2. BASIS FOR PREPARING CONSOLIDATED FINANCIAL STATEMENTS AND FISCAL YEAR

2.1 FISCAL YEAR, CURRENCY USED IN ACCOUNTING

The Company's fiscal year begins on January 1 and ends on December 31 of the calendar year. These consolidated financial statements are prepared for the period from January 1, 2025 to March 31, 2025.

The currency used in accounting and in preparing these Consolidated Financial Statements is Vietnam Dong (VND).

2.2 ACCOUNTING STANDARDS AND REGIMES APPLIED

Accounting Regulations

The Corporation applies the accounting regulations for enterprises issued by Circular No. 200/2014/TT-BTC dated December 22, 2014, by the Ministry of Finance, and Circular No. 53/2016/TT-BTC dated March 21, 2016, by the Ministry of Finance, which amends and supplements certain provisions of Circular No. 200/2014/TT-BTC and Circular No. 202/2014/TT-BTC guiding the method of preparing and presenting consolidated financial statements.

Statement of Compliance with Accounting Standards and Regulations

The Corporation has applied the Vietnamese Accounting Standards and the guidelines issued by the government. The interim separate financial statements have been prepared and presented in full compliance with the applicable regulations, including the relevant standards, circulars, and accounting practices currently in effect.

2.3 BASIS FOR PREPARING CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements of the Corporation are prepared on the basis of consolidating the separate financial statements of the Corporation and the financial statements of the subsidiaries controlled by the Corporation (subsidiaries) prepared for the accounting period from January 1, 2025 to March 31, 2025. Control is achieved when the Corporation has the power to control the financial and operating policies of the investee companies so as to obtain benefits from their activities.

The financial statements of the subsidiaries are prepared using accounting policies that are consistent with those of the Parent Company. Where necessary, adjustments are made to the financial statements of the subsidiaries to ensure consistency in the accounting policies used by the Parent Company and its subsidiaries.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Significant balances, income and expenses, including unrealized gains or losses arising from intra-group transactions, are eliminated in consolidating the financial statements.

Non-controlling interest is the portion of the profit or loss and net assets of a subsidiary not held by the parent company.

Value after initial recognition

There are currently no regulations on revaluation of financial instruments after initial recognition.

2.5 CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, bank deposits, cash in transit, short-term investments or highly liquid investments. Highly liquid investments are those with original maturities of no more than 03 months, which are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

2.6 FINANCIAL INVESTMENTS

Held-to-maturity investments include: term bank deposits held to maturity for the purpose of earning periodic interest and other held-to-maturity investments.

Investments in equity instruments of other entities include: investments in equity instruments of other entities without control, joint control or significant influence over the investee. The initial book value of these investments is determined at cost. After initial recognition, the value of these investments is determined at cost less provision for investment value reduction.

Provisions for devaluation of investments are made at the end of the specific period as follows

- For long-term investments that do not have significant influence on the investee based on the financial statements at the time of provisioning of the investee.
- For investments held to maturity: based on the ability to recover to set up provisions for doubtful debts according to the provisions of law.

2.7 ACCOUNTS RECEIVABLE

Accounts receivable are tracked in detail by the maturity period, the debtor, the currency of receivable, and other factors according to the management needs of the Corporation. Accounts

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

receivable are classified as short-term or long-term in the separate financial statements based on the remaining maturity of receivables at the reporting date.

Provision for doubtful accounts is made for: Overdue receivables as per economic contracts, loan agreements, contractual commitments, or debt commitments; Receivables not yet due but deemed difficult to collect. In this context, the provision for overdue receivables is made based on the original repayment schedule of the sales contract, without considering any debt rescheduling between the parties. Receivables not yet due but where the debtor is in bankruptcy, liquidation, or other conditions indicating potential losses, are also considered for provision.

2.8 INVENTORY

Inventory is initially recognized at cost, which includes: purchase cost, processing cost, and other directly related costs incurred to bring the inventory to its location and condition at the time of initial recognition. After initial recognition, if the net realizable value of inventory is lower than its cost, inventory is recognized at its net realizable value.

The net realizable value is estimated based on the selling price of the inventory less estimated costs to complete the product and estimated selling costs.

Inventory value is determined using the weighted average method.

Inventory is recorded using the periodic system.

The method for determining the value of unfinished goods at year-end: The cost of unfinished work is accumulated based on each incomplete project or unrecognized revenue, corresponding to the unfinished work at the end of the year.

Work in progress costs of production activities are collected according to actual costs incurred for each type of unfinished product.

Provision for inventory write-downs is made at year-end based on the difference between the cost of inventory and its net realizable value.

2.9 FIXED ASSETS

Tangible fixed assets and intangible fixed assets are initially recorded at original cost. During use, tangible fixed assets and intangible fixed assets are recorded at original cost, accumulated depreciation and residual value.

