NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Quarter III 2025

I. CHARACTERISTICS OF Enterprise ACTIVITIES

1. Form of capital ownership: *Share capital*
2. Business sectors: *Exploitation, production and trading of clean water.*
3. Normal production and business cycle: 12 months
4. Enterprise structure

- List of affiliated units without legal status and dependent accounting:

+ Ha Noi Water Supply Number 2 Joint Stock Company Branch - Long Bien Clean Water Enterprise

Head office: No. 6 Dao Dinh Luyen Street - Phuc Loi Ward - Hanoi City, Vietnam

+ Ha Noi Water Supply Number 2 Joint Stock Company Branch - Dong Anh Clean Water Enterprise

Head office: Kinh No Village - Thu Lam Commune - Hanoi City, Vietnam

+ Ha Noi Water Supply Number 2 Joint Stock Company Branch - Gia Lam Clean Water Enterprise

Head office: Te Xuyen Village - Phu Dong Commune - Hanoi City, Vietnam

+ Ha Noi Water Supply Number 2 Joint Stock Company Branch - Construction and Installation Enterprise

Head office: Te Xuyen Village - Phu Dong Commune - Hanoi City, Vietnam

+ Ha Noi Water Supply Number 2 Joint Stock Company Branch - Design and Survey Consulting Enterprise

Head office: No. 6 Dao Dinh Luyen Street - Phuc Loi Ward - Hanoi City, Vietnam

+ Ha Noi Water Supply Number 2 Joint Stock Company Branch - Water Meter Inspection and Repair Center

Head office: Te Xuyen Village - Phu Dong Commune - Hanoi City, Vietnam

II. ACCOUNTING PERIOD, CURRENCY USED IN ACCOUNTING

1. Accounting period: The company's accounting period starts on January 1st and ends on December 31st every year.
2. Currency used in accounting: *Vietnamese Dong (VND)*

III. ACCOUNTING STANDARDS AND REGULATIONS APPLIED

1. Applicable accounting regime:

Accounting regulations applied: The company applies the Vietnamese Enterprise Accounting System issued under Circular No. 200/2014/TT-BTC dated December 22, 2014, by the Minister of Finance and its guiding circulars

2. Statement on compliance with accounting standards and regulations: In accordance with the Accounting Law

3. Accounting method applied: The company uses the voucher-based accounting method on computers

IV. ACCOUNTING POLICIES APPLIED

1. Principles for converting financial statements from foreign currency to Vietnamese Dong:

The application of exchange rates for converting financial statements follows the guidelines of the Enterprise Accounting System. Assets and liabilities are converted using the exchange rate at the end of the period, owner's equity is converted at the rate on the investment date, and the income statement and cash flow statement are converted using the actual exchange rate.

2. Types of exchange rates applied in accounting:

3. Principles for determining the actual interest rate (effective interest rate) used to discount cash flows:

Being the commercial bank lending interest rate commonly applied in the market at the time of the transaction.

4. Principles of recording cash and cash equivalents

Cash and cash equivalents include cash in hand, bank deposits, short-term investments with maturity not exceeding three months from the date of purchase, easily convertible to a known amount of cash and with an insignificant risk of change in value.

5. Accounting principles for financial investments:

Investments held to maturity

Investments held to maturity include investments that the Company has the intention and ability to hold until maturity. Investments held to maturity are term deposits at banks.

Investments held to maturity are recorded from the date of purchase and are initially valued at the purchase price and costs related to the purchase of the investments. Interest income from investments held to maturity after the date of purchase is recorded in the Income Statement on an accrual basis.

6. Accounting principles for receivables

Receivables are amounts collected from customers or other entities. Receivables are presented at book value less provisions for doubtful debts.

Provision for doubtful debts is made for receivables that are overdue, or receivables that the debtor is unlikely to pay due to liquidation, bankruptcy or similar difficulties.

Receivables are classified as: Customer receivables, other receivables and internal receivables. Receivables are tracked in detail by each entity and debt period up to the reporting date.

7. Principles of inventory recording:

- Principles of inventory recording: *According to the weighted average price at the end of the month.*
- Method of calculating inventory value: *According to the weighted average price at the end of the month*
- Method of accounting for inventory: *Regular declaration method*

8. Principles of recording and depreciating fixed assets

Principles of accounting for tangible fixed assets, intangible fixed assets

Tangible fixed assets, intangible fixed assets are recorded at original cost. During use, tangible fixed assets and intangible fixed assets are recorded at their original cost, accumulated depreciation and residual value;

Depreciation is calculated using the straight-line method. The depreciation period is calculated according to the depreciation period prescribed in Circular No. 45/2013/TT-BTC dated April 25, 2013 of the Ministry of Finance

9. Accounting principles for prepaid expenses

Prepaid expenses include actual expenses that have been incurred but are related to activities extending across multiple accounting periods. Prepaid expenses include costs such as chemicals pending allocation, the installation of water meters for allocation, replacement of centralized water meters pending allocation, and expenses for repairs and improvements to the water supply network

Chemical costs pending allocation are allocated to the income statement based on the volume of water produced during the year.

