REVIEW REPORT ON THE INTERIM FINANCIAL INFORMATION

On the interim consolidated financial statements of Ha Tinh Minerals And Trading Joint Stock Corporation For the period from 01 January 2025 to 30 June 2025

To:

The Shareholders

Board of Management and Board of General Directors Ha Tinh Minerals And Trading Joint Stock Corporation

We have reviewed the accompanying interim consolidated financial statements of Ha Tinh Minerals and Trading Joint Stock Corporation (hereinafter referred to as the "Corporation") prepared on 12 August 2025, from page 06 to page 60, comprising the interim consolidated balance sheet as at 30 June 2025, the interim consolidated income statement, the interim consolidated cash flow statement for the period from 01 January 2025 to 30 June 2025, and the accompanying Notes to the interim consolidated financial statements.

The Board of General Director's responsibility

The Board of General Directors is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and related legal regulations on the preparation and presentation of the consolidated financial statements, and for such internal control as the Board General Director determines is necessary to enable the preparation and presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express a conclusion on the interim consolidated financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review Engagements No. 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review of interim financial information consists primarily of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim consolidated financial statements do not present fairly, in all material respects, the interim consolidated financial position of Ha Tinh Minerals And Trading Joint Stock Corporation as at 30 June 2025, and its interim consolidated financial performance and its interim consolidated cash flows for the period from 01 January 2025 to 30 June 2025, in accordance with Vietnamese Accounting Standards, Vietnamese Corporate Accounting System and the related legal regulations on the preparation and presentation of interim consolidated financial statements.

REVIEW REPORT ON THE INTERIM FINANCIAL INFORMATION (CONT'D)

Emphasis of Matter

As stated Note No. 39 of the Notes to the Consolidated Financial Statements, which describes certain financial indicators of several subsidiaries of the Corporation as at 30 June 2025, indicating the existence of material uncertainties that may cast significant doubt on the ability of these subsidiaries to continue as going concerns. However, the financial statements of these subsidiaries for the period from 01 January 2025 to 30 June 2025 have still been prepared on a going concern basis and do not affect the Corporation's interim consolidated financial statements for the same period. This is based on the belief of the Corporation's Board of General Directors and the Boards of Directors of the subsidiaries and associates that these companies will be able to continue their production and business activities, generate sufficient cash flows to meet debt obligations as they fall due, and maintain their going concern status over the next 12 months. In addition, the Corporation is developing a plan to divest from subsidiaries with prolonged inefficiencies and losses.

Our opinion is not modified in respect of this matter.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

(These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements)

1. COMPANY OVERVIEW (CONT'D)

1.5 STATEMENT ON THE COMPARABILITY OF INFORMATION IN THE FINANCIAL STATEMENTS

The comparative figures on the interim consolidated financial statements for the period from 01 January 2025 to 30 June 2025 are the figures on the audited financial statements for the year ended 31 December 2024 and the interim consolidated financial statements for the period from 01 January 2024 to 30 June 2024 of the Corporation.

2. BASIS OF PREPARATION OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS AND FINANCIAL YEAR

2.1 BASIS OF PREPARATION OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS

The interim consolidated financial statements include the financial statements of the Corporation and its controlled entities (subsidiaries) for the period from 01 January 2025 to 30 June 2025. Control is achieved when the Corporation has the ability to govern the financial and operating policies of the investee companies to derive benefits from their activities.

The results of operations of subsidiaries acquired or sold during the year are included in the consolidated income statements from the date of acquisition or up to the date of disposal.

The financial statements of the subsidiaries are prepared using accounting policies that are consistent with those of the Corporation. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in line with those of the Corporation and subsidiaries.

Significant balances, income, and expenses, including unrealised gains or losses arising from intra-group transactions, are eliminated in the consolidation process.

Non-controlling interests are presented in the consolidated balance sheet as a consolidated item in the equity section. The non-controlling interest in the consolidated income statement of the Corporation and subsidiaries must also be presented as a consolidated item in the consolidated statement of profit or loss.

2.2 ACCOUNTING PERIOD AND ACCOUNTING CURRENCY

The accompanying interim consolidated financial statements are prepared for the period from 01 January 2025 to 30 June 2025.

The currency used in accounting records is Vietnamese Dong (VND).