Fixed asset depreciation is provided using the straight-line method with the estimated depreciation period as follows:

- Buildings and structures	10 - 25 years
- Machinery and other equipment	03 - 20 years
- Transportation vehicles	06 - 10 years
- Management tools and equipment	03 - 08 years
- Leasehold rights	32 years
- Computer software	10 years

2.10 INVESTMENT REAL ESTATE

Investment properties are initially recognized at cost.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

For investment properties leased for operation, they are recognized at cost, accumulated depreciation, and carrying value. Depreciation is calculated using the straight-line method, with the estimated useful life as follows:

- Buildings and structures: 25 years

2.11 CONSTRUCTION IN PROGRESS

Construction in progress includes fixed assets under purchase and construction that have not been completed at the end of the accounting period and are recognized at cost. This cost includes construction, installation of machinery and equipment, and other direct costs.

2.12 OPERATING LEASES

An operating lease is a type of lease for fixed assets where the majority of the risks and benefits associated with ownership belong to the lessor. Payments under an operating lease are recognized in the income statement using the straight-line method based on the lease term.

2.13 PREPAID EXPENSES

Expenses that have been incurred but will benefit multiple accounting periods are recorded as prepaid expenses and allocated to the income statement over the relevant periods.

For long-term prepaid expenses, the allocation is based on the nature and extent of each type of expense to select a reasonable method and allocation criterion.

Prepaid land expenses include advance land rent, as well as any expenses related to land use rights that do not meet the conditions for recognition as intangible fixed assets under Circular No. 45/2013/TT-BTC, issued by the Ministry of Finance on April 25, 2013. These costs are recorded in the income statement using the straight-line method based on the lease term.

Tools and supplies, which are assets held for normal business activities with an acquisition cost below VND 30 million, do not qualify for fixed asset recognition. The cost of tools and supplies is amortized on a straight-line basis over 1 to 3 years.

Repair expenses are recorded at cost and amortized on a straight-line basis over 1 to 3 years.

Other prepaid expenses are recorded at cost and amortized over their useful life using the straight-line method for 1 to 3 years.

2.14 LIABILITIES

Payables are monitored by payment term, payable entity, original currency and other factors according to the management needs of the Corporation. Payables are classified as short-term and long-term in the interim consolidated financial statements based on the remaining term of the payables at the reporting date.

2.15 LOAN

Loans are tracked by lender, loan agreement and loan maturity.

2.16 BORROWING COSTS

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Borrowing costs are recognized as production and business expenses in the period when incurred, except for borrowing costs directly related to the investment in construction or production of unfinished assets, which are included in the value of that asset (capitalized) when meeting all the conditions specified in Vietnamese Accounting Standard No. 16 "Borrowing costs". In addition, for separate loans for the construction of fixed assets, investment real estate, interest is capitalized even when the construction period is less than 12 months.

2.17 EXPENSES PAYABLE

Payables for goods and services received from sellers or provided to buyers during the reporting period but not actually paid and other payables such as loan interest payable, construction cost deductions... are recorded in production and business expenses of the reporting period.

Accounting for payable expenses into production and business expenses in the period must be carried out according to the principle of matching between revenue and expenses incurred in the period. Payable expenses will be settled with the actual expenses incurred. The difference between the provision and actual expenses will be reversed.

2.18 PROVISIONS FOR PAYABLES

Provisions are only recognized when the following conditions are met:

- The corporation has a present obligation (legal or constructive) as a result of a past event;
- It is probable that an outflow of economic benefits will result in a requirement to settle the obligation;
- Provide a reliable estimate of the value of that liability.

The amount recognised as a provision is the best estimate of the expenditure required to settle the present obligation at the end of the reporting period. Only expenditure relating to the provision originally recognised is offset against that provision.

The provision for payables is recorded in the production and business expenses of the accounting period. The difference between the amount of provision for payables established in the previous accounting period that is not fully used and the amount of provision for payables established in the reporting period is reversed and recorded as a reduction in production and business expenses in the period.

2.19 UNREALIZED REVENUE

Unearned revenue includes revenue received in advance such as: amounts paid in advance by customers for one or more accounting periods for asset leasing.

Unearned revenue is transferred to sales and service revenue at the amount determined in accordance with each accounting period.

2.20 OWNER'S EQUITY

The owner's equity is recognized based on the actual capital contributed by the owner.

Share premium reflects the difference between the par value, direct costs associated with the issuance of shares and the issue price of shares (including cases of re-issuance of treasury shares) and can be a positive surplus (if the issue price is higher than the par value and direct costs associated with the issuance of shares) or a negative surplus (if the issue price is lower than the par value and direct costs associated with the issuance of shares).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Other capital belonging to owner's equity reflects the business capital formed by supplementing from business results or by being given, donated, sponsored, or revaluation of assets (if allowed to record an increase or decrease in Owner's Investment Capital).

