Board of Directors Confirmation

The Board of Directors is responsible for preparing the interim consolidated financial statements which give a true and fair view of the financial position, results of operations and cash flows of the Company in each fiscal year. In preparing these interim consolidated financial statements, the Board of Directors commits to comply with the following requirements:

- Establish and maintain internal controls that the Board of Directors and the Management Board determine are necessary to enable the preparation and presentation of interim consolidated financial statements that are free from material misstatement, whether due to fraud or error;
- Select suitable accounting policies and apply them consistently;
- Make judgements and estimates that are reasonable and prudent;
- State whether the applicable accounting standards have been followed, and whether there are any material departures that need to be disclosed and explained in the interim consolidated Financial Statements;
- Prepare and present interim consolidated Financial Statements in compliance with Vietnamese Accounting Standards, Enterprise Accounting Regime and legal regulations on preparation and presentation of interim consolidated Financial Statements;
- Prepare the interim consolidated financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Company's Board of Directors ensures that accounting records are maintained to reflect the Company's financial position fairly and reasonably at any given time, and that the interim consolidated financial statements comply with the prevailing regulations of the State. The Board is also responsible for safeguarding the Company's assets and for taking appropriate measures to prevent and detect fraud and other irregularities.

HANOI FOODSTUFF JOINT STOCK COMPANY
REPORT OF THE BOARD OF DIRECTORS (next)

The Board of Directors of the Company ensures that the interim consolidated financial statements fairly and reasonably present the Company's interim consolidated financial position, interim consolidated business performance, and interim consolidated cash flows for the first six months of the financial year ending December 31, 2025, in accordance with accounting standards, the Vietnamese Enterprise Accounting Regime, and relevant legal regulations on the preparation and presentation of interim consolidated financial statements.

Other commitments

The Board of Directors commits that the Company complies with Decree 155/2020/ND-CP dated December 31, 2020 guiding corporate governance applicable to public companies and the Company does not violate the obligation to disclose information as prescribed in Circular No. 96/2020/TT-BTC dated November 16, 2020 of the Ministry of Finance guiding information disclosure on the stock market.

REPORT ON THE RESULTS OF THE REVIEW ENGAGEMENT
On the Interim Financial Statements
For the Six-Month Period Ended December 31, 2025

Dear : **Shareholders, Board of Directors and Management**
Hanoi Foodstuff Joint Stock Company

We have audited the accompanying Interim Consolidated Financial Statements of Hanoi Foodstuff Joint Stock Company, prepared on August 28, 2025 from page 07 to page 47, including: Interim Consolidated Balance Sheet as of June 30, 2025, Interim Consolidated Statement of Business Performance, Interim Consolidated Cash Flow Statement for the fiscal year then ended and Notes to the Interim Consolidated Financial Statements.

Responsibilities of the Board of Directors

The Board of Directors of Hanoi Foodstuff Joint Stock Company is responsible for the preparation and fair presentation of the Company's interim consolidated financial statements in accordance with Vietnamese accounting standards, accounting regimes and legal regulations related to the preparation and presentation of interim consolidated financial statements and is responsible for internal control that the Board of Directors determines is necessary to ensure the preparation and presentation of interim consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities

Our responsibility is to express a conclusion on the interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements (VSRE) 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review of interim financial information consists primarily of making inquiries, mainly of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Opinion

Through reviewing the financial statements for For the Six-Month Period Ended December 31, 2025 of Bac Qua Trading and Service Joint Stock Company (a subsidiary of the Company), We were unable to determine the existence and completeness of the payables to Delta Civil and Industrial Construction Company Limited, including trade payables amounting to VND 8,773,253,570 as at June 30, 2025 (VND 9,773,253,570 as at January 1, 2025) and long-term accrued expenses relating to late payment interest of VND 8,919,671,660, as we were unable to obtain sufficient appropriate audit evidence. Accordingly, we could not determine the possible effects, if any, of this matter on the related disclosures presented in the Company's Interim Consolidated Financial Statements.

Auditor's Opinion

Based on our review, except for the possible effects of the matter described in the "Basis for Qualified Opinion" paragraph, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of Hanoi Food Joint Stock Company as at June 30, 2025, and its interim consolidated results of operations and interim consolidated cash flows for the six-month period then ended, in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System and relevant statutory requirements on preparation and presentation of interim consolidated financial statements.

