STATEMENT OF THE BOARD OF MANAGEMENT (cont.)

Responsibilities of the Board of Directors

The Board of Directors is responsible for the preparation of the Financial Statements to give a true and fair view on the financial position, the business results and the cash flows of the Company during the year. In order to prepare these Financial Statements, the Board of Directors must:

- select appropriate accounting policies and apply them consistently;
- make judgments and estimates prudently;
- state clearly whether the accounting standards applied to the Company are followed or not, and all the material differences from these standards are disclosed and explained in the Financial Statements;
- prepare the Financial Statements of the Company on the going-concern basis, except for the cases that the going-concern assumption is considered inappropriate;
- design and implement effectively the internal control system in order to ensure that the preparation and presentation of the Financial Statements are free from material misstatements due to frauds or errors.

The Board of Directors hereby ensures that all the accounting books of the Company have been fully recorded and can fairly reflect the financial position of the Company at any time, and that all the accounting books have been prepared in compliance with the applicable Accounting System. The Board of Directors is also responsible for managing the Company's assets and consequently has taken appropriate measures to prevent and detect frauds and other irregularities.

The Board of Directors hereby commits to the compliance with the aforementioned requirements in preparation of the Financial Statements.

Approval on the Financial Statements

The Board of Management hereby approves the accompanying Financial Statements, which give a true and fair view of the financial position as of 31 December 2024, the financial performance and the cash flows for the fiscal year then ended of the Company in conformity with the Vietnamese Accounting Standards and System and other legal regulations related to the preparation and presentation of Financial Statements.

For and on behalf of the Board of Management,
General Director

Nguyen Phuong Dung

IV. ACCOUNTING POLICIES

1. Accounting convention

All the Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

2. Cash and cash equivalents

Cash includes cash on hand and demand deposits. Cash equivalents are short-term investments of which the due dates cannot exceed 3 months from the dates of the investments and the convertibility into cash is easy, and which do not have a lot of risks in the conversion into cash as of the balance sheet date.

3. Financial investments

Trading securities

Investments classified as trading securities are those held by the Company for the trading purpose with the aim of making profit.

Trading securities are recognized at original costs which include fair value of the payments made at the time of the transaction plus other costs attributable transaction costs.

The time of recognizing trading securities is when the Company acquires the ownership, as follows:

- For listed securities: recognized at the time of order-matching (T+0).
- For unlisted securities: recognized at the time of acquiring official ownership as stipulated by law.

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

FINANCIAL STATEMENTS

For Quarter I of 2025

Notes to the Financial Statements (cont.)

Interest, dividends, and profit of the periods prior to the acquisition of trading securities are recorded as a decrease in the value of such securities. Interest, dividends and profit of the periods after the acquisition of such securities are recorded in the Company's revenue. Particularly, the dividends paid in form of shares are not recorded as an increase in value, but the increasing quantity is followed up.

Provision for devaluation of trading securities is made for each particular type of securities in the market of which the fair value is lower than original costs. The fair value of trading securities is determined as follows:

- For securities listed on the stock market: the closing price at the latest date of transaction to the balance sheet date.
- For shares registered for transactions on the transaction market of the unlisted public companies and the state-owned enterprises equitized under the form of selling stocks to the public (UPCom): the average reference price in the last 30 consecutive transaction days before the balance sheet date disclosed by the Stock Exchange.
- For shares listed on the stock market or shares of joint stock companies registered for trading on UPCom market which have no transaction within 30 days prior to the date of provision extraction, listed shares which have been delisted, suspended or stopped from trading: provision is made based on the loss of the invested Company equal to the difference between the actual investment capital of the owners and the owner's equity as of the balance sheet date multiplied by the Company's ownership rate of charter capital to the total charter capital actually contributed.

Increases/ (decreases) in the provision for devaluation of trading securities are recorded into "Financial expenses" during the year.

Gain on or loss from transfer of trading securities is recognized into financial income or financial expenses. Original costs are determined in accordance with the mobile weighted average method.