2.3 STATEMENT OF COMPLIANCE WITH ACCOUNTING STANDARDS AND REGULATIONS

The Corporation's interim consolidated financial statements are prepared and presented in accordance with the requirements of the Vietnamese Accounting Standards, the Vietnamese Corporate Accounting System, and related legal regulations on the preparation and presentation of interim consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

(These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements)

2. BASIS OF PREPARATION OF INTERIM CONSOLIDATED FINANCIAL STATEMENTS AND FINANCIAL YEAR (CONT'D)

2.3 STATEMENT OF COMPLIANCE WITH ACCOUNTING STANDARDS AND REGULATIONS (CONT'D)

The Corporation applies the Vietnamese Corporate Accounting System issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance, Circular No. 53/2016/TT-BTC dated 21 March 2016 of the Ministry of Finance on amending and supplementing a number of articles of Circular No. 200/2014/TT-BTC and Circular No. 202/2014/TT-BTC guiding the method of preparing and presenting consolidated financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted by the Corporation in the preparation of these interim consolidated financial statements are as follows:

3.1 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The accounting policies used by the Corporation to prepare the interim consolidated financial statements the period from 01 January 2025 to 30 June 2025 are applied consistently with the policies applied to prepare the interim consolidated financial statements the period from 01 January 2025 to 30 June 2025.

3.2 ACCOUNTING ESTIMATES

The preparation of the interim consolidated financial statements in accordance with Vietnamese Accounting Standards requires the Board of General Directors to make estimates and assumptions that affect the reported amounts of assets, liabilities and the disclosure of contingent assets and liabilities at the date of the interim consolidated financial statements as well as the reported amounts of revenues and expenses during the financial year. Actual consolidated results may differ from those estimates and assumptions.

3.3 CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, bank deposits, cash in transit, and short-term investments or highly liquid investments. Highly liquid investments are those with an original maturity of no more than three months, readily convertible to known amounts of cash, and subject to insignificant risk of changes in value.

3.4 FOREIGN CURRENCY TRANSACTIONS

The exchange rate used to convert monetary items denominated in foreign currencies at the financial year-end is determined based on the following principles:

- For receivables: the buying rate of the commercial bank where the Company designates the customer to make payment at the transaction date;
- For payables: the selling rate of the commercial bank where the Company plans to transact at the time the transaction occurs;

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.4 FOREIGN CURRENCY TRANSACTIONS (CONT'D)

- For asset purchases or expenses settled immediately in foreign currency (not through payable accounts): the buying rate of the commercial bank where the Company makes the payment.

The exchange rate used for retranslating foreign currency-denominated monetary items at the end of the financial year is determined based on the actual exchange rate of the commercial bank at as at the year-end date.

Foreign exchange differences arising from foreign currency transactions during the year are recognized in financial income or financial expenses. Foreign exchange differences resulting from the year-end revaluation of monetary items denominated in foreign currencies, after offsetting any exchange gains and losses, are also recognized in financial income or financial expenses.

3.5 FINANCIAL INVESTMENTS

Held-to-maturity investment

An investment is classified as held to maturity when the Corporation has both the intention and the ability to hold it until to maturity. Held-to-maturity investments include: bank term deposits, bonds and other investments.

Held-to-maturity investments are initially recognized at cost, including purchase price and directly attributable transaction costs. After initial recognition, these investments are measured at their recoverable amount. Interest income from held-to-maturity investments after acquisition is recognized in the Income Statement on an accrual basis. Interest earned before acquisition is deducted from the initial cost at the purchase date.

Held-to-maturity investments are determined at cost less provision for doubtful debts.

Provision for bad debts of held-to-maturity investments is made based on current regulations.

Investments in associates and joint-ventures

Associates: An associate is an entity over which the Corporation has significant influence but does not have control over its financial and operating policies. Significant influence is demonstrated through the right to participate in decision-making regarding financial and operating policies of the investee but not to control or co-control over these policie.