IV. ACCOUNTING POLICIES APPLIED

1. Basis for preparing Interim Consolidated Financial Statements

Financial statements are prepared on the accrual basis of accounting (except for information relating to cash flows),

The consolidated financial statements include the Financial Statements of Hanoi Foodstuff Joint Stock Company, (parent company) and subsidiaries. A subsidiary is an entity that is controlled by the parent company. Control exists when the parent company has the power, directly or indirectly, to govern the financial and operating policies of a subsidiary so as to obtain benefits from its activities. In assessing control, potential voting rights that are currently exercisable or convertible are taken into account,

The results of operations of subsidiaries acquired or sold during the year are presented in the Consolidated Statement of Income from the date of acquisition or up to the date of sale of the investment in that subsidiary,

In case the accounting policy of a subsidiary is different from the accounting policy applied consistently in the Group, the Financial Statements of the subsidiary will be appropriately adjusted before being used for preparing the Consolidated Financial Statements,

Balances of accounts on the Balance Sheet between companies in the same Group, intra-group transactions, unrealized intra-group profits arising from these transactions are eliminated when preparing the Consolidated Financial Statements. Unrealized losses arising from intra-group transactions are also eliminated unless the costs creating such losses are unrecoverable,

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the first six months of the financial year ending December 31, 2025

Notes to the Interim Consolidated financial statements (next)

Non-controlling interests represent the portion of the profits and net assets of a subsidiary not held by the parent company's shareholders and are presented separately in the consolidated income statement and consolidated balance sheet, Minority interests consist of the amount of the minority interests at the date of the original business combination and the minority's share of changes in equity since the date of the combination, LossesThe minority interest in excess of its interest in the subsidiary's equity is deducted from the Group's interest unless the minority has a binding obligation and is able to make good the loss,

2. Business combination

The assets, liabilities and contingent liabilities of the company are measured at their fair values at the date of acquisition, Any additional difference between the purchase price and the fair value of the assets acquired is recognised as goodwill, Any negative difference between the purchase price and the fair value of the assets acquired is recognised in the income statement for the period in which the subsidiary is acquired,

The non-controlling interest at the date of the initial business combination is determined based on the non-controlling interest's share of the fair value of the assets, liabilities and contingent liabilities recognised,

3. Principles of recording cash and cash equivalents

Cash includes cash on hand, demand bank deposits, monetary gold used for value storage functions, excluding gold classified as inventories used for the purpose of raw materials to produce products or goods for sale,

Cash equivalents are short-term investments with a maturity of no more than three months from the date of purchase, which are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value,

4. Financial investments

Loans

Loans are measured at cost less allowance for doubtful debts, Allowance for doubtful debts on loans is made based on the expected level of loss that may occur,

Investments in subsidiaries, joint ventures and associates

Subsidiary

A subsidiary is an entity controlled by the Company, Control is achieved when the Company has the power to govern the financial and operating policies of an investee so as to obtain benefits from its activities,

Affiliated companies

An associate is an entity in which the Company has significant influence but not control over the financial and operating policies, Significant influence is the power to participate in the financial and operating policy decisions of the investee but not control over those policies,

Investments in subsidiaries, joint ventures and associates are initially recorded at cost, including the purchase price or capital contribution plus costs directly related to the investment, In case of investment in non-monetary assets, the cost of the investment is recorded at the fair value of the non-monetary assets at the time of arising,

Dividends and profits from periods prior to the investment being purchased are recorded as a reduction in the value of the investment itself, Dividends and profits from periods subsequent to the

investment being purchased are recorded as revenue, Dividends received in shares are only tracked by the number of shares increased, not the value of the shares received/recorded at par value,

Provision for losses on investments in subsidiaries, joint ventures and associates is made when the subsidiary, joint venture or associate suffers a loss, with the provision equal to the difference between the actual capital contributions of the parties in the subsidiary, joint venture or associate and the actual equity multiplied by the Company's capital contribution ratio compared to the total actual capital contributions of the parties in the subsidiary, joint venture or associate, If the subsidiary, joint venture or associate is the subject of the Consolidated Financial Statement, the basis for determining the provision for losses is the Consolidated Financial Statement,

Increase or decrease in the provision for investment losses in subsidiaries, joint ventures and associates that must be set up at the end of the fiscal year is recorded in financial expenses,

5. Accounts Receivable

The classification of receivables as trade receivables, internal receivables and other receivables is carried out according to the following principles:

