MESSAGE OF THE CHAIRMAN OF THE BOARD OF DIRECTORS

44

IN 2025, THE INTERNATIONAL SITUATION IS EXPECTED TO CONTINUE FLUCTUATING. TURNING THESE CHALLENGES INTO DEVELOPMENT DRIVERS WILL BE AN IMPORTANT GOAL IN THE STRATEGY OF THE GROUP. THIS REQUIRES RELENTLESS EFFORT AND HIGH DETERMINATION FROM ALL EMPLOYEES, AS WELL AS THE SUPPORT AND COOPERATION OF OUR SHAREHOLDERS, PARTNERS, AND CUSTOMERS TO ACHIEVE THE STRATEGIC GOALS SET. TO ACHIEVE THESE TARGETS, WE ARE FOCUSING ON STRENGTHENING DOMESTIC CUSTOMERS, EXPANDING THE INTERNATIONAL MARKET, ENHANCING MANAGEMENT CAPACITY AND OPERATIONAL EFFICIENCY, PROMOTING STRATEGIC INVESTMENT ACTIVITIES, SEEKING M&A PARTNERS.

Dear Shareholders,

First of all, I would like to express my sincere and profound gratitude to all shareholders and investors for their continuous support and trust in Vocarimex throughout our development journey. Your invaluable support has played a crucial role in establishing a solid foundation for the company's sustainable growth in the future.

In 2024, alongside domestic and global economic fluctuations, many developed economies are facing the risk of slowing growth, despite the loosened monetary policies. While the global economy has not fallen into a recession, it remains below its potential, with inflation having cooled compared to 2023, but still exceeding target levels in many countries. Vietnam, although seeing some positive signs thanks to economic recovery policies from the Government, is also facing considerable challenges, including historic storms and floods causing significant losses, economic damages, job losses due to business downsizing, and a reduction in market purchasing Forecast for 2025, the global economy is expected to experience sudden, complex, and unpredictable developments, with the latest variable being the broad-based countervailing tax policy from the US Government (Trump 2.0), along with the reciprocal responses from nations worldwide. This is forecasted to have significant impacts on global economic growth, supply chain disruptions, increased costs, and inflation. Additionally, there will be the effects of geopolitical conflicts, competition between superpowers, the 4.0 industrial revolution, and the "digital era" - each with unprecedented characteristics, scope, and impact.

Vietnam, in light of the new tariff policy, is likely to face impacts on the domestic economic situation, especially in export activities, as the U.S. market accounts for about 30% of Vietnam's total export turnover in 2024. At the same time, there will be a loss of the advantage in Foreign Direct Investment (FDI), which accounts for 72% of export turnover in 2024. This could have a cascading effect on the production activities of domestic enterprises, with many businesses potentially closing, which would significantly affect employment. In addition, the restructuring process, changes in the governance structure during this transition period, and the government's plan to merge provinces also significantly affect the purchasing power of the market, thus impacting the overall economy.

Furthermore, the exchange rate of the U.S. dollar has been highly volatile, affecting the cost of raw material inputs.

Given these developments, we cautiously set a target of VND 500 billion in net revenue and VND 42 billion in pre-tax profit. To achieve these targets, we are focusing on:

- Strengthening domestic customers: Increasing relationships and searching for B2B partners in the domestic market.
- Expanding the international market: Strengthening relationships with partners and increasing export orders to international markets.

- Enhancing management capacity and operational efficiency: Streamlining the governance structure towards modernity, restructuring business activities, optimizing resources, and operational costs to ensure flexibility and efficiency, in line with the current economic context and the company's new development strategy.
- Promoting strategic investment activities, seeking M&A partners: Identifying potential companies for investment, contributing to generating profits alongside business operations. Additionally, we will collaborate with partners, investment funds, and financial companies to analyze potential factors and seek companies with similar directions to carry out M&A deals, enhancing the competitive position of Vocarimex in particular and the KIDO Group in general.

Dear Shareholders,

In 2025, the international situation is expected to continue fluctuating. Turning these challenges into development drivers will be an important goal in the strategy of the Group. This requires relentless effort and high determination from all employees, as well as the support and cooperation of our shareholders, partners, and customers to achieve the strategic goals set.