Held-to-maturity investments

Investments are classified as held-to-maturity investments that the Company intends and is able to hold to maturity. Held-to-maturity investments only include term deposits. Interest from these held-to-maturity investments after acquisition date is recognized in the profit or loss on the basis of the interest income to be received.

Loans

Loans are determined at original costs less allowance for doubtful debts. Allowance for doubtful debts of loans is made on the basis of estimated losses.

Investments in subsidiaries

Subsidiary

Subsidiary is an entity that is controlled by the Company. Control is the Company's power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

Initial recognition

Investments in subsidiaries are initially recognized at costs, including the cost of purchase or capital contributions plus other directly attributable transaction cost. In case of investment in non-monetary assets, the costs of the investment are recognized at the fair value of non-monetary assets at the arising time.

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

FINANCIAL STATEMENTS

For Quarter I of 2025

Notes to the Financial Statements (cont.)

Dividends and profit of the periods prior to the purchase of investments are recorded as a decrease in value of such investments. Dividends and profit of the periods after the purchase of investments are recorded into the Company's revenue. Particularly, the dividends paid in form of shares are not recorded as an increase in value, but the increasing quantity is followed up.

Provision for impairment of investments in subsidiaries

Provision for impairment of investments in subsidiaries is made when the subsidiaries suffer from losses at the rate equal to the difference between the actual capital contributed by parties in subsidiaries and the actual owner's equity multiplying (x) the Company's rate of capital contribution over the total actual capital contributed by the parties in subsidiaries. If the subsidiaries are consolidated into Consolidated Financial Statements, the basis for impairment provision is the Consolidated Financial Statements.

Increases/ (decreases) in the provision for impairment of investments in subsidiaries are recorded into "Financial expenses".

Investments in equity instruments of other entities

Investments in equity instruments of other entities include such investments in equity instruments that do not enable the Company to have the control, joint control or significant influence on these entities.

Investments in equity instruments of other entities are initially recognized at costs, including cost of purchase or capital contribution plus other directly attributable transaction costs. Value of these investments is derecognized for dividends and profits arising in the periods prior to the acquisition of such investments. Dividends and profit arising in the periods after the acquisition of investments are recorded into revenue. Particularly, the dividends paid in form of shares are not recorded as an increase in value, but the increasing quantity of shares is followed up.

Provision for impairment of investments in equity instruments of other entities is made as follows:

- For investments in listed shares or fair value of investments which is reliably measured, provision is made on the basis of the market value of shares.
- For investments of which the fair value cannot be measured at the time of reporting, provision is made on the basis of the losses suffered by investees, at the rate equal to the difference between the actual capital invested by investors and the actual owner's equity multiplying (x) by the Company's rate of charter capital in these investees.

Increases/ (decreases) in the provision for impairment of investments in equity instruments of other entities are recorded into "Financial expenses" during the year.

4. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Company and customers who are independent to the Company.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt on the basis of the estimated loss.

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

FINANCIAL STATEMENTS

For Quarter I of 2025

Notes to the Financial Statements (cont.)

Increases/ (decreases) in the obligatory allowance for doubtful debts as of the balance sheet date are recorded into "General and administration expenses".

5. Inventories

Inventories are recognized at the lower of cost or net realizable value.

Costs of inventories are determined as follows:

- For work-in-process of real estate projects: Costs comprise expenses of hiring contractors to implement items of real estate projects and other directly relevant costs.
- Property held for sale (including property built for sale during the Company's normal operation period): Costs comprise expenses of land use right, direct costs and relevant general expenses incurred during construction investment of property.
- Other merchandises: Costs comprise costs of purchases and other directly relevant costs incurred in bringing the inventories to their present location and conditions.

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for inventories is recognized for each type of inventories when their costs are higher than their net realizable value. Increases/ (decreases) in the obligatory allowance for inventories as of the balance sheet date are recorded into "Costs of sales".

Costs of property sold are recognized into the Income Statement based on direct costs constituting the property and general expenses, allocated on the basis of the corresponding area of that property.

