The Company's fiscal year begins on January 01 and ends on December 31 each year.

DS3 JOINT STOCK COMPANY

Address: Group 2, Zone 2, Hong Ha Ward, Ha Long City, Quang Ninh Province
CONSOLIDATED FINANCIAL STATEMENTS

For the accounting period from January 01, 2025 to March 31, 2025

Notes to the consolidated financial statements (continued)

2. Currency unit used in accounting

The currency unit used in accounting is the Vietnamese Dong (VND).

III. APPLICABLE ACCOUNTING STANDARDS AND SYSTEM**1. Applicable accounting system**

The Company applies the Vietnamese Enterprise Accounting System issued under Circular No. 200/2014/TT-BTC dated December 22, 2014, of the Minister of Finance and circulars guiding the implementation of accounting standards and system of the Ministry of Finance.

2. Declaration of compliance with accounting standards and system

The Management Board ensures compliance with the requirements of accounting standards and the Vietnamese Enterprise Accounting System issued under Circular No. 200/2014/TT-BTC dated December 22, 2014, of the Minister of Finance as well as circulars guiding the implementation of accounting standards and system of the Ministry of Finance in the preparation of financial statements.

3. Applicable accounting method

The Company uses the general journal method of accounting on computers.

IV. APPLICABLE ACCOUNTING POLICIES**1. Basis of preparation of financial statements**

The financial statements are prepared on an accrual basis (except for information related to cash flows).

2. Principles for recognizing cash and cash equivalents

Cash and cash equivalents include cash on hand, bank deposits, cash in transit, and short-term investments with a maturity or due date of no more than 3 months from the date of purchase, easily convertible into a certain amount of cash, and with little risk in conversion.

3. Financial investments***Investments in associates***

Associate

An associate is a company in which the Company has significant influence but does not have control over its financial and operating policies. Significant influence is demonstrated by the right to participate in making decisions about the financial and operating policies of the investee but not control these policies.

Investments in associates are initially recognized at cost, including the purchase price or contributed capital plus costs directly related to the investment. In the case of investment with non-monetary assets, the cost of the investment is recognized at the fair value of the non-monetary asset at the time of occurrence.

Dividends and profits of the periods before the investment is purchased are deducted from the value of that investment. Dividends and profits of the periods after the investment is purchased are recognized as revenue. Dividends received in shares are only monitored for the number of shares increased, not recognized for the value of shares received/recognized at par value.

4. Accounts receivable

Accounts receivable are presented at book value less provisions for doubtful debts.

The classification of receivables into trade receivables and other receivables is carried out according to the following principles:

DS3 JOINT STOCK COMPANY

Address: Group 2, Zone 2, Hong Ha Ward, Ha Long City, Quang Ninh Province

CONSOLIDATED FINANCIAL STATEMENTS

For the accounting period from January 01, 2025 to March 31, 2025

Notes to the consolidated financial statements (continued)

- Trade receivables reflect receivables of a commercial nature arising from transactions of purchase and sale, including receivables from entrusted export sales to other entities.
- Other receivables reflect receivables that are not of a commercial nature, not related to purchase and sale transactions.

Provision for doubtful debts is made for each overdue receivable based on the overdue age of the debts or the expected loss, specifically as follows:

- For overdue receivables:
 - 30% of the value for receivables overdue from 6 months to under 1 year.
 - 50% of the value for receivables overdue from 1 year to under 2 years.
 - 70% of the value for receivables overdue from 2 years to under 3 years.
 - 100% of the value for receivables overdue from 3 years or more.

For receivables that are not yet overdue but are unlikely to be collected: based on the expected loss to make a provision.

5. Principles for recognizing inventory

Inventory is recognized at the lower of cost and net realizable value.

The cost of inventory is determined as follows:

- Raw materials, goods: include the purchase cost and other directly related costs incurred to bring the inventory to its present location and condition.
- Finished products: include the cost of raw materials, direct labor, and allocable related manufacturing overheads based on the normal operating level/land use right costs, direct costs, and related overhead costs incurred during the investment process to develop real estate finished products.
- Work in progress: only includes the cost of main raw materials (or other cost elements as appropriate).

Net realizable value is the estimated selling price of inventory in the normal production and business year less the estimated cost to complete and the estimated cost necessary for their consumption.

The cost of inventory is calculated using the weighted average method and is accounted for using the perpetual inventory method.

6. Principles for recognizing tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation. The Cost of tangible fixed assets includes all costs that the Company must incur to obtain the tangible fixed assets up to the time the assets are put into ready-to-use condition. Costs incurred after initial recognition are only added to the Cost of tangible fixed assets if these costs certainly increase future economic benefits from the use of those assets. Costs that do not meet the above conditions are immediately recognized as expenses.