Finally, on behalf of the Board of Directors, I would like to express my sincere and profound gratitude to all shareholders, partners, customers, and employees for your continued trust and collaboration with Vocarimex over the years. We hope to continue receiving your invaluable support and companionship in the next stage of Vocarimex's development journey.

MR. TRAN KIM THANH
Chairman of the Board of Directors
Vietnam Vegetable Oil Industry Corporation - JSC

8 —— 2024 ANNUAL REPORT

q

MESSAGE OF GENERAL DIRECTOR

44

IN 2025, THE REVENUE AND PROFIT TARGETS ARE SET AT 500 BILLION VND AND 42 BILLION VND, RESPECTIVELY. WE FOCUS ON SEARCHING FOR B2B CLIENTS AND INTENSIFYING THE EXPORT OF GOODS TO INTERNATIONAL MARKETS; STREAMLINING AND INNOVATING OUR ORGANIZATIONAL STRUCTURE FOR GREATER EFFICIENCY; EFFECTIVELY MANAGING AND OPTIMIZING OPERATIONAL COSTS; INCREASING INVESTMENT OPPORTUNITIES IN PROMISING COMPANIES, AS WELL AS EVALUATING AND SEEKING COMPANIES WITH SHARED VISION AND MISSION FOR M&A ACTIVITIES.

Dear Shareholders,

In 2024, the global economy continued its slow and uneven recovery, continuously improving towards the end of the year. Military conflicts continued to escalate, strategic competition between major countries became increasingly fierce, many countries strengthened trade protection policies, public debt and budget deficits increased, the decline of some major economies, and global supply chain disruptions impacted world peace, stability, and economic growth.

In Vietnam, according to the General Statistics Office, in 2024, the domestic macro-economy was stable, inflation was lower than the target level, major balances were ensured, and social security was maintained... these were bright spots in economic growth compared to countries in the region and around the world. However, faced with pressure from global economic and political instability, the wave of layoffs continued, people's incomes increased slowly, domestic consumption increased slightly but due to the increase in the number of workers losing their jobs, aggregate demand weakened, VND/ USD exchange rate fluctuations significantly impact on input costs... In addition, climate change leading to

unprecedented storms and floods caused Vietnam to face great damage, takes a long time to recover.

These instabilities greatly impacted the production and business operations of most businesses due to increased caution in consumer spending. As for Vocarimex, it has continuously adapted to keep production and business activities operating stably.

In which, Vocarimex has:

- Innovated the corporate governance model towards modernity.
- Increased production capacity, seaport advantages, tank systems, especially a sesame oil pressing plant to promote export orders to the Japanese market.
- Focused on transforming the industry structure.
- Maintained stable revenue from affiliated companies, while gradually restructuring long-term financial investments to create abundant financial resources for the company to develop in new investment areas.

At the end of the 2024 financial year, Vocarimex achieved net revenue of approximately 419 billion VND. Accordingly, profit before tax in 2024 reached 65 billion VND, achieving 191.2% compared to the plan.

Dear Shareholders.

Since the new tariff policy of US President Donald Trump was announced, it has caused a wave of reactions around the world. The world economic situation in 2025 is forecast to have many fluctuations and challenges such as: Increased inflation, supply chain disruptions, impacts on export activities in many countries, threatening the employment situation of many workers...

In Vietnam, the combination of changes in the international arena and domestic reforms with management restructuring activities and the implementation of new projects, including the merger of provinces and cities. Combining both macro and domestic impacts, it is expected that market purchasing power and employment of

workers will have many fluctuations. Currently, the Government is actively negotiating with the US Government, as well as finding new directions in the current context to reduce damage.

With the economic and social fluctuations both domestically and internationally, in 2025, we will make every effort and utilize all available resources in the hope of achieving our revenue and profit targets of 500 billion VND and 42 billion VND, respectively. Given the strong impact on domestic enterprises, we will focus on:

- 1. Searching for B2B clients and intensifying the export of goods to international markets;
- 2. Streamlining and innovating our organizational structure for greater efficiency:
- 3. Effectively managing and optimizing operational costs:
- 4. Increasing investment opportunities in promising companies, as well as evaluating and seeking companies with shared vision and mission for M&A activities.