The financial performance, assets, and liabilities of associates are incorporated in the consolidated financial statements using the equity method. Investments in associates are initially recorded in the consolidated balance sheet at cost and subsequently adjusted for changes in the Corporation's share of the net assets of the associate after the acquisition date. Losses of an associate exceeding the Corporation's investment in that associate (including any long-term interests that, in substance, form part of the Corporation's net investment in the associate) are not recognized.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.5 FINANCIAL INVESTMENTS (CONT'D)

Investments in equity of other entities

Equity investments in other entities include investments in equity instruments of entities over which the Corporation does not have control, joint control, or significant influence. The initial carrying amount of these investments is recognized at cost. Subsequent to initial recognition, these investments are measured at cost less impairment provision.

Provision for impairment of investments is made at the end of the period specifically as follows:

- For long-term investments (not classified as trading securities) where the Corporation does not have significant influence over the investee: If the investment is in listed shares or its fair value can be reliably determined, the provision is based on the market value of the shares. If the fair value of the investment cannot be determined at the reporting date, the provision is based on the investee's financial statements at the provision recognition date.
- For held-to-maturity investments: The provision for doubtful debts is made based on recoverability in accordance with prevailing regulations.

3.6 ACCOUNTS RECEIVABLE AND PROVISION FOR BAD DOUBTFUL DEBTS

Receivables include: receivables from customers, advances to sellers and other receivables at the reporting date.

The classification of receivables into trade receivables and other receivables is carried out according to the following principles:

- Trade receivables represent commercial receivables arising from sales transactions between the Corporation and independent buyers, including receivables from entrusted export sales made through other entities;
- Other receivables reflect non-commercial receivables that are not related to sales transaction.

A provision for doubtful debts is made for receivables that are overdue as stipulated in economic contracts, loan agreements, contractual commitments or debt agreements, as well as for receivables that are not yet due but are unlikely to be recoverable. The provision for overdue receivables is based on the repayment schedule of principal as specified in the original sales contract, disregarding any debt rescheduling between the parties. A provision is also made for receivables that are not yet due but where the debtor has filed for bankruptcy, is in the process of liquidation, is missing, has absconded, or where a probable loss is anticipated.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D) 3.

INVENTORIES 3.7

Inventories are initially recognised at cost, which includes purchase costs, processing costs, and other directly attributable costs incurred to bring the inventories to their current location and condition. After initial recognition, if the net realisable value of inventories at the date of the consolidated financial statements is lower than their cost, inventories are measured at net realisable value.

Net realizable value is estimated based on the selling price of the inventories less the estimated costs of completion and the estimated costs necessary to make the sale.

The value of inventories is determined by the weighted average method.

Inventories are accounted for by the perpetual inventory system.

Method of determining the value of work in progress at the end of the period:

Work-in-progress costs are accumulated based on actual costs incurred for each type of unfinished product.

The provision for inventory devaluation is made by the Corporation in accordance with current accounting regulations. Accordingly, the Corporation is allowed to make a provision for inventories that are obsolete, damaged, or of substandard quality, and in cases where the cost of inventories exceeds their net realisable value at the end of the accounting period.

TANGIBLE FIXED ASSETS 3.8

The initial cost of a tangible fixed asset purchased comprises purchase price (net of trade discounts or rebates), any taxes and any directly attributable costs of bringing the asset to its working condition for its intended use.

Subsequent expenditures after initial recognition are only capitalized if it is certain that these expenditures will increase the future economic benefits derived from the asset. Any costs that do not meet this criterion are recognized as expenses in the period incurred

Tangible fixed assets are depreciated on a straight-line basis over its estimated useful life. Tangible fixed assets are classified into groups of assets with similar characteristics and purposes in the Corporation's production and business activities. The estimated useful life for different types of tangible fixed assets are as follows:

Type of assets	<u>Useful lives (years)</u>
 Buildings and structures Machines and equipment Vehicles and transmission equipment 	03 - 40 $03 - 10$ $03 - 10$
- Office equipment - Other assets	02 - 05 08

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.9 INTANGIBLE FIXED ASSETS

Intangible fixed assets are recognised at historical cost and presented in the balance sheet at historical cost, accumulated amortisation, and net book value. The historical cost of intangible fixed assets includes all costs incurred by the Corporation to acquire the asset up to the point the asset is ready for its intended use. Subsequent expenditures related to intangible fixed assets are recognised as production and business expenses in the period incurred, unless such costs are directly attributable to a specific intangible asset and result in future economic benefits from that asset.

