 - 6.2. Explanation of the quarter III/2025 Business Performance Report changing more than 10% compared to the same period:
 - Profit after corporate income tax (CIT) for Q3/2025 decreased by more than 10% compared to the same period last year. The decline was primarily due to adverse developments in the real estate market during the quarter, which negatively impacted sales performance and related expenses. This was the main driver behind the drop in Q3/2025 post-tax profit compared to the same period of the previous year.