- Trade receivables reflect commercial receivables arising from purchase-sale transactions between business and the buyer is an independent entity with business, including receivables for export sales on consignment to other entities,
- Other receivables reflect non-commercial receivables not related to purchase and sale transactions,

Provision for doubtful debts is made for each doubtful debt based on the age of overdue debts or the expected level of loss that may occur, specifically as follows:

- For overdue receivables:
 - 30% of the value for overdue receivables from more than 6 months to less than 1 year;
 - 50% of the value for receivables overdue from 1 year to less than 2 years;
 - 70% of the value for receivables overdue from 2 years to less than 3 years;
 - 100% of the value for receivables overdue for 3 years or more,
- For receivables that are not overdue but are unlikely to be recovered: establish provisions based on expected loss level,

6. Principles of inventory recognition

Inventories are stated at the lower of cost and net realizable value,

The cost of inventories is determined as follows:

- Nonoriginal Materials, goods: include costs of purchase and other directly relevant costs incurred in bringing the inventories to their present location and condition,

Net realizable value is the estimated selling price of inventory in the normal course of business, normal less the estimated costs of completion and the estimated costs necessary to make the sale,

Inventories are valued using the weighted average method and accounted for using the perpetual inventory method,

Other prepaid expenses

Is the cost of serving many production and business periods, allocated to production and business periods within a period of no more than 03 years,

11. Accounting principles for liabilities and accrued expenses

Liabilities and accruals are recognized for amounts to be paid in the future for goods and services received. Accruals are recognized based on reasonable estimates of the amounts to be paid,

The classification of payables as trade payables, accrued expenses, internal payables and other payables is carried out according to the following principles:

- Trade payables reflect commercial payables arising from transactions of purchasing goods, services, assets and the seller is an independent entity, business, including amounts payable upon import through a consignee,
- Payable expenses reflect amounts payable for goods and services received from sellers or provided to buyers but not yet paid due to lack of invoices or insufficient accounting records and documents, and amounts payable to employees for leave wages, production and business expenses that must be accrued in advance,
- Other payables reflect non-commercial payables not related to the purchase, sale or provision of goods and services,

12. Principles of recording loans and financial lease liabilities

The company must monitor in detail the payment terms of loans and financial leasing debts. For debts with a repayment period of more than 12 months from the date of the financial statements of the superior unit, the accountant presents them as long-term loans and financial leasing debts. For debts due within the next 12 months from the date of the financial statements, the accountant presents them as short-term loans and financial leasing debts to have a payment plan,

For finance lease liabilities, the total lease liability reflected on the credit side of account 341 is the total amount payable calculated by the present value of the minimum lease payments or the fair value of the leased asset,

Loans and debts in foreign currency must be converted into accounting currency at the actual transaction exchange rate at the time of occurrence;

- When paying debts or borrowing in foreign currency, the Debit side of account 341 is converted according to the actual accounting exchange rate for each subject;
- When preparing the Financial Statements, the balance of loans and financial leases in foreign currencies must be re-evaluated at the actual transaction exchange rate at the time of preparing the Financial Statements, .
- Exchange rate differences arising from the payment and end-of-period revaluation of loans and financial leases in foreign currencies are recorded in financial revenue or expenses,

13. Principle of equity recognition

Owner's equity

Owner's equity is recorded according to the actual capital contributed by shareholders,

Share capital surplus

Share capital surplus is recorded as the difference between the issue price and the par value of shares upon initial issuance, additional issuance, the difference between the reissue price and the book value of treasury shares and Capital composition of convertible bonds at maturity Direct costs related to the issuance of additional shares and re-issuance of treasury shares are recorded as a reduction in share capital surplus,

Fund allocation

Funds are set aside during the year based on the Resolution of the General Meeting of Shareholders and used according to the Company Charter,

14. Profit Distribution

Profit after corporate income tax is distributed to shareholders after setting aside funds according to the Company's Charter, Companies as well as the provisions of law and approved by the General Meeting of Shareholders,

The distribution of profits to shareholders takes into account non-cash items included in retained earnings that may affect cash flows and the ability to pay dividends, Uh Gains from revaluation of assets contributed as capital, gains from revaluation of monetary items, financial instruments and other non-monetary items,

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the first six months of the financial year ending December 31, 2025

Notes to the Interim Consolidated financial statements (next)