The recognition and amortisation of intangible fixed assets comply with Vietnamese Accounting Standard No. 04 – Intangible Fixed Assets, Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance on enterprise accounting guidelines, Circular No. 45/2013/TT-BTC dated 25 April 2013 on the regime for the management, use, and depreciation of fixed assets, Circular No. 147/2016/TT-BTC dated 13 October 2016 amending and supplementing certain articles of Circular No. 45/2013/TT-BTC, and Circular No. 28/2017/TT-BTC dated 12 April 2017 amending and supplementing certain provisions of Circular No. 45/2013/TT-BTC and Circular No. 147/2016/TT-BTC.

When an intangible asset is sold or disposed of, its historical cost and accumulated amortisation are derecognized, and any resulting gain or loss is recognized in profit or loss for the year.

The Corporation's intangible assets include land use rights, software, right to issue, patent copyrights and other assets. Intangible assets are amortized using the straight-line method over their estimated useful lives.

Type of assets		Useful lives (years)
- Land use rights		20
- Copyrights, patents		20
- Computer software	*	02 - 05
- Other assets	100	10

3.10 CONSTRUCTION IN PROGRESS

Construction in progress reflects costs directly related (including related interest expenses in accordance with the Corporation's accounting policies) to assets under construction, machinery and equipment being installed for production, leasing and management purposes as well as costs related to repairs of fixed assets in progress. These assets are recorded at historical cost and are not depreciated.

3.11 INVESTMENT PROPERTY

Investment properties are initially recognized at historical cost.

For investment properties held for capital appreciation, depreciation was applied using the straight-line method prior to 01 January 2015, similar to other assets. However, from 01 January 2015, depreciation is no longer applied.

(These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D) 3.

INVESTMENT PROPERTY (CONT'D) 3.11

For investment real estate for operating lease, it is recorded at historical cost, accumulated depreciation and residual value. In which, depreciation is calculated using the straight-line method with the estimated depreciation period as follows:

Type of assets

- Buildings and structures

Useful lives (years)

A transfer from owner-occupied property or inventory to investment property is made only when there is a change in use, such as when the owner ceases to use the property for its own purposes and begins to lease it out under an operating lease, or when construction is completed. A transfer from investment property to owner-occupied property or inventory is also made only when there is a change in use, such as when the owner commences using the property for its own purposes or for development with a view to sale. Such transfers do not change the historical cost or carrying amount of the property at the date of transfer.

OPERATING LEASES 3.12

An operating lease is a lease of fixed assets in which substantially all the risks and rewards associated with ownership are retained by the lessor. Payments under operating leases are recognised as expenses in the income statement on a straight-line basis over the lease term.

PREPAID EXPENSES 3.13

Expenses that relate to the operating results of multiple accounting periods are recorded as prepaid expenses and gradually allocated to the income statement over subsequent periods.

The calculation and allocation of long-term prepaid expenses to production and business costs in each accounting period are based on the nature and magnitude of each type of expense, using an appropriate and reasonable allocation method.

The Corporation's prepaid expenses include:

- Prepaid land expenses, including prepaid land lease payments, and amounts related to leased land for which the Corporation has received a land use right certificate but which do not meet the criteria for recognition as an intangible fixed asset under Circular No. 45/2013/TT-BTC issued by the Ministry of Finance on 25 April 2013 guiding regulation on management, use and depreciation of fixed assets, as well as other expenses incurred to secure the right to use leased land. These expenses are recognised in the consolidated income statement on a straight-line basis over the lease term
- Tools and equipment include assets held by the Corporation for use in the ordinary course of business, with an individual historical cost of less than VND 30 million and therefore do not meet the criteria for recognition as fixed assets under current regulations. The historical cost of tools and equipment is allocated on a straight-line basis over a period of one year.
- Land compensation and site clearance costs related to the Workers' Housing Project are allocated to the income statement on a straight-line basis over 40 years starting from 01 April 2022.

3.13 PREPAID EXPENSES (CONT'D)

- Sow and breeding pig costs are allocated to the production and business results on a straight-line basis over a period of 24 to 36 months from the time of incurrence.
- The cost of renting commercial pig pens and farms of individuals is allocated to the results of business activities using the straight-line method corresponding to the rental period.
- Other prepaid expenses are recorded at the original cost and are allocated using the straightline method over their useful lives from 06 months to 40 years.

