resolution of the Creditors' Meeting approving such recovery plan. On February 28, 2026, the People's Court of Quang Ngai Province issued Decision No. 01/2026/QĐ-HNCN recognizing the Resolution on BSR-BF's business recovery plan adopted by the Creditors' Meeting on January 23, 2026. The implementation period of the business recovery plan is five (05) years from the date of recognition of the Resolution approving the business recovery plan. Based on such approved plan, BSR-BF has coordinated with its partners to carry out the necessary work to restore the operation of the Plant and has resumed its operations since February 2026, producing ethanol for supply to the market to meet the demand for E10 biofuel blending.

20. OTHER LONG-TERM ASSETS

As at 30 June 2026, cash and cash equivalents include demand deposits of VND 233,923,852 and USD 3,776,074 (as at 31 December 2025: VND 233,923,852 and USD 3,776,074) with original maturity of less than 3 months) (as presented in Note 4) at Ocean Commercial Joint Stock Bank (currently known as Modern Bank of Vietnam Limited – "MBV"). Such deposits have been frozen under Directive No. 600/2015/CT-TGD dated 13 February 2015 issued by Oceanbank on the suspension of payment services for the business entities of PETROVIETNAM to review and evaluate the payment records of customers. Currently, Oceanbank was mandatorily transferred to Military Commercial Joint Stock Bank (MB Bank) and changed its name to Modern Bank of Vietnam Limited (MBV); accordingly, the Board of Management of the Corporation has assessed and believes that these deposits will be unfrozen in the coming time.

Long-term borrowings represent the following loan and finance lease facilities:

- (1) Long-term borrowings represent a loan facility obtained from the Ho Chi Minh City Branch of the Joint Stock Commercial Bank for Foreign Trade of Vietnam (Vietcombank), used to finance the project for replacing the underground pipeline crossing Dinh River, which connects the Cu Lao Tao petroleum depot and the Thang Nhat petroleum depot. The credit facility has a limit of VND 44,970,000,000. The loan has a maximum repayment term of 84 months (24 instalments, each lasting three months) from the date of the final disbursement. It includes a grace period of 12 months from the date of the first disbursement. The interest rate is fixed at 6.8% per annum for the first two years. After this period, the interest rate will be determined based on the average 12-month term deposit

interest rates for individual customers (interest payable at maturity) of four banks—Joint Stock Commercial Bank for Investment and Development of Vietnam (BIDV), Joint Stock Commercial Bank for Foreign Trade of Vietnam (Vietcombank), Vietnam Joint Stock Commercial Bank for Industry and Trade (VietinBank), and Vietnam Bank for Agriculture and Rural Development (Agribank) plus a margin of 2.0% per annum.

(2) A loan facility obtained from the Saigon Branch of the Vietnam Bank for Agriculture and Rural Development (Agribank) to finance the Nghi Son Petroleum Depot Expansion Project – Phase 2, with a credit limit of VND 16,200,000,000. The loan is secured by the property rights arising from the investment project and has a maximum repayment term of 84 months (24 quarterly instalments) from the date of the first disbursement, including a 12-month grace period from the date of the first loan disbursement. The loan bears a fixed interest rate of 6.0% per annum during the first year. Thereafter, the interest rate is equal to the 12-month VND term deposit interest rate for individual customers with interest payable at maturity published by Vietcombank, Agribank, VietinBank and BIDV, plus a margin of 2.3% per annum.

(3) A finance lease facility obtained from Vietcombank Leasing Company Limited – Ho Chi Minh City Branch for the lease of two 10,000-gallon Skymark refuelling vehicles, with a total contract value of USD 1,404,800.00 (CIF price at a Vietnamese port), together with 100% of value-added tax (VAT), import duty (if any), and related service costs (including vehicle painting and installation of roof guardrails). The finance lease has a maximum term of 72 months (24 quarterly instalments) from the date of the first disbursement, including a 3-month grace period from the date of the first disbursement to the supplier. The interest rate for the first six months is equal to the 12-month VND term deposit interest rate for individual customers with interest payable at maturity announced by Vietcombank plus a margin of 1.8% per annum. Thereafter, the applicable interest rate is adjusted to the same reference rate plus a margin of 2.2% per annum.