- Revenue is determined with relative certainty, When the contract stipulates that the buyer has the right to return the purchased products or goods under specific conditions, revenue is only recognized when those specific conditions no longer exist and the buyer is not entitled to return the products or goods (except in cases where the customer has the right to return the goods in exchange for other goods or services),
- The enterprise has obtained or will obtain economic benefits from the sale transaction,
- Identify the costs associated with a sales transaction,

Service revenue

Revenue from a service transaction is recognized when the outcome of the transaction can be measured reliably, In cases where the service is performed over several periods, revenue is recognized in each period based on the results of the work completed at the end date, accounting period, KThe outcome of a service transaction is determined when all of the following conditions are satisfied:

- Revenue is measured reliably, When a contract provides that the buyer has the right to return the services purchased under specific conditions, revenue is recognized only when the specific conditions no longer exist and the buyer has no right to return the services provided,
- It is possible to obtain economic benefits from the transaction of providing that service,
- Determine the portion of work completed by the end datefiscal year
- Identify the costs incurred for the transaction and the costs to complete the transaction to provide that service,

Interest

Interest is recognized on an accrual basis, determined on the balance of deposit accounts, and actual interest rate each period,

16. Principles of accounting for cost of goods sold,

Cost of goods sold during the year is recorded in accordance with revenue generated during the period and ensures compliance with the principle of prudence,

For direct material costs consumed in excess of normal levels, labor costs, and fixed general manufacturing costs not allocated to the value of products in stock, accountants must immediately calculate them into the cost of goods sold (after deducting compensation, if any), even when the products and goods have not been determined to be consumed,

The provision for inventory price decline is included in the cost of goods sold based on the quantity of inventory and the difference between the net realizable value being less than the original cost of inventory, When determining the volume of inventory with price decline requiring provision, the accountant must exclude the volume of inventory for which a sales contract has been signed (with a net realizable value not lower than the book value) but has not been transferred to the customer if there is certain evidence that the customer will not abandon the contract,

17. Principles of financial cost accounting

Current income tax is the tax that is calculated on taxable income, Taxable income differs from accounting profit due to adjustments for temporary differences between tax and accounting, non-deductible expenses as well as adjustments for non-taxable income and losses carried forward, The company is obliged to pay corporate income tax at a rate of 20%,

20. Financial instruments

a) Financial assets

Classification of financial assets

The Company classifies its financial assets into the following groups: financial assets at fair value through the Statement of Business Performance, investments held to maturity, loans and receivables, and financial assets available for sale, The classification of these financial assets depends on the nature and purpose of the financial assets and is determined at the time of initial recognition,

Financial assets are recorded at fair value through the Statement of Business Performance

Financial assets are classified as measured at fair value through the Statement of Income if they are held for trading or designated as such at fair value through the Statement of Income upon initial recognition,

Financial assets are classified as held for trading securities if:

- Purchased or created primarily for the purpose of resale in the short term;
- The Company intends to hold for the purpose of short-term profit;
- Derivative financial instruments (except for derivative financial instruments that are identified as a financial guarantee contract or a designated and effective hedging instrument),

Held to maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity that the Company has the intention and ability to hold to maturity,

Notes to the Interim Consolidated financial statements (next)

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments and are not listed on an active market,

Financial assets available for sale

Available-for-sale financial assets are non-derivative financial assets that are designated as available-for-sale or that are not classified as financial assets at fair value through profit or loss, held-to-maturity investments, or loans and receivables,

Initial book value of financial assets

Financial assets are recognised at the date of acquisition and derecognised at the date of sale, At the time of initial recognition, financial assets are measured at their purchase price/issuance costs plus any other costs directly attributable to the acquisition or issue of the financial asset,

b) Financial liabilities

The Company classifies financial liabilities into groups: financial liabilities recorded at fair value through the Income Statement, financial liabilities determined at amortized cost, The classification of financial liabilities depends on the nature and purpose of the financial liability and is determined at the time of initial recognition,

Financial liabilities are recorded at fair value through the Statement of Income,

A financial liability is classified as measured at fair value through the Statement of Income if it is held for trading or designated as such at fair value through the Statement of Income upon initial recognition,

Financial liabilities are classified as held for trading securities if:

- Issued or created primarily for the purpose of repurchasing in the short term;
- The Company intends to hold for the purpose of short-term profit;
- Derivative financial instruments (except for derivative financial instruments that are identified as a financial guarantee contract or a designated and effective hedging instrument),