6. Prepaid expenses

Prepaid expenses comprise actual expenses arising and relevant to financial performance in several accounting periods. Prepaid expenses of the Company mainly include expenses of tools and selling expenses for projects not yet handed over. These prepaid expenses are allocated in the prepayment term or the term in which corresponding economic benefit is derived from these expenses.

Tool

Expenses of tools being put into use are allocated into expenses in accordance with the straight-line method for the maximum period of 3 years.

Project selling expenses

Project selling expenses (including brokerage commission expenses, sale bonus expenses and etc.) are allocated into expenses corresponding to the number of apartments handed over to customers during the year.

7. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Company to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into operation costs during the year.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

FINANCIAL STATEMENTS

For Quarter I of 2025

Notes to the Financial Statements (cont.)

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied are as follows:

<u>Fixed assets</u>	<u>Years</u>
Buildings and structures	20 - 50
Office equipment	10
Vehicles	3
Other fixed assets	3 - 7

8. Intangible fixed assets

Intangible fixed assets are determined by their initial costs less accumulated amortization.

Initial costs of intangible fixed assets include all the costs paid by the Company to bring the asset to its working condition for its intended use. Other costs relevant to intangible fixed assets arising subsequent to initial recognition are included into operation costs during the period only if these costs are associated with a specific intangible fixed asset and result in future economic benefits expected to be obtained from the use of these assets.

When an intangible fixed asset is sold or disposed, its initial costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the year.

Intangible fixed asset of the Company includes Computer software. Purchase price of computer software, which is not a part associated with the relevant hardware, will be capitalized. Costs of computer software include all the expenses paid by the Company until the date the software is put into use. Computer software is amortized in accordance with the straight-line method in 3- 5 years.

9. Investment property

Investment property includes hotel apartments, shophouses owned by the Company. Investment property for lease is measured at the historical cost less accumulated depreciation. Historical costs of an investment property include all the expenses paid by the Company or the fair value of other consideration given to acquire the investment property at the time of its acquisition or construction.

Expenses related to investment property arising subsequent to initial recognition should be added to the historical costs of the investment property when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing investment property, will flow to the Company.

When the investment property is sold or disposed, its historical costs and accumulated depreciation are written off, then any gain or loss arising from such disposals is included in the income or the expenses during the year.

The transfer from owner-occupied property or inventories into investment property shall be made when, and only when, there is a change in use evidenced by the end of owner-occupation and the commencement of an operating lease to another party or the end of construction. The transfer from investment property to owner-occupied property or inventories shall be made when, and only when, there is a change in use evidenced by the commencement of owner-occupation or the commencement of development with a view to sale. The transfer from investment property to owner-occupied property or inventories does not change the historical cost or net book value of investment property at the date of transfer.

Investment property for lease is depreciated in accordance with the straight-line method over its estimated useful life. The depreciation years applied are as follows:

<u>Fixed assets</u>	<u>Years</u>
Hotel apartments	44

10. Construction-in-progress

Construction-in-progress reflects the expenses (including relevant loan interest expenses following the accounting policies of the Company) directly related to the construction of plants and the installation of machinery and equipment to serve for production, leasing, and management as well as the repair of fixed assets, which have not been completed yet. Assets in the progress of construction and installation are recorded at historical costs and not depreciated.

11. Payables and accrued expenses

Payables and accrued expenses are recorded based on the amounts payable for goods and services already used. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses, and other payables is made on the basis of following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets and the seller is an independent entity with the Company.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provision of services.

Payables and accrued expenses are classified into short-term and long-term ones in the Balance Sheet based on the remaining terms as of the balance sheet date.

12. Owner's equity

Capital

Capital is recorded according to the actual amounts contributed by the shareholders.

Share premiums

Share premiums are recorded in accordance with the difference between the issuance price and face value upon the IPO, additional issue or the difference between the re-issuance price and carrying value of treasury shares and the equity component of convertible bonds upon maturity date. Expenses directly related to the additional issue of shares and the re-issuance of treasury shares are recorded as a decrease in share premiums.

13. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Company as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

Dividends are recorded as payables upon approval of the General Meeting of Shareholders.

14. Recognition of sales and income

Sales of real estate

Sales of real estate that invested by the Company shall be recognized when all of the following conditions are satisfied:

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

FINANCIAL STATEMENTS

For Quarter I of 2025

Notes to the Financial Statements (cont.)

- Real estate is fully completed and handed over to buyers, and the Company transfers most of risks and benefits incident to the ownership of real estate to buyers;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the real estate sold.
- The amount of sales can be measured reliably.
- The Company received or shall probably receive the economic benefits associated with the transaction.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Sales of providing services

Sales of providing services are recognized when the result of such transaction is determined reliably. In case the transaction of providing services relates to many periods, sales are recognized during the period based on the result of completed work as of the balance sheet date of that period. The result of providing services is recognized when all of the following 4 conditions are satisfied:

- The amount of sales can be measured reliably;
- The Company received or shall probably receive the economic benefits associated with the rendering of services;
- The stage of completion of the transaction at the end of reporting period can be measured reliably; and
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

Income from leasing operating assets

Income from leasing operating assets is recognized in accordance with the straight-line method during the lease term.

In case, the leasing duration holds over 90% of the assets' useful lives, sales shall be once recognized for the whole leasing amount received in advance when all of the following conditions are satisfied:

- The lessees have no right to cancel the lease contracts and the Company is not obliged to return the money received in advance in any case and in any form.
- The amount received in advance from leasing is not less than 90% of total estimated rental amount to be received in accordance with the contract during the lease term and the lessees shall pay the whole rental within 12 months commencing from the initial asset lease date.
- Mostly all risks and benefits incident to the ownership of asset are transferred to the lessees.
- Costs related to leasing operation can be rather adequately estimated.

Interest

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

Dividends and profits shared

Dividends and profits shared are recognized when the Company has the right to receive dividends or profits from the capital contribution. Particularly, the dividends paid in form of shares are not recorded as an increase in value, but the increasing quantity is followed up.

15. Borrowing costs

Borrowing costs are interests and other costs that the Company directly incurs in connection with the borrowings.

Borrowing costs are recorded as expenses when they are incurred. In case the borrowing costs are directly attributable to the construction or the production of an asset in progress, which takes a substantial period of time (over 12 months) to get ready for intended use or sales of the asset, these costs will be included in the cost of that asset. To the extent that the borrowings are especially for the purpose of construction of fixed assets and investment properties, the borrowing cost is eligible for capitalization even if construction period is under 12 months. Incomes arisen from provisional investments as loans are recognized as a decrease in the costs of relevant assets.

APEC INVESTMENT JOINT STOCK COMPANY

Address: Floor 3, Grand Plaza Building, No. 117 Tran Duy Hung, Trung Hoa Ward, Cau Giay District, Hanoi City

FINANCIAL STATEMENTS

For Quarter I of 2025

Notes to the Financial Statements (cont.)

In the event that general borrowings are partly used for the acquisition, construction or production of an asset in progress, the costs eligible for capitalization will be determined by applying the capitalization rate to average accumulated expenditure on construction or production of that asset. The capitalization rate is computed at the weighted average interest rate of the borrowings not yet paid during the period, except for particular borrowings serving the purpose of obtaining a specific asset.

16. Expenses

Expenses are those that result in outflows of the Company's economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

17. Corporate income tax

Corporate income tax only includes current income tax, which is the tax amount computed based on the taxable income. Taxable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

18. Related parties

A party is considered a related party of the Company in case that party is able to control the Company or to cause material effects on the financial decisions as well as the operations of the Company. A party is also considered a related party of the Company in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

19. Segment reporting

A business segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Company that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

The segment information is prepared and presented in conformity with the accounting policy applied for the preparation and presentation of the Company's Financial Statements.