Overall, achieving the goals in the current context is a difficult problem that needs to be carefully considered, with thoughtful planning, management planning, decisive action, as well as the joint effort and consensus of Vocarimex's employees.

Once again, I would like to sincerely thank the esteemed shareholders for always trusting, supporting, and accompanying us over the years. Your trust and companionship will continue to be a great source of strength to help us complete the set strategies and plans.

Sincerely.

MR. TRAN TIEN HOANG

Value Chain of the Cooking Oil Industry from UPSTREAM to DOWNSTREAM

CAPACITY: 130,000 TONS PER YEAR

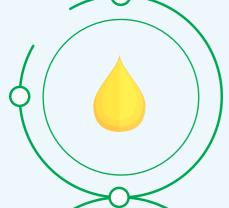

KIDO NHA BE CAPACITY: 100,000 TONS PER YEAR

BUSINESS SEGMENTS

SUPPLYING RAW EDIBLE OIL

One of Vocarimex's key business segments is supplying raw oil to industrial customers. Depending on the customer's requirements, Vocarimex will produce according to specialized ordering standards from product quality to production techniques. With a close connection between the import platform and the effective operation management system, Vocarimex is committed to providing customers with quality products at competitive prices.

OIL REFINING

Affirming its capacity in the field of production and oil refining, Vocarimex's factory can produce 130,000 tons of refined oil of all kinds and 120,000 tons of finished oil annually. In particular, the factory owns high-quality sesame oil production technology to meet the export needs of the Japanese market with a capacity of 4,000 tons/year.

EXPORT MARKET

Since 1997, Vocarimex has invested in modern machinery lines according to European standards to carry out refining, extraction, and packaging of oil products. To meet the strict standards and needs of each market such as: Japan, Korea, New Zealand, China... Vocarimex continuously improves the capacity of its staff to develop and expand its export market.

BY-PRODUCTS FROM OIL

In addition to the main component from the oil refining process, products such as: oil cake, stearin, shortening, and mixed fatty acids are by-products in the production of vegetable oil used as raw materials in the food processing and animal feed industries, which Vocarimex supplies to businesses operating in this field.