3.14 LIABILITIES

Ha Tinh Province

Liabilities represent amounts payable to suppliers and other parties. They include trade payables and other payables. Liabilities are not recognized at amounts lower than the obligations to be settled.

Liabilities are classified as follows:

- Trade payables reflect commercial payables arising from purchases of goods, services, and assets, where the supplier is an independent entity from the Corporation.
- Other payables reflect non-commercial payables that are not related to the purchase or sale of goods and services

3.15 ACCRUED EXPENSES

Accrued expenses refer to actual expenses incurred during the reporting year but not yet paid due to the absence of invoices or insufficient supporting documents. These expenses are recognized as an expense in the year.

The accrual of these expenses during the year must be prudent and supported by reasonable and reliable evidence to ensure that the amounts recorded are consistent with the actual expenses incurred.

3.16 PROVISIONS

Provisions are recognized when the Corporation has a present obligation (legal or constructive) as a result of a past event, the settlement of which is expected to result in an outflow of economic benefits, and the amount of the obligation can be reliably estimated.

Provisions are recognized as expenses in profit or loss in that accounting period. Any excess provision made in prior years that remains unused and exceeds the required provision in the reporting period is reversed and recorded as a reduction in expenses, except for provisions related to construction warranty obligations, which are reversed to other income in the reporting period.

INTERIM CONSOLIDATED FINANCIAL STATEMENTS For the period from 01/01/2025 to 30/06/2025

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

(These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D) 3.

LOAN AND FINANCE LEASE OBLIGATIONS 3.17

This category includes borrowings, excluding loans obtained through the issuance of bonds or preference shares that contain a mandatory redemption clause at a specified future date.

The Corporation maintains detailed records of borrowings by creditor and classifies them as either short-term or long-term based on the repayment schedule.

Directly attributable borrowing costs are recognized as finance costs, except for those related to specific borrowings used for investment, construction, or production of qualifying assets under construction, which are capitalised in accordance with the Accounting Standard on Borrowing Costs.

BONDS ISSUED 3.18

The Corporation issues regular bonds for the purpose of long-term borrowing.

The carrying amount of the bonds is reflected on a net basis, calculated as the face value of the bonds minus (-) the bond discount plus (+) the bond premium (if any).

The Corporation issues regular bonds for the purpose of paying contractors for the construction project of Berth No. 3 at Vung Ang Port, Ha Tinh.

BORROWING COSTS 3.19

Borrowing costs are recognized as an expense in profit or loss when incurred, except for borrowing costs directly attributable to the acquisition, construction, or production of qualifying assets, which are capitalised as part of the cost of such assets in accordance with Vietnamese Accounting Standard No. 16 "Borrowing Costs". Additionally, for general borrowings used for the construction of fixed assets and investment properties, interest costs are capitalised even if the construction period is less than 12 months.

UNEARNED REVENUES 3.20

Unearned revenue includes advance payments received from customers for one or more accounting periods related to asset leases. Unearned revenue is recognized as sales and service revenue based on the amount attributable to each financial year.

OWNER'S EQUITY 3.21

Owner's equity contributions are recognized based on the actual amount contributed by the shareholders.

Share premium represents the difference between the issue price and nominal value of shares, net of directly attributable issuance costs. Share premium may be positive (when the issue price exceeds the par value and related issuance costs) or negative (when the issue price is lower than the par value and related issuance costs).

INTERIM CONSOLIDATED FINANCIAL STATEMENTS For the period from 01/01/2025 to 30/06/2025

Ha Tinh Province NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

(These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D) 3.

OWNER'S EQUITY (CONT'D) 3.21

Treasury shares are shares repurchased by the Corporation before the effective date of the 2019 Securities Law (01 January 2021) but not yet cancelled, and they may be reissued within the legally permitted timeframe. Treasury shares repurchased after 01 January 2021 must be cancelled and deducted from equity.

Revaluation surplus are recognized in the following cases: when there is a State decision on asset revaluation, during the equitisation of state-owned enterprises, and in other cases as prescribed by law.

Retained earnings reflect the business results (profit, loss) after corporate income tax and the Corporation's profit distribution or loss handling situation.

Dividends payable to shareholders are recognized as payables in the Corporation's Balance Sheet after the Board of Management has announced the dividend distribution.

