## Notes to the consolidated financial statements

2<sup>nd</sup> Quarter - 2026

Form B 09-DN/HN

*(Issued under Circular No. 99/2025/TT-BTC dated 27/10/2025 of the Minister of Finance  
Circular No. 202/2014/TT-BTC dated 22/12/2014 of the Ministry of Finance)  
and Circular No. 43/2026/TT-BTC dated 20/04/2026 of the Ministry of Finance)*

### I. REPORTING ENTITY

#### 1. Ownership structure

Vietnam National Textile and Garment Group ("the Group") was incorporated as a state-owned one-member limited liability company under Decision No. 974/QĐ-TTg dated 25 June 2010 of the Prime Minister.

Pursuant to Decision No. 646/QĐ-TTg dated 6 May 2014 of the Prime Minister approving the equitisation plan of Parent Company – Vietnam National Textile and Garment Group and Official Letter No. 4085/BTC-TC dated 15 May 2014 of the Ministry of Industry and Trade on initial public offering, Vietnam National Textile and Garment Group conducted an initial public offering by means of both selling a portion of the State-owned equity and issuing additional shares to increase the charter capital at Ho Chi Minh Stock Exchange on 22 September 2014. Accordingly, Vietnam National Textile and Garment Group's post-equitisation charter capital is VND5,000 billion and the State holds a controlling interest. Vietnam National Textile and Garment Group was granted the initial Joint Stock Enterprise Registration Certificate dated 29 January 2015.

The consolidated financial statements of Vietnam National Textile and Garment Group for the six-month period ended 30 Jun 2026 comprise Vietnam National Textile and Garment Group and its subsidiaries (together referred to as "the Group") and the Group's interest in associates.

#### 2. Principal activities

- Textile industry: produce materials, equipment, spare parts, sub-materials, chemicals, dyes, and final products of the textile industry including fabric, wool thread, cloth, garments, knitting, sewing thread, cotton towels, wool, carpets, jutes, silk, silk cloth, technical fabric, non-weaving cloth, cloth for internal decoration;
- Process and produce agricultural, silviculture, aqua and sea products (preliminary processing); packaging of fresh food, processed food, dry food, and confectionary;

- Organise trade fairs and exhibitions; domestic and international fashion shows; offer publication and printing services; and
- Invest overseas; act as representatives for foreign businesses in Vietnam.

### 3 Normal operating cycle

The normal operating cycle of Vietnam National Textile and Garment Group and its subsidiaries is generally within 12 months ( starting from January 1 to December 31)

### 4. Vietnam National Textile Garment Group's structure

As at 30 Jun 2026, Vietnam National Textile and Garment Group had 33 tier 1, tier 2 and tier 3 subsidiaries and 30 associates (31/12/2025: 33 tier 1, tier 2 and tier 3 subsidiaries and 30 associates).

## II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### 1. Basis of consolidation

#### *Subsidiaries*

Subsidiaries are entities controlled by the Group. The financial statements of the subsidiaries are consolidated in the consolidated financial statements from the date that control commences until the date that control ceases.

#### *Non-controlling interests*

Non-controlling interests ("NCI") are measured at their proportionate share of the acquiree's identifiable net assets at date of acquisition.

#### *Loss of control*

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in the consolidated income statement. Any interest retained in the former subsidiary when control is lost is stated at the carrying amount of the retained investment in the consolidated financial statements adjusted for appropriate shares of changes in equity of the investee since the acquisition date, if significant influence in the investee is maintained, or otherwise stated at cost.

#### *Associates*

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Associates are accounted for using the equity method (equity accounted investees). They are initially recognised at cost, which includes transaction costs. Subsequent to initial recognition, the consolidated financial statements include the Group's share of the profit or loss of the associates, after adjustments to align the accounting policies with those of the Group, from the date that significant influence or joint control commences until the date that significant influence ceases.

When the Group's share of losses exceeds its interest in an associate, the carrying amount of that interest (including any long-term investments) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the associate.

#### *Transactions eliminated on consolidation*

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains and losses arising from transactions with associates are eliminated against the investment to the extent of the Group's interest in the associates.

#### *Business combination*

Business combinations are accounted for using the acquisition method as at the acquisition date, which is the date on which control is transferred to the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account.