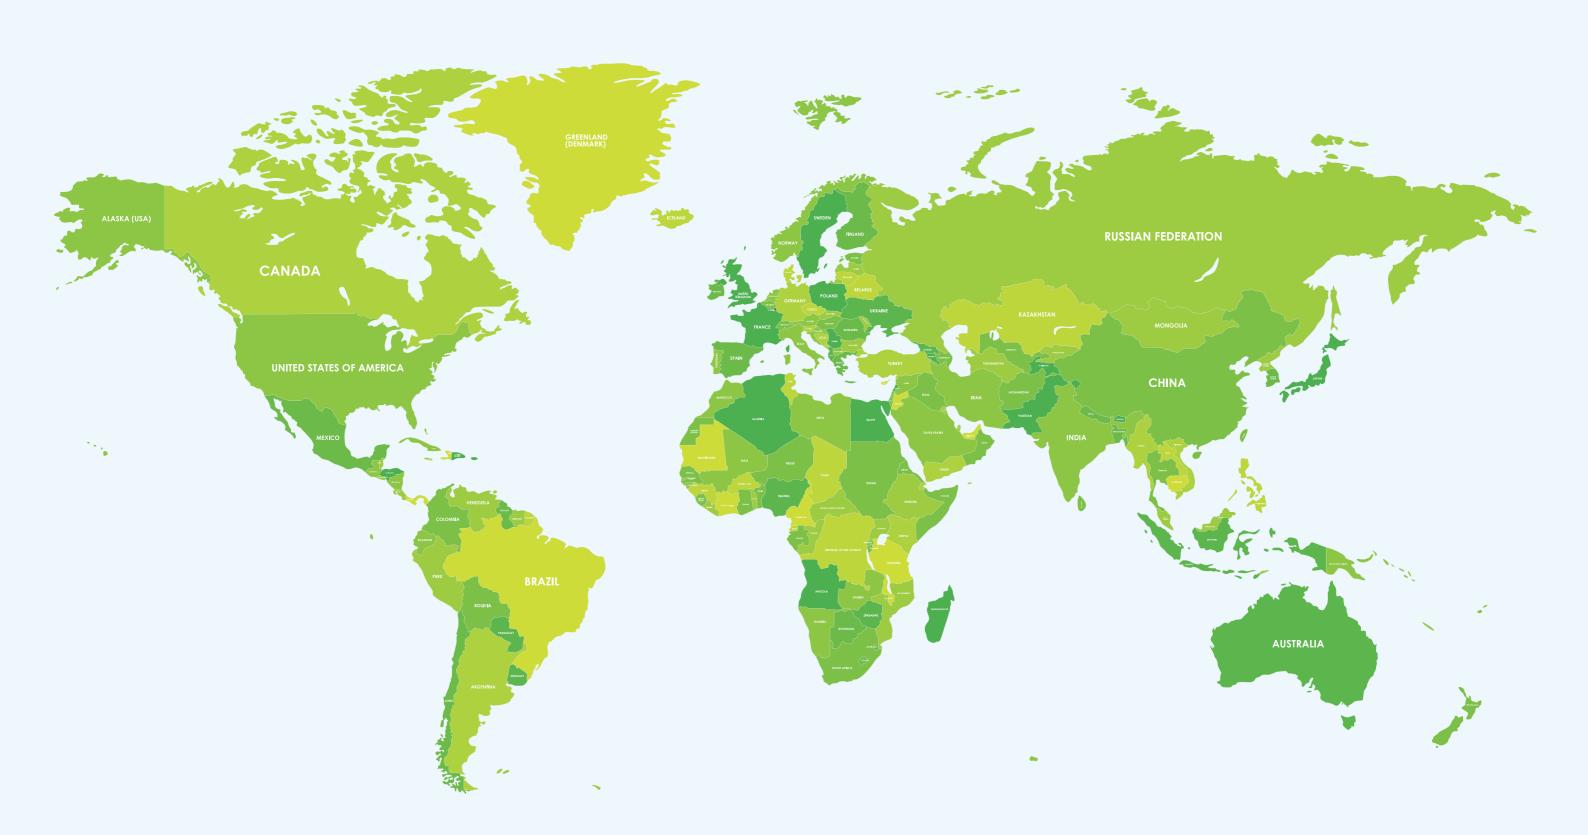

BUSINESS LINES AND BUSINESS LOCATION

BUSINESS LOCATION

Currently, Vocarimex's vegetable oil output is distributed to industrial channels and expanded for export. Vocarimex has its own policies for each specific segment.

For the industrial channel, Vocarimex focuses on Fast Moving Consumer Goods (FMCG) enterprises, which have a high demand for specialized oil formulas to produce finished products in industries such as confectionery, milk, instant noodles, seafood, pharmaceuticals and cosmetics.

For the export channel, Vocarimex's products have appeared in many countries with high quality standards such as New Zealand, China, Japan, South Korea, Southeast Asia...

MANAGEMENT MODEL, BUSINESS ORGANIZATION AND MANAGEMENT APPARATUS

MANAGEMENT MODEL

Above the Board of Directors is the General Assembly of Shareholders. The Board of Directors assigns the task of managing all production and business activities to the Executive Board.

