Re: Explanation of post-tax profit in  
Q4 2025 exceeding 10% compared  
to Q4 2024

To:

- The State Securities Commission of Vietnam;
- Hanoi Stock Exchange.

Pursuant to the Securities Law No. 54/2019/QH14 dated November 26<sup>th</sup>, 2019, Circular No. 96/2020/TT-BTC dated November 6<sup>th</sup>, 2020, issued by the Ministry of Finance guiding information disclosure in the securities market, and the Information Disclosure Regulations of the Hanoi Stock Exchange,

Based on the financial statements for Q4/2025, Chan May Port JSC. (Ticker ID: CMP) hereby provides the following explanation for the variance in post-tax profit for Q4/2025, which increased by more than 10% compared to Q4/2024:

Due to the significantly lower cargo handling volume in the second quarter of 2025 compared to the same period in 2024, the Company's revenue for Q4/2025 reached only 78.8% of that in Q4/2024 (a decrease of over VND 19.5 billion, equivalent to a reduction of more than 21%). Consequently, the target for profit after corporate income tax in Q4/2025 was achieved at only 60.92% compared to the same period in 2024 (a decrease of over 39%).

*These details are explicitly presented in the explanatory notes of the Company's Q4/2025 financial statements.*

The above are the main reasons for the 10% increase in undistributed after-tax profit for this period compared to the same period in 2024.

We hereby affirm that the information provided is accurate and we accept full responsibility before the law for the disclosed content.

Sincerely./.