38. EQUITIZATION

At the date of these separate financial statements, the competent authorities have not yet inspected and approved the finalization of equitization at the time of official transformation into a joint stock company. The separate financial statements for the 6-month period ended 30 June 2026 do not include adjustments (if any) related to the finalization of equitization due to the fact that the Corporation has not yet had the finalization of equitization minutes at the time of official transformation into a joint stock company.

39. PROFIT FROM BUSINESS COOPERATION CONTRACT

Based on Business Cooperation Contract No. 13/2021/PVGAS/TT-PVOIL/D4 dated 21 January 2021 between the Corporation and PetroVietnam Gas Joint Stock Corporation, the accumulated

NOTES TO THE SEPARATE FINANCIAL STATEMENTS (CONTINUED)

profits for 6 months of 2026 corresponding to the proportion that PVOIL benefits from BCC are as follows:

	ITEMS	From 01/01/2026 to 30/06/2026	From 01/01/2025 to 30/06/2025
1	Profit before tax	101,430,611,305	5,958,380,074
2	Corporate income tax	20,286,122,261	1,191,676,016
3	Profit after corporate income tax	81,144,489,044	4,766,704,058

40. Restatement of the Separate Statement of Financial Position in accordance with Circular No.99/2025/TT-BTC dated 27 October 2025 on the Accounting Regime

The opening balance of the affected items in the separate statement of financial position for 2025 have been restated for comparative purposes as follows:

ASSETS	Codes	Notes	Opening balance (Restated) (1)	Opening balance (2)	Difference (3) = (1) - (2)
A. CURRENT ASSETS	100		28,105,303,329,178	28,203,955,743,497	(98,652,414,319)
I. Cash and cash equivalents	110	4	4,423,580,597,614	4,522,138,491,386	(98,557,893,772)
1. Cash (i)	111		3,223,486,077,067	3,322,138,491,386	(98,652,414,319)
2. Cash equivalents (ii)	112		1,200,094,520,547	1,200,000,000,000	94,520,547
II. Short-term financial investments	120		13,256,735,140,202	12,949,346,364,697	307,388,775,505
1. Held-to-maturity investments (ii)	123	5	13,256,735,140,202	12,949,346,364,697	307,388,775,505
III. Short-term receivables	130		8,126,900,998,618	8,434,384,294,670	(307,483,296,052)
1. Other short-term receivables (ii)	135	7	4,756,776,312,470	5,064,259,608,522	(307,483,296,052)
B. NON-CURRENT ASSETS	200		6,406,781,604,385	6,308,129,190,066	98,652,414,319
V. Other long-term assets	270		1,000,188,271,770	901,535,857,451	98,652,414,319
1. Other long-term assets	274		98,652,414,319	-	98,652,414,319
C. LIABILITIES	300		23,421,515,766,342	23,421,515,766,342	-
I. Current liabilities	310		23,385,831,754,561	23,385,831,754,561	-
1. Dividends and profits payable (iii)	313	22	118,978,000	-	118,978,000
2. Other current payables (iii)	320	24	4,132,880,219,162	4,132,999,197,162	(118,978,000)

- (i) The amount of restricted cash held at Ocean Commercial One Member Limited Liability Bank (now Vietnam Modern Commercial One Member Limited Liability Bank) was reclassified from the "Cash and cash equivalents" line item to the "Other non-current assets" line item, reflecting the restriction on its use.
- (ii) Accrued bank interest has been reclassified from "Other short-term receivables" to "cash equivalents" and "held-to-maturity investments"
- (iii) "Dividends and profit payable" have been presented separately in the financial statements and reclassified from "other current payables".