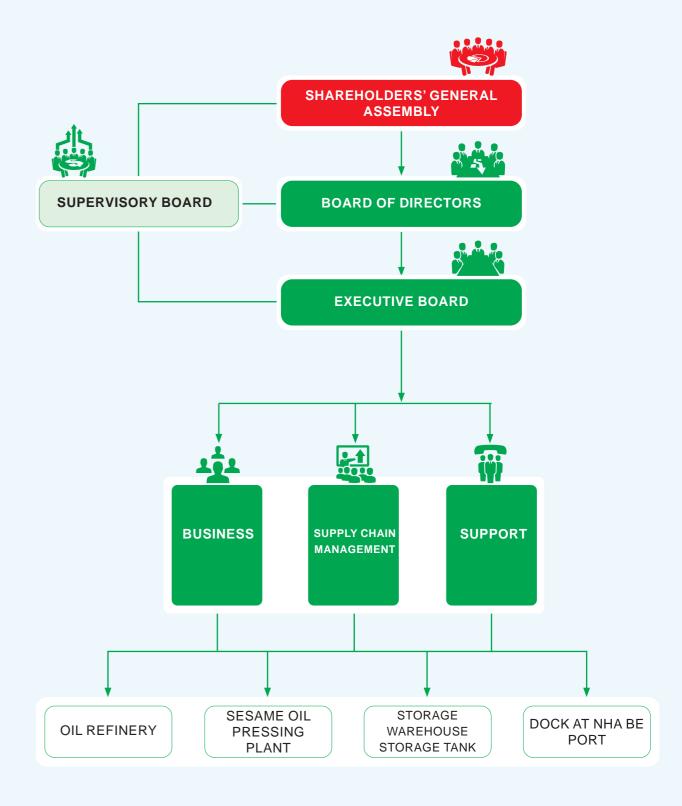

The Supervisory Board works alongside the Shareholders' General Assembly, the Board of Directors, and the Executive Board in the role of overseeing all company activities.

In order to create a balance between short-term and long-term goals, while ensuring the correct implementation of the planned strategic direction, the Executive Board directly regulates all activities and serves as the central point for departments to carry out their tasks. This is combined with the capabilities of each management division, which is specialized and professionalized along the vertical structure.

MANAGEMENT APPARATUS STRUCTURE

 \longrightarrow 24 \longrightarrow 2024 annual report \longrightarrow 25

MANAGEMENT APPARATUS STRUCTURE

44

THE COMPANY IS LED AND SUPERVISED BY THE EXECUTIVE BOARD IN IMPLEMENTING THE STRATEGIC GOALS OF THE GROUP AND DRIVING OVERALL BUSINESS RESULTS.

In order to balance short-term and long-term goals, KIDO Group has restructured to maintain a system of centralized and decentralized services in the process of operational integration with member units. Centralized services are identified as services that require long-term infrastructure investment and bring benefits from the scale of implementation at business units. Decentralized activities and services are designed for activities and functional departments that have close interaction with the market and consumers. Decentralized services include activities with short-term investments and require improvisation and flexible adaptation to market changes.

At the Group, strategic orientation is established and long-term investments are made to support each member unit within the Group. Based on the strategic direction from the Group, member units such as Vocarimex will hold different key roles and are allowed to operate flexibly according to the annual operating plan. Vocarimex is structured according to a management divisions including: Business Division, Supply Chain, and Support Division. The goal of each Division is to operate in coordination to maximize operational efficiency towards the goal of creating value and bringing practical experiences to customers.

DIVISION 1

(Business Division): Business, R&D, Marketing

Division 1 - Business Division is the Division that sets the direction for operations in sales, distribution, marketing, product development, and consumer research. Division 1 regularly interacts and connects closely with consumers, studies the competitive environment and market trends. From there, the departments of Division 1 can deeply understand the needs and bring the best services to customers. The role of Division 1 is to provide feedback and information to the entire Company and coordinate closely with the functional departments of the Company towards the goal of providing the right products, at the right time, in the right place and meeting consumer needs. The tasks of the support Divisions (Division 2 and Division 3) are placed around Division 1 to support, offer opinions to respond to or forecast customer needs, market trends and always put consumers at the center.

DIVISION 2

(Supply Chain Management Division): QA, Warehouse, Logistics, Material Purchasing

The next important functional group in the company's operating system is **Division 2** - Supply Chain Management (SCM) Division, which specializes in finished product production, quality control, logistics, and warehousing. The SCM Division is the core strength of the Group and brings success to Vocarimex. The SCM Division is responsible for managing the production of goods, production efficiency, and product distribution to achieve the highest efficiency. The close coordination of Division 2 with Division 1 helps ensure the supply of the right products, in the right quantities, to the right customers at the most competitive prices. This is an important step in customer policy and enhances the development of competitive advantages for Vocarimex.

DIVISION 3

(Support Division): Human Resources - Administration, Finance - Accounting, Systems

Division 3 - Support Division is a Division with specific functions to support the Company's operations including human resources, administration, financial accounting, and management accounting. The nature of the services provided by Division 3 relates to infrastructure, so services such as IT, Business Process Management, Communications, Investor Relations, Procurement Management and Finance are centrally managed by the Group. This allows each company to focus on generating profits and other values without being dominated by issues related to long-term infrastructure investment.

DEVELOPMENT ORIENTATIONS MAIN OBJECTIVES OF THE COMPANY

From the early days of its establishment, Vocarimex has always focused on product quality management, nutrition, and safety.