Undistributed profit after tax reflects the business results (profit, loss) after corporate income tax and the situation of profit distribution or loss handling of the Corporation. The profit distributed by the Corporation to the owners does not exceed the undistributed profit after tax on the consolidated financial statements after excluding the impact of profits recorded from bargain purchases. Undistributed profit after tax can be distributed to investors based on the capital contribution ratio after being approved by the General Meeting of Shareholders and after setting aside funds according to the Corporation's Charter and the provisions of Vietnamese law.

The Corporation sets aside the following funds from the Corporation's net profit after corporate income tax upon the proposal of the Board of Directors and approved by shareholders at the Annual General Meeting of Shareholders:

- Development investment fund: this fund is set aside to serve the expansion of operations or in-depth investment of the Corporation.
- Bonus and welfare fund and Executive Board bonus fund: this fund is set aside to reward, encourage materially, bring common benefits and improve welfare for employees and is presented as a payable on the interim consolidated balance sheet.

Dividends payable to shareholders are recorded as payables on the Corporation's interim consolidated balance sheet after the dividend payment notice of the Corporation's Board of Directors and the dividend ex-dividend date notice of the Vietnam Securities Depository Center.

2.21 REVENUE

Sales revenue

Sales revenue is recognized when all of the following conditions are met:

- The significant risks and rewards of ownership of the goods have been transferred to the buyer;
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the Group;
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Service revenue

Revenue from the provision of services is recognized when all of the following conditions are met:

- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the entity;
- The portion of the transaction completed at the balance sheet date can be measured reliably;
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

The portion of the service provision that has been completed is determined using the method of assessing the completion of the transaction.

Operating lease revenue

Operating lease revenue mainly includes fixed asset lease revenue and office lease revenue which are recognized in the statement of income on a straight-line basis over the lease term as stipulated in the lease contract.

Construction contract revenue

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

Construction contracts stipulate that contractors are paid according to the value of the volume of work performed. When the results of the construction contract are reliably determined and confirmed by the customer, revenue and expenses related to the contract are recorded corresponding to the completed work confirmed by the customer in the year reflected on the issued invoice.

Increases and decreases during contract performance, bonuses and other payments are only included in revenue when agreed with the customer.

Financial revenue

Revenue arising from interest, royalties, dividends, profits distributed and other financial income is recognized when both (2) of the following conditions are satisfied:

- It is possible to obtain economic benefits from the transaction;
- Revenue is determined relatively reliably.

Dividends and profits distributed are recognized when the Corporation is entitled to receive dividends or is entitled to receive profits from capital contributions.

2.22 COST OF GOODS SOLD

Giá Cost of goods sold in the period is recorded in accordance with the revenue generated in the period and ensures compliance with the principle of prudence. Cases of material loss exceeding the norm, costs exceeding the normal norm, lost inventory after deducting the responsibility of the relevant collective or individual, etc. are fully and promptly recorded in the cost of goods sold in the period.

2.23 FINANCIAL COSTS

Expenses recorded in financial expenses include:

- Expenses or losses related to financial investment activities;
- Borrowing costs;

The above items are recorded according to the total amount incurred during the period, not offset against financial revenue.

2.24 CORPORATE INCOME TAX

Deferred Tax Assets and Deferred Tax Liabilities

Deferred income tax assets are determined based on the total deductible temporary differences and the carry-forward of unused tax losses and unused tax credits. Deferred income tax liabilities are determined based on taxable temporary differences. Deferred income tax assets and deferred income tax liabilities are determined using the current income tax rates based on the tax rates and tax laws that have been enacted at the end of the reporting period.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Current corporate income tax expense and Deferred corporate income tax expense

Current corporate income tax expense is determined based on taxable income in the period and corporate income tax rate in the current accounting period.

Corporate Income Tax Rate

The Corporation is currently applying a corporate income tax rate of 20% for activities generating taxable income for the accounting period from January 1, 2024 to December 31, 2024.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)

2.25 EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the profit or loss after tax attributable to shareholders owning common shares of the Corporation (after adjusting for the Bonus and Welfare Fund and the Executive Board Bonus Fund) by the weighted average number of common shares outstanding during the period.

2.26 STAKEHOLDERS

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. The Corporation's related parties include:

- Enterprises that directly or indirectly through one or more intermediaries control, or are controlled by, or are under common control with the Corporation, including parent companies, subsidiaries and associates;
- Individuals who directly or indirectly hold voting power of the Corporation and have significant influence over the Corporation, key management personnel of the Corporation, close family members of these individuals;
- Enterprises in which the above individuals directly or indirectly hold a significant portion of voting power or have significant influence over these enterprises.

In considering each related party relationship for the purpose of preparing and presenting the consolidated financial statements, the Corporation pays attention to the substance of the relationship rather than the legal form of such relationships.

2.27 PART INFORMATION

A segment is a distinguishable component of the Group that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment). Each segment is subject to risks and rewards that are different from those of other segments. Segment information is prepared and presented in accordance with the accounting policies applied to the preparation and presentation of the Group's financial statements in order to help users of the financial statements understand and evaluate the Group's operations as a whole.