The Corporation appropriates the following reserves from the Corporation's net profit after corporate income tax, based on the proposal of the Board of Directors and approval by shareholders at the Annual General Meeting:

- Development Investment Fund: This fund is set aside to serve the expansion of the Corporation's operations or in-depth investment
- Bonus and Welfare Fund and Board of Directors: This fund is set aside to reward, encourage materially, bring common benefits and improve the welfare of employees and is presented as a payable on the Consolidated Financial Statements.

Dividends payable to shareholders are recorded as payables on the Corporation's Balance Sheet after the dividend payment notice of the Corporation's Board of Directors and the dividend record date notice of the Viet Nam Securities Depository and Clearing Corporation.

REVENUE RECOGNITION 3.22

Revenue is recognized when it is probable that the economic benefits will flow to the Corporation and can be reliably measured.

Revenue from the sale of goods and finished products

Revenue from the sale of goods and finished goods is recognised when all five (5) of the following conditions are met:

The Corporation has transferred substantially all the risks and rewards of ownership of the goods or products to the buyer;

The Corporation no longer retains control over or managerial involvement with the goods as would be the case with ownership;

The revenue amount can be measured reliably. If the contract allows the buyer to return the goods under specific conditions, revenue is recognised only after those conditions are no longer applicable and the buyer no longer has the right to return the goods (except in cases where the customer can exchange the goods for other goods or services);

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.22 REVENUE RECOGNITION (CONT'D)

- It is probable that the economic benefits associated with the transaction will flow to the Corporation; and
- The costs associated with the sale transaction can be measured reliably.

Revenue from rendering of services

Revenue from a transaction involving the rendering of services is recognised when the outcome of the transaction can be measured reliably. In the case of a transaction involving the rendering of services that involves several years, revenue is recognised in the year based on the results of the work completed at the closing date of the Financial Statements of that year. The results of a transaction involving the rendering of services are recognised when all four (4) of the following conditions are met:

- Revenue can be measured reliably. If the contract allows the buyer to return purchased services under specific conditions, revenue is only recognized when those conditions no longer exist and the buyer no longer has the right to return the provided service.
- There is a probability that economic benefits will flow to the Corporation.
- The stage of completion of the service at the reporting date can be reliably determined.
- The costs incurred for the transaction and the costs to complete the service transaction can be measured reliably.

Financial income

Income generated from interest, dividends, distributed profits, and other financial income is recognized when both of the following two (2) conditions are met:

- The economic benefits associated with the transaction are likely to be obtained;
- The revenue amount can be reliably measured.

Dividends and profits distributed are recognized when the Corporation is entitled to receive dividends or is entitled to receive profits from capital contributions.

Revenue deductions

Revenue deductions from sales of goods and services arising during the year include trade discounts and sales returns.

Trade discounts and sales returns arising in the same year as the sale of products, goods, or services are deducted from revenue in that year. If revenue deductions relate to products, goods, or services sold in prior years and arise in a subsequent year, the Corporation recognises revenue deductions based on the following principle:

- If the revenue deduction occurs before the financial statements are issued, it is recorded as a reduction of revenue in the financial statements for the reporting year (the prior year).
- If the revenue deduction occurs after the financial statements are issued, it is recorded as a reduction of revenue in the year in which it arises (the subsequent year).

INTERIM CONSOLIDATED FINANCIAL STATEMENTS For the period from 01/01/2025 to 30/06/2025

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

(These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements)

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D) 3.

3.23 COST OF GOODS SOLD

The cost of goods sold (COGS) for the year is recognised in line with the revenue generated during the year and in compliance with the prudence principle. Losses of materials and goods exceeding standard allowances, excessive costs, and inventory losses, after deducting the liability attributable to relevant individuals or entities, are fully and promptly recognised in the cost of goods sold for the year.

3.24 FINANCIAL EXPENSES

Expenses recorded in financial costs include:

- Expenses or losses related to financial investment activities;
- Borrowing costs;
- Provisions for investment losses in other entities, losses arising from selling foreign currencies, exchange rate losses.

These expenses are recognized at their total amounts incurred during the year without offsetting against financial income.

CORPORATE INCOME TAX 3.25

Current corporate income tax expense

Current corporate income tax expense is determined based on taxable income for the period and corporate income tax rate in the current accounting period.

