Bim Son, July 31, 2026

Dear:

- State Securities Commission
- Hanoi Stock Exchange

In the first six months of 2026, ViCem Bim Son Packaging Joint Stock Company maintained stable production and business operations. Net profit after tax for the period reached VND 1,134 billion, equivalent to 232% compared to the same period in 2025, representing a 132% increase.

The main reasons for the 132% increase in after-tax profit in the first half of 2026 compared to the same period in 2025 are:

The volume of plastic bag casings sold in the first six months of 2026 reached 25,578 million, equivalent to 101% compared to the same period in 2025, even though the volume of plastic bag casings sold only increased by 1% compared to the same period in 2025. However, the average selling price of the product in the first six months of 2026 increased by 5-6% compared to the same period in 2025.

Best regards!