## 2. Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

## 3. Investments

Trading securities are those held by the Group for trading purposes, meaning they are bought and sold to generate short-term profits. These securities are initially recorded at cost, which includes the purchase price and any directly attributable costs. After initial recognition, trading securities are measured at cost less any impairment loss allowance. An impairment loss allowance is recognized when the market value of the securities falls below their carrying amount. After the allowance is recognized, if the market value of the securities increases, the allowance may be reversed. However, the reversal is limited to the extent that the carrying amount of the trading securities does not exceed the carrying amount that would have been determined if no impairment loss allowance had been recognized.

Held-to-maturity investments are those that the Group's management has the intention and ability to hold until maturity. Held-to-maturity investments include term deposits at bank and bonds. These investments are stated at costs less allowance for doubtful debts.

Subsidiaries' investments in other entities are initially recognised at cost which includes purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in investment value.

An allowance is made for diminution in investment value if the investee has suffered a loss which may cause the Vietnam National Textile and Garment Group to lose its invested capital, unless there is evidence that the value of the investment has not been diminished. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made.

An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

## 4. Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts. An allowance for doubtful debts is made for receivables that are overdue or deemed likely to be uncollectible. The allowance for overdue trade and other receivables is calculated based on aging analysis and specific provisioning rates as below:

|                              | Allowance Percentage |
|------------------------------|----------------------|
| - Past due 6 months – 1 year | 30%                  |
| - Past due 1 – 2 years       | 50%                  |
| - Past due 2 – 3 years       | 70%                  |
| - Past due more than 3 years | 100%                 |

Trade and other receivables that are not past due but are assessed as unlikely to be collected based on available evidence at the end of the accounting period shall have an allowance provided on case-by-case basis.

## 5. Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour and attributable manufacturing overheads. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and estimated costs to sell.

Vietnam National Textile and Garment Group and its subsidiaries apply the perpetual method of accounting for inventories.

## 6. Tangible fixed assets

### *Cost*

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use.

### *Depreciation*

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

|                             |              |
|-----------------------------|--------------|
| - buildings and structures  | 5 – 51 years |
| - machineries and equipment | 3 – 20 years |
| - motor vehicles.           | 3– 15 years  |
| - office equipmen           | 3 – 30 years |
| - others                    | 2 – 25 years |

## 7. Investment property held to earn rental

Investment property held to earn rental in the form of land use rights acquired in a legitimate transfer is stated at cost without amortisation due to their indefinite term. Investment property held to earn rental in form of buildings is stated at cost less accumulated depreciation. The initial cost of an investment property held to earn rental comprises its purchase price, cost of land use rights and any directly attributable expenditures of bringing the property to the condition necessary for it to be capable of operating in the manner intended by management of respective subsidiaries. Expenditure incurred after investment property held to earn rental has been put into operation, such as repairs and maintenance, is charged to the consolidated statement of income in the year in which the expenditure is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in future economic benefits in excess of the originally assessed standard of performance of the existing investment property held to earn rental, the expenditure is capitalised as an additional cost of investment property held to earn rental.

## 8. Intangible fixed assets

### *Software*

Cost of acquiring new software, which is not an integral part of the related hardware, is capitalised as an intangible asset. Software cost is amortised on a straight-line basis over a period ranging from 3 to 10 years.

## 9. Construction in progress

Construction in progress represents the costs of tangible and intangible fixed assets which have not been fully completed or installed. No depreciation is provided for construction in progress during the period of construction and installation.

## **10. Dividends/Profits payable**

Dividends/profits payable are recognised at the date when the General Meeting of Shareholders/Board of Management of the Company resolved to distribute dividends/profits to shareholders.

## **11. Revenue and other income**

### ***Goods sold***

Revenue from the sales of goods is recognised in the consolidated statement of income when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods. Revenue on sales of goods is recognised at the net amount after deducting sales discounts

### ***Services rendered***

Revenue from services rendered is recognised in the consolidated statement of income in proportion to the stage of completion of the transaction. The stage of completion is assessed by reference to surveys of work performed. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

### ***Processing services***

Revenue from processing services is recognised in the consolidated statement of income when the goods have been processed and accepted by the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

### ***Sale of property***

Revenue from the sale of property is recognised in the consolidated statement of income when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due. The transfer of significant risks and rewards is determined to be at the time of sale or completion of hand over of the property, whichever is later.