Financial liabilities are measured at amortized cost,

Financial liabilities are measured at amortised cost, which is the amount at which the financial liability is initially recognised minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction (directly or through the use of an allowance account) for impairment or uncollectibility,

The effective interest method is a method of calculating the amortized cost of a financial liability or group of financial liabilities and allocating interest income or expense over the relevant year, The effective interest rate is the rate at which estimated future cash flows that will be paid or received over the expected life of the financial instrument or, if appropriate, shorter, are discounted to the net present carrying amount of the financial liability,

Initial book value of financial liability

At initial recognition, financial liabilities are measured at issue price plus any costs directly attributable to the issue of the financial liability,

3. Financial Risk Management

The Company's operations expose it to the following financial risks: credit risk, liquidity risk and market risk. The Board of Directors is responsible for establishing policies and controls to minimize financial risks as well as monitoring the implementation of applied policies and controls.

A, Credit risk

Credit risk is the risk that a party to a contract is unable to perform its obligations, resulting in a financial loss to the Company.

The Company's credit risks arise primarily from trade receivables and bank deposits.

Accounts receivable

The company minimizes credit risk by only dealing with financially sound entities, requiring letters of credit or collateral for first-time entities or entities with no known financial capacity. In addition, accounts receivable staff regularly monitor receivables to urge collection.

The Company's trade receivables are related to many entities and individuals, so the concentration of credit risk for trade receivables is low.

Bank deposit

The Company's term and non-term bank deposits are held with domestic banks. The Board of Directors does not foresee any significant credit risks from these deposits.

INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the first six months of the financial year ending December 31, 2025

Notes to the Interim Consolidated financial statements (next)**B, Liquidity risk**

Liquidity risk is the risk that the Company will have difficulty meeting its financial obligations due to lack of funds.

The Board of Directors has ultimate responsibility for liquidity risk management, The liquidity risk of The Company mainly arises from the fact that financial assets and financial liabilities have different maturities. The Company manages liquidity risk by maintaining an appropriate level of cash and cash equivalents and borrowings deemed adequate by the Board of Directors to meet the Company's operational needs and to mitigate the effects of fluctuations in cash flows.

The maturity of financial liabilities based on undiscounted contractual payments is as follows:

	From 1 year back down	Over 1 year to 5 years	Over 5 years	Total
Year-end number				
Loans and Debts	79,640,200,000	-	-	79,640,200,000
Payable to seller	14,517,014,380	8,773,253,570	-	23,290,267,950
Other payables	22,351,572,087	15,221,117,805	-	37,572,689,892
Add	116,508,786,467	23,994,371,375	-	140,503,157,842
Beginning of year number				
Loans and Debts	79,640,200,000	-	-	79,640,200,000
Payable to seller	9,674,024,526	9,773,253,570	-	19,447,278,096
Other payables	18,437,511,154	15,204,997,535	-	33,642,508,689
Add	107,751,735,680	24,978,251,105	-	132,729,986,785

The Company believes that the concentration of risk with respect to debt repayment is low, The Company is able to repay its debts when they fall due from cash flows from operations and proceeds from maturing financial assets.

C, Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk includes three types: currency risk, interest rate risk and other price risk.

The sensitivity analyses presented below are based on a constant value of net debt, with the ratio of fixed-rate debt to floating-rate debt remaining constant.

Foreign exchange risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Interest rate risk of Company mainly related to loans.

The Company manages interest rate risk by analyzing market conditions to obtain the most favorable interest rates while remaining within its risk management limits.

The fair value of financial assets and financial liabilities is reflected at the amount at which the financial instruments could be exchanged in a current transaction between knowledgeable and willing parties.

The Company uses the following methods and assumptions to estimate fair value:

- The fair value of cash, short-term bank deposits, trade receivables, payables to suppliers and other short-term liabilities is equivalent to the book value of these items because these instruments have short maturities.
- The fair value of receivables and loans with fixed or variable interest rates is assessed based on information such as interest rates, risks, repayment capacity and the nature of risks related to the debt. Based on this assessment, the Company estimates the allowance for the portion that is likely to be uncollectible.

The fair value of listed available-for-sale financial assets is the published trading price at the end of the financial year. The fair value of unlisted available-for-sale financial assets is estimated using appropriate valuation methods.