Deferred corporate income tax expense is determined based on deductible temporary differences, and corporate income tax rate.

Corporate income tax rate

During the accounting period from 01 January 2025 to 30 June 2025, the Corporation is subject to a corporate income tax rate of 20% on business activities generating taxable income.

EARNINGS PER SHARE 3.26

Basic earnings per share are calculated by dividing the net profit or loss after tax attributable to ordinary shareholders of the Corporation (adjusted for allocations to the Reward and Welfare Fund and the Board of Directors Reward Fund) by the weighted average number of ordinary shares outstanding during the period.

3.27 RELATED PARTIES

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties of the Corporation include:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

(These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

3.27 RELATED PARTIES (CONT'D)

- Enterprises that directly or indirectly through one or more intermediaries control, or are controlled by, or are under common control with the Corporation, including parent companies, subsidiaries and associates;
- Individuals who directly or indirectly own voting power of the Corporation that gives them significant influence over the Corporation, key management personnel of the Company, and close family members of these individuals;
- Enterprises in which the above individuals directly or indirectly hold a significant part of the voting power or have significant influence over these enterprises.

In considering each possible related party relationship for the preparation and presentation of the consolidated financial statements, the Corporation pays attention to the substance of the relationship rather than the legal form.

3.28 SEGMENT INFORMATION

A segment is a separately identifiable component of the Corporation that engages in providing related goods or services (business segment) or in providing goods and services within a specific economic environment (geographical segment). Each of these segments is subject to risks and derives benefits that are distinct from those of other segments.

Segment information is prepared and presented in accordance with the accounting policies applied for the preparation and presentation of the Corporation's financial statements, to assist users in comprehensively understanding and evaluating the Corporation's operational performance.

INTERIM CONSOLIDATED FINANCIAL STATEMENTS For the period from 01/01/2025 to 30/06/2025

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (CONT'D)

(These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial statements)

39. INFORMATION ABOUT GOING CONCERN (CONT'D)

For the group of two companies, including: Ha Tinh Agriculture and Forestry Development Joint Stock Company and Thien Loc Animal Feed Joint Stock Company, business activities in the first six months of 2025 showed positive developments. As of 30 June 2025, the accumulated loss of Ha Tinh Agriculture and Forestry Development JSC decreased to over VND 17,000,000,000 (compared to over VND 27,000,000,000 as of 31 December 2024), and that of Thien Loc Animal Feed JSC decreased to nearly VND 18,000,000,000 (compared to over VND 23,000,000,000 as of 31 December 2024). The main reasons are due to the live pig price remaining high compared to the same period in 2024, while the input costs for animal feed production showed a downward trend, contributing to improved gross profit margins. These companies have taken advantage of favorable market conditions to increase sales through purchasing partners, and have continued to receive working capital support from banks, shareholders, and suppliers. These resources have been effectively utilized to maintain stable business operations and gradually improve financial capacity.

For the group of five companies: Mitraco Infrastructure Investment and Development Company Limited, Mitraco Trading Joint Stock Company, Mitraco Mechanical and Construction Joint Stock Company, Thien Y 2 Joint Stock Company, and Mitraco Agricultural Seeds and Materials Company Limited, the management teams are currently developing business plans to ensure profitability in the second half of 2025 and in the following years. The objective is to offset the accumulated losses incurred in previous years.

For the group of five companies, including: Mitraco Processed Food Company Limited, Manganese Mineral Joint Stock Company, Transport and Construction Joint Stock Company, Mitraco Brick Joint Stock Company, and Thach Khe Iron Materials and Additives Joint Stock Company. Ha Tinh Minerals and Trading Corporation – JSC (the parent company of these subsidiaries) is formulating a plan to carry out the divestment procedures from these inefficient and long-loss-making production and business entities in accordance with the Resolution of the 2025 Annual General Meeting of Shareholders No. 68/NQ-DHDCD-MTA dated 20 June 2025.

Accordingly, the Board of General Directors of the Corporation has assessed that the use of the going concern assumption in the preparation of the consolidated financial statements for the period from 01 January 2025 to 30 June 2025 is appropriate.

40. EVENTS AFTER THE REPORTING DATE

The Board of General Directors confirms that no significant events have occurred after the reporting date that would materially affect the consolidated financial statements, requiring adjustment or disclosure.