When tangible fixed assets are sold or liquidated, the Cost and accumulated depreciation are written off, and any gain or loss arising from the liquidation is included in the income or expense for the year.

Tangible fixed assets are depreciated using the straight-line method based on their estimated useful lives. The depreciation periods for the types of tangible fixed assets are as follows:

<u>Type of fixed asset</u>	<u>Number of years</u>
Buildings, structures	05-25
Machinery and equipment	03-07
Transportation vehicles, transmission equipment	03-11

DS3 JOINT STOCK COMPANY

Address: Group 2, Zone 2, Hong Ha Ward, Ha Long City, Quang Ninh Province

CONSOLIDATED FINANCIAL STATEMENTS

For the accounting period from January 01, 2025 to March 31, 2025

Notes to the consolidated financial statements (continued)**7. Principles for accounting for prepaid expenses**

Prepaid expenses record actual expenses incurred but are related to the operating results of many accounting years, and the allocation of these expenses to the operating expenses of the subsequent accounting years.

Tools, supplies

Tools and supplies that have been put into use are allocated to expenses using the straight-line method over a period not exceeding 3 years.

Major repair costs

Repair costs are allocated to expenses using the straight-line method over a period not exceeding 3 years.

Other expenses

Other expenses are allocated to expenses using the straight-line method over a period not exceeding 3 years.

8. Principles for accounting for accounts payable and accrued expenses

Accounts payable and accrued expenses are recognized for the amount payable in the future related to goods and services received. Accrued expenses are recognized based on reasonable estimates of the amount payable.

The classification of payables into trade payables, accrued expenses, and other payables is carried out according to the following principles:

- Trade payables reflect payables of a commercial nature arising from the purchase of goods, services, assets, and the seller is an independent entity from the Corporation/Enterprise, including payables when importing through an entrusted party.
- Accrued expenses reflect payables for goods and services received from the seller or provided to the buyer but not yet paid due to the lack of invoices or insufficient accounting documents, and payables to employees for vacation pay, expenses for production and business that must be accrued in advance.

Other payables reflect payables that are not of a commercial nature, not related to the purchase, sale, or supply of goods and services.

9. Principles for recognizing loans

The Company must monitor the maturity year of loans in detail. Loans with a repayment period of more than 12 months from the date of the financial statements are presented as long-term loans. Loans due within the next 12 months from the date of the financial statements are presented as short-term loans for payment planning.

10. Principles for recognizing equity***Contributed capital by owners***

Contributed capital by owners is recognized at the actual amount contributed by shareholders.

Undistributed earnings

Recognizes business results (profit, loss) after corporate income tax and the status of profit distribution or loss handling of the enterprise.

Other funds

Funds are set aside and used in accordance with the Company's Charter and the resolutions approved by the Annual General Meeting of Shareholders.

CONSOLIDATED FINANCIAL STATEMENTS

For the accounting period from January 01, 2025 to March 31, 2025

Notes to the consolidated financial statements (continued)

Dividends

Dividends are recognized as liabilities when declared.

11. Principles and methods for recognizing revenue

a) Revenue from service provision

Revenue from service provision is recognized when the following conditions are simultaneously met:

- Revenue is determined relatively reliably;
- It is probable that economic benefits will flow from the service provision transaction;
- The portion of work completed at the balance sheet date can be determined;
- Costs incurred for the transaction and costs to complete the service provision transaction can be determined./.

b) Revenue from financial activities

Revenue arising from interest, distributed profits, and other financial activities is recognized when the following two (02) conditions are simultaneously met:

- It is probable that economic benefits will flow from the transaction;
- Revenue is determined relatively reliably./.

12. Construction contracts

When the outcome of a contract is reliably estimated:

- For construction contracts that stipulate that the contractor is paid according to the planned progress, revenue and costs related to the contract are recognized corresponding to the portion of work completed as determined by the Company.
- For construction contracts that stipulate that the contractor is paid according to the actual volume performed, revenue and costs related to the contract are recognized corresponding to the portion of work completed that has been accepted by the customer and reflected on the issued invoice.

13. Principles for accounting for the cost of goods sold.

The cost of goods sold during the year is recognized in accordance with the revenue arising during the year and ensures compliance with the principle of prudence.

For direct material costs that exceed normal levels, labor costs, and fixed manufacturing overheads that are not allocated to the value of inventory, the accountant must immediately include them in the cost of goods sold (after deducting compensation, if any), even if the products and goods have not been determined to be consumed.