Installation costs for water meters, replacement of centralized meters, and repairs and improvements to the water supply network are allocated to the income statement using the straight-line method over 24 to 36 months.

10. Principles for Accounting Liabilities

Criteria for classifying payables:

- Payables to sellers include commercial payables arising from transactions of the nature of buying and selling goods, services, and assets. Payables include payables when importing through a consignee.
- Internal payables include payables between the Company as a superior unit and Enterprises and branches as subordinate units without legal entity status for dependent accounting.
- Other payables are the remaining payables not classified as payables to customers or internal payables."

Payables are accounted for in detail for each subject, each payable content, detailed tracking of payment terms, detailed tracking by original currency

Payables with a remaining maturity of less than 12 months (less than one business production cycle) at the time of preparing the financial statements are classified as short-term debts; remaining payables not classified as short-term debts are classified as long-term debts. When preparing the financial statements, payables are reclassified according to this principle.

The Company re-evaluates payables to suppliers in foreign currencies at all times of preparing the financial statements. The actual transaction exchange rate when re-evaluating payables to suppliers is the foreign currency selling rate of the commercial bank where the Company designates customers to make payments at the time of preparing the financial statements, or where the Company regularly conducts transactions.

The Company will recognize a liability when there is evidence of a probable loss, in accordance with the prudence principle. Liabilities will not be recorded at amounts lower than the settlement obligation.

Provisions for payables are made at the time of preparing the financial statements in accordance with current regulations

11. Principles for Recognizing Loans and Financial Lease Liabilities

The value of a loan is recorded based on each disbursement and repayment. The value of a financial lease liability is the total amount payable, calculated as the present value of minimum lease payments or the fair value of the leased asset still payable at the financial statement date.

Loans and financial lease liabilities are accounted for in detail and monitored by each lending entity, the debtor, each loan agreement, each type of leased asset, the loan term, and the currency of the loan.

When preparing the financial statements, the balance of loans and financial lease liabilities denominated in foreign currencies is revalued at the exchange rate quoted by the bank where the Company transacts loans and financial leases.

12. Principles for Recognizing and Capitalizing Borrowing Costs

Borrowing costs are recognized as production or business expenses in the year incurred, unless they are capitalized according to the provisions of the Accounting Standard on "Borrowing Costs." Accordingly, borrowing costs directly related to the purchase, construction, or production of assets that require a relatively long period to complete and put into use or business are capitalized as part of the asset's cost until the asset is ready for use or business operations. Income generated from temporarily investing borrowed funds is deducted from the cost of the related asset. For loans specifically used to finance the construction of fixed assets or investment properties, borrowing costs are capitalized even if the construction period is less than 12 months.

The capitalization rate for borrowing costs is determined based on the actual cost of each specific project.

13. Principles of recording payable expenses

Reflecting payable amounts for goods and services received from the seller or provided to the buyer but not actually paid due to lack of invoices or insufficient accounting records and documents, recorded in production and business expenses on the basis of ensuring the principle of matching between revenue and expenses. When there are sufficient accounting records and documents, if there is a difference with the amount deducted, the accountant will make additional records or reduce the cost corresponding to the difference.

14. Principles and methods of recording provisions for payables:

The recorded value of a provision for payables is the most reasonable estimate of the amount that will be spent to settle the current debt obligation at the date of preparing the financial statements.

Only expenses related to the provision for payables initially established will be offset by that provision for payables.

The difference between the amount of provision for payables established in the previous accounting period that is not fully used up and the amount of provision for payables established in the reporting period is reversed and recorded as a reduction in production and business expenses in the period, except for the larger difference of the provision for payables for construction warranty which is reversed and recorded as other income in the period.

15. Principles of recording equity:

Principles for recording owners' capital contributions, capital surplus, and other capital of owners

The owners' capital is recorded according to the actual capital contribution of the owners.

Capital surplus is recorded according to the larger or smaller difference between the actual issuance price and the par value of shares when issuing shares for the first time, issuing additional shares or reissuing treasury shares.

Other capital of owners is recorded according to the remaining value between the fair value of assets that the Enterprise receives from other organizations and individuals after deducting (-) taxes payable (if any) related to these donated assets and the additional amount from business results.

Principles for recording exchange rate differences

Record exchange rate differences according to Circular 200/2014/TT-BTC dated December 22, 2014 regulating the accounting regime for Enterprises. Accordingly, the actual exchange rate difference arising during the period is transferred to the financial revenue or expense in the fiscal year. The exchange rate difference due to the revaluation of the balance of currency items, receivables and payables in foreign currency at the end of the year is transferred to the financial revenue or expense in the fiscal year.