### ***Rental income***

Rental income from other leased property is recognised in the consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income.

### ***Interest income***

Interest income is recognised on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

### ***Dividend income***

Dividend income from shares that have been registered and centrally deposited at the Vietnam Securities Depository and Clearing Corporation (VSDC) is recognised on the record date. Dividend income from shares that have not been registered with VSDC is recognised when the right to receive dividend is established. Share dividends are not recognised as income.

## **12. Borrowing costs**

Borrowing costs are recognised as an expense in the year in which they are incurred, except where the borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the period of construction are capitalised as part of the cost of the assets concerned.

**20. Comparative information**

Restatement of comparative figures: On October 27, 2025 and April 20, 2026, the Ministry of Finance issued Circular: (i) No. 99/2025/TT-BTC guiding the accounting regime for enterprises (replacing Circular No. 200/2014/TT-BTC dated December 22, 2014) and (ii) Circular No. 43/2026/TT-BTC (amending and supplementing Circular No. 202/2014/TT-BTC), guiding the method of preparing and presenting consolidated financial statements. Accordingly, in preparing the financial statements for the accounting period ended June 30, 2026, the management of Vietnam National Textile and Garment Group has restated certain comparative figures due to the impact of changes in the principles of preparing and presenting financial statements according to Circular 99 and Circular 43. Details of the restated comparative figures in the Group's consolidated financial statements are as follows:

The comparison of the previously presented figures before and after the adjustment:

Re: Explanation of After-Tax Profit  
Fluctuations in the Q2<sup>nd</sup> 2026 Financial  
Statements compared to Q2<sup>nd</sup> 2025

To:

- State Securities Commission of Vietnam
- Hanoi Stock Exchange

Pursuant to Circular No. 96/2020/TT-BTC dated November 16, 2020, issued by the Ministry of Finance, providing guidance on information disclosure on the stock market, and in compliance with the requirement to explain fluctuations of 10% or more in after-tax profit or a loss in the reporting period compared to the same period of the previous year.

Regarding this matter, Vietnam National Textile and Garment Group ("the Group") (Stock Code: VGT) hereby provides an explanation of the fluctuations in after tax profit for the Second Quarter of 2026 compared to Second Quarter of 2025, as follows:

Separate Financial Statements for the Second quarter of 2026:

- After-tax profit for the Second Quarter/2026: VND 174,285,380,641
- After-tax profit for the Second Quarter/2025: VND 48,240,713,851

Increase by: VND 126,044,666,790 equivalent to an increase rate of 261.3% compared to the same period last year.

Consolidated Financial Statements for Second Quarter of 2026:

- After-tax profit for Second Quarter/2026: VND 525,532,889,830
- After-tax profit for Second Quarter/2025: VND 333,360,201,519

Increase by: VND 192,172,688,311 equivalent to an increase rate of 57.6% compared to the same period last year.

**Main Reasons:**

**- Consolidated results:**

- o Fiber segment: Segment recorded a strong recovery in selling prices. At the same time, the Group proactively monitored and responded in a timely manner to the sharp increases in input material prices across the textile and garment supply chain, which were directly affected by tighter crude oil supplies resulting from geopolitical tensions in the Middle East, particularly between the United States and Iran in June 2026. This enabled the Group's member companies to optimize production costs, capitalize on favorable market opportunities, and enhance their operating performance.

- Garment segment: Continued to deliver positive results, supported by the retention of long-standing customers and the proactive expansion into new export markets. In addition, the Group and its member companies accelerated production and delivery schedules to capitalize on customers' efforts to bring forward order placements ahead of the implementation of the new U.S. tariff policy. Consequently, the volume of orders fulfilled increased significantly compared with the same period last year, contributing positively to the Group's operating performance.
- **Separate results:** Supported by the favorable market developments and the effective management measures described above, the Parent Company also recorded strong operating results from its two yarn branches. In addition, the increase in the reversal of the provision for financial investments, driven by the improved performance of its member companies, was the primary factor contributing to the increase in financial income, which rose by VND 120 billion compared with the same period last year. As a result, the Parent Company's profit increased compared with the corresponding period of the previous year.

Vietnam National Textile and Garment Group affirms that the content of this explanation is truthful and accurate.

Sincerely,