The provision for inventory obsolescence is included in the cost of goods sold based on the quantity of inventory and the difference between the net realizable value being lower than the cost of inventory. When determining the quantity of inventory subject to the provision, the accountant must exclude the quantity of inventory for which a consumption contract has been signed (with a net realizable value not lower than the book value) but has not yet been delivered to the customer if there is clear evidence that the customer will not abandon the contract.

14. Principles for accounting for general and administrative expenses

General and administrative expenses reflect the general management costs of the enterprise, including expenses for salaries of the management staff (salary, wages, allowances, etc.); social insurance, health insurance, trade union fees, unemployment insurance of the management staff; expenses for office supplies, labor tools, depreciation of fixed assets used for management; land rent, business license tax; provision for doubtful debts; outsourced

services (electricity, water, telephone, fax, property insurance, fire insurance, etc.); other cash expenses (guest reception, customer conferences, etc.).

15. Principles and methods for recognizing current corporate income tax expense

Corporate income tax expense is the current income tax, calculated based on taxable income. Taxable income differs from accounting profit due to adjustments for temporary differences between tax and accounting, non-deductible expenses, as well as adjustments for non-taxable income and carried forward losses.

The Company is obliged to pay corporate income tax at the rate of 20%.

16. Financial instruments**i. Financial assets***Classification of financial assets*

The Company classifies financial assets into the following groups: financial assets recognized at fair value through profit or loss, held-to-maturity investments, loans and receivables, and available-for-sale financial assets. The classification of these financial assets depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

Financial assets recognized at fair value through profit or loss

A financial asset is classified as at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition.

A financial asset is classified in the held-for-trading category if:

- It is acquired or incurred principally for the purpose of selling it in the near term;
- The Company intends to hold it for short-term profit-taking;
- It is a derivative (except for a derivative that is designated and effective as a hedging instrument or a financial guarantee contract).

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity that the Company has the positive intention and ability to hold to maturity.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available for sale or are not classified as financial assets at fair value through profit or loss, held-to-maturity investments, or loans and receivables.

Initial carrying amount of financial assets

Financial assets are recognized on the trade date and derecognized on the settlement date. At initial recognition, a financial asset is measured at its purchase price/issuance cost plus transaction costs that are directly attributable to the acquisition or issue of the financial asset.

ii. Financial liabilities

The Company classifies financial liabilities into the following groups: financial liabilities recognized at fair value through profit or loss, financial liabilities measured at amortized cost.

DS3 JOINT STOCK COMPANY

Address: Group 2, Zone 2, Hong Ha Ward, Ha Long City, Quang Ninh Province

CONSOLIDATED FINANCIAL STATEMENTS

For the accounting period from January 01, 2025 to March 31, 2025

Notes to the consolidated financial statements (continued)

The classification of financial liabilities depends on the nature and purpose of the financial liabilities and is determined at the time of initial recognition.

Financial liabilities recognized at fair value through profit or loss

A financial liability is classified as at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition.

A financial liability is classified in the held-for-trading category if:

- It is incurred principally for the purpose of repurchasing it in the near term;
- The Company intends to hold it for short-term profit-taking;
- It is a derivative (except for a derivative that is designated and effective as a hedging instrument or a financial guarantee contract).

Financial liabilities measured at amortized cost

Financial liabilities measured at amortized cost are measured at the initial recognized amount of the financial liabilities less principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial recognized amount and the maturity amount, less any reduction (directly or through the use of an allowance account) for impairment or uncollectibility.

The effective interest method is a method of calculating the amortized cost of a financial liability or a group of financial liabilities and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial liability.

Initial carrying amount of financial liabilities

At initial recognition, financial liabilities are measured at their issue price plus transaction costs that are directly attributable to the issue of the financial liability.

iii. Equity instruments

Equity instruments are contracts that evidence a residual interest in the assets of the Company after deducting all of its liabilities.

17. Related parties

Parties are considered to be related if one party has the ability to control or exercise significant influence over the other party in making financial and operating policy decisions. Parties are also considered to be related if they are subject to common control or common significant influence.

In considering the related party relationship, the substance of the relationship is given more importance than the legal form.

Transactions with related parties during the year are presented in Note VIII.1.

(*) According to the Deposit Contract No. 19A/2017/HDDC-DS3 dated June 01, 2017, regarding the lease of a business location for a hotel at No. 06 Luong Ngoc Quyen, Hang Buom Ward, Hoan Kiem District, Hanoi. The deposit amount is 40 billion VND for a period of 20 years, to ensure the implementation of the Hotel Lease Contract at No. 06 Luong Ngoc Quyen, Hoan Kiem, Hanoi No. 19/2016/HDTKS-DS3 dated October 22, 2016, between Ms. Nguyen Thi Viet Loan and Inland Waterway Management Joint Stock Company No.3 (DS3). The deposit amount is released gradually each month and is deducted to fulfill the obligation to pay the rent for the business location from June 2017. If during the term of the contract, DS3 refuses the agreed obligation, it will lose the entire deposit; if Ms. Nguyen Thi Viet Loan refuses the agreed obligation, in addition to returning the deposit, she must also pay a penalty equal to the deposit amount.