Principle of recording undistributed profits

Undistributed profits after tax are the profits from the business activities after deducting (-) the adjustments due to the retroactive application of changes in accounting policies and retroactive adjustments of material errors of previous years.

Profits are distributed to owners according to the annual resolution of the general meeting of shareholders.

16. Principles and methods of revenue recognition:

Construction contract revenue

Construction contract revenue is recognized when the results of the construction contract are reliably determined and confirmed by the customer, then the revenue and costs related to the contract are recognized corresponding to the completed work in the period reflected on the issued invoice.

Revenue from the sale of goods

Recognized when all of the following conditions are met:

Revenue from the sale of goods is recognized when all of the following conditions are met:

- The majority of the risks and benefits associated with the ownership of the product or goods have been transferred to the buyer;
- The company no longer holds the right to manage the goods as the owner of the goods or the right to control the goods;
- The revenue is determined relatively reliably;
- The company has obtained or will obtain economic benefits from the sale transaction;

Financial income

Being revenue arising from bank deposit interest and interest from foreign exchange rate differences arising during the period, recorded on the basis of monthly bank deposit interest notices and interest from exchange rate changes of transactions arising related to foreign currencies

17. Principles for Accounting Cost of Goods Sold:

When recognizing revenue, a corresponding cost (cost of goods sold) related to generating that revenue is also recognized. This cost includes expenses incurred during the period in which the revenue is recognized, as well as expenses from prior periods or accrued expenses that are related to the revenue of the current period.

18. Principles for Accounting Financial Expenses:

Expenses recorded in financial expenses include: Expenses for lending and borrowing capital; Losses due to changes in exchange rates of transactions arising related to foreign currencies; Provisions for investment losses in other units.

The above amounts are recorded according to the total amount incurred during the period, not offset against financial revenue."

19. Principles of accounting for sales costs and business management costs

Management costs reflect all general costs of the Company such as: salaries and insurance of Company management staff, depreciation of fixed assets used for business management, land rent, business license tax, provision for bad debts, and outsourced services for the Company's management.

20. Principles and methods of recording current corporate income tax expenses

Current corporate income tax expenses are determined on the basis of taxable income and corporate income tax rates in the current year.

Other taxes are applied according to current tax laws in Vietnam.

VI. ADDITIONAL INFORMATION FOR ITEMS PRESENTED IN THE RESULTS STATEMENT BUSINESS ACTIVITIES

Unit: VND

1. Total revenue from sales and service provision

a. Revenue	<u>Quarter III 2025</u>	<u>Quarter III 2024</u>
- Water revenue	198,280,943,447	189,762,041,727
- Construction and design revenue	5,438,022,035	8,910,815,131
- Other revenue	923,312,444	964,047,916
Total	204,642,277,926	199,636,904,774

2. Cost of goods sold

	<u>Quarter III 2025</u>	<u>Quarter III 2024</u>
- Cost of water	91,293,495,594	85,400,256,658
- Cost of Construction and Design activities	5,432,805,710	9,012,011,956
- Cost of Other activities	16,157,267	17,845,000
Total	96,742,458,571	94,430,113,614

3. Financial revenue

	<u>Quarter III 2025</u>	<u>Quarter III 2024</u>
- Interest on deposits and loans	441,305,066	152,013,373
Total	441,305,066	152,013,373

4. Financial costs

	<u>Quarter III 2025</u>	<u>Quarter III 2024</u>
- Loan interest	8,318,462,642	7,049,885,969
Total	8,318,462,642	7,049,885,969

5. Selling and administrative expenses

	<u>Quarter III 2025</u>	<u>Quarter III 2024</u>
--	--------------------------------	--------------------------------

a. Administrative expenses incurred during the period	13,441,732,184	16,137,814,280
b. Selling expenses incurred during the period	68,677,630,130	70,851,017,674
6. Total current corporate income tax expense	<u>Quarter III 2025</u>	<u>Quarter III 2024</u>
Total accounting profit before corporate income tax	17,903,299,465	11,323,074,928
Non-deductible expenses when calculating corporate income tax	23,958,360	23,958,360
Taxable income for corporate income tax	17,927,257,825	11,347,033,288
Current corporate income tax rate	20%	20%
Total current corporate income tax expense	3,585,451,565	2,269,406,658

VII. OTHER INFORMATION

1. Contingent liabilities, commitments and other financial information

2. Events occurring after the balance sheet date

There are no material events occurring after the balance sheet date that require adjustment to or disclosure in the Financial Statements

3. Related party information

4. Presentation of assets, revenue, and operating results by segment

5. Comparative information:

6. Information about continuing operations
