Pursuant to Circular No. 96/2020/TT-BTC dated November 16, 2020, issued by the Ministry of Finance regarding periodic information disclosure by listed organizations, which requires specific explanations in cases where profit after corporate income tax for the reporting period is negative,

Steel Structure Manufacturing Joint Stock Company hereby provides an explanation for the loss in profit after corporate income tax for the reviewed reporting period, as follows:

Profit after corporate income tax for the first six months of 2026 recorded a loss of VND 2.287 billion. The loss was primarily attributable to increases and fluctuations in input material prices, pressure from the global market on key materials such as zinc and steel, as well as higher borrowing interest rates.

The above factors resulted in a loss in profit after corporate income tax for the reporting period.

Respectfully yours!