According to Memorandum 02/2020/HDTKD.DS3 dated July 01, 2020, signed between Inland Waterway Management Joint Stock Company No.3 and Ms. Nguyen Thi Viet Loan. Both parties agreed to suspend the lease contract from July 01, 2020, until a decision is made to continue the contract or liquidate the lease contract No. 19/2016/HDTKS.DS3 dated October 22, 2016, at address No. 06 Luong Ngoc Quyen Street, Hang Buom Ward, Hoan Kiem District, Hanoi.

According to Resolution No. 167/NQ-HDQT dated December 28, 2023, on the liquidation of the hotel lease contract at No. 06 Luong Ngoc Quyen, Hoan Kiem, Hanoi No. 19/2016/HDTKS-DS3 dated October 22, 2016, between Ms. Nguyen Thi Viet Loan and Inland Waterway Management Joint Stock Company No.3 (DS3) and the liquidation of the Deposit Contract No. 19A/2017/HDDC-DS3 dated June 01, 2017, on the lease of a business location for a hotel at No. 06 Luong Ngoc Quyen, Hang Buom Ward, Hoan Kiem District, Hanoi between Ms. Nguyen Thi Viet Loan and Inland Waterway Management Joint Stock Company No.3 (DS3).

According to the Liquidation Minutes dated December 28, 2023, Ms. Nguyen Thi Viet Loan will refund the deposit to DS3 Joint Stock Company according to the following schedule:

According to the payment schedule extension minutes dated December 31, 2024

Installment 1: payment of 8,083,333,322 VND no later than December 31, 2025

Installment 2: payment of 12,000,000 VND no later than December 31, 2026

Installment 3: payment of 14,000,000 VND no later than December 31, 2027

(**) According to the investment cooperation contract No. 12/2021/HDHTDT dated December 01, 2021, between Inland Waterway Management Joint Stock Company No.3 (DS3) and Song Hong Construction Investment Trading Joint Stock Company. Accordingly, DS3 agrees to use the legal status of Song Hong Construction Investment Trading Joint Stock Company to sign contracts and work with other related parties to implement the Project to rebuild old apartment buildings D3-D4

DS3 JOINT STOCK COMPANY

The first part of the paper discusses the importance of maintaining accurate records of all transactions, including sales, purchases, and expenses. It emphasizes the need for a systematic approach to record-keeping, such as using a ledger or accounting software, to ensure that all financial data is properly documented and organized.

The second part of the paper focuses on the importance of regular reconciliation of accounts. This involves comparing the company's internal records with external statements, such as bank statements and supplier invoices, to identify any discrepancies and ensure that the books are balanced.

The third part of the paper discusses the importance of maintaining accurate records of inventory levels. This involves tracking the quantity of goods on hand, as well as the cost of goods sold, to ensure that the company's financial statements accurately reflect its inventory position.

The fourth part of the paper discusses the importance of maintaining accurate records of all assets and liabilities. This involves tracking the value of the company's property, equipment, and other assets, as well as its debts and obligations, to ensure that the balance sheet is accurate.

The fifth part of the paper discusses the importance of maintaining accurate records of all income and expenses. This involves tracking the company's revenue, as well as its operating expenses, to ensure that the income statement is accurate.

The sixth part of the paper discusses the importance of maintaining accurate records of all taxes paid and owed. This involves tracking the company's tax payments, as well as its tax liabilities, to ensure that the company is in compliance with all applicable tax laws.

The seventh part of the paper discusses the importance of maintaining accurate records of all financial transactions. This involves tracking all cash inflows and outflows, as well as all credit and debit transactions, to ensure that the company's financial statements are accurate.

The eighth part of the paper discusses the importance of maintaining accurate records of all financial statements. This involves preparing and reviewing the company's balance sheet, income statement, and cash flow statement, to ensure that they accurately reflect the company's financial position.

The ninth part of the paper discusses the importance of maintaining accurate records of all financial transactions. This involves tracking all cash inflows and outflows, as well as all credit and debit transactions, to ensure that the company's financial statements are accurate.

The tenth part of the paper discusses the importance of maintaining accurate records of all financial statements. This involves preparing and reviewing the company's balance sheet, income statement, and cash flow statement, to ensure that they accurately reflect the company's financial position.