The company focuses on investing in advanced technology and equipment to improve product quality, offering high-quality and diverse products to meet domestic demand and expand exports, with an emphasis on ensuring hygiene, food safety, and environmental protection.

MEDIUM AND LONG-TERM DEVELOPMENT STRATEGY

To achieve its key objectives, Vocarimex focuses on indepth investment in machinery, equipment, factories, and auxiliary equipment for the Vocar Vegetable Oil Plant and Nha Be Vegetable Oil Port to maximize designed capacity.

Vocarimex promotes scientific research and the application of new technologies in management, production, and business operations.

Vocarimex continuously enhances its competitiveness, strengthens the expansion of export markets.

Officially becoming a member of the KIDO Group in May 2017, Vocarimex has continued to focus on improving operational efficiency in functional departments such as operations, financial management, promotion, and brand building.

Additionally, the company actively seeks M&A opportunities to enhance its competitive capabilities and optimize costs, with a focus on collaborating with partners to develop new products, improve quality, and enhance services.

— 30 ← 2024 ANNUAL REPORT

DEVELOPMENT ORIENTATIONS

SUSTAINABLE DEVELOPMENT GOALS (ENVIRONMENT, SOCIETY AND COMMUNITY)

Vocarimex is committed to maintaining and implementing policies, solutions, and activities related to environmental protection. In recent years, Vocarimex has successfully implemented environmental regulations and carried out environmental protection projects, including:

Modern wastewater treatment system meeting QCVN 40:2011/ BTNMT standards (Column B, Kq=1.1; Kf=1.1) with a capacity of 350m3/day.

Boiler exhaust gas treatment system using FO oil, exhaust gas after treatment meets QCVN 19: 2009/BTNMT standards - National technical regulations on industrial exhaust gas for dust and inorganic substances.

Hazardous waste, domestic waste, and industrial waste are classified, collected, stored in separate areas, and transferred to reputable units in wastewater treatment and collection services.

In conjunction with production and business activities, building and developing the Vocarimex brand, the Corporation also actively participates in social - community activities. Throughout its operation, the Corporation has participated in many programs such as: supporting the fund for hunger eradication and poverty reduction, contributing to building gratitude houses, compassionate houses, supporting Vietnamese heroic mothers, supporting the scholarship fund, supporting people affected by natural disasters and floods, participating in the humanitarian blood donation program...

→ 32 • 2024 ANNUAL REPORT

RISK MANAGEMENT

SOCIO-ECONOMIC RISKS

MARKET RISKS

INPUT FACTOR RISKS

Economic recession and political and social issues will negatively affect consumer spending, create changes in consumer psychology and raw material prices, etc., affecting the company's profits.

The main risk comes from consumer demand. The ability to predict changes in consumer trends and demands is an important factor that poses significant risks.

Vietnam's largest importer of palm oil and soybean oil such as Vocarimex will be under pressure when there are changes in raw material prices, affecting profits. Because the main industry is raw oil, weather, climate, natural disasters, etc. will have a strong impact on the operations of companies.

EXCHANGE RATE RISKS

The difference in import exchange rates of input materials changes the cost of imported goods when converted to VND.

INTEREST RATE RISKS

Changes in regional and global financial markets can have a significant impact on interest rates, leading to risks affecting profitability, liquidity and profits.

ENVIRONMENT – SOCIAL - GOVERNANCE REPORT OF THE COMPANY

IMPACT ON THE ENVIRONMENT

ENERGY CONSUMPTION

In addition to investing in the development of production and business activities, Vocarimex prioritizes environmentally friendly production processes. Every year, Vocarimex regularly renovates production lines, seeks solutions to minimize environmental pollution from wastewater and emissions, and uses green energy sources more efficiently.

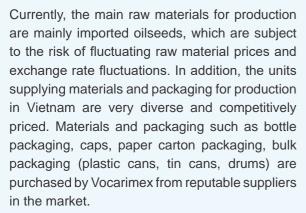

In the process of production and business operations, electricity is the main source of energy used to operate vegetable oil production machinery and equipment, and is consumed in the company's office area. Accordingly, the Corporation has developed and implemented a number of measures to save energy as follows:

MANAGEMENT OF RAW MATERIAL SOURCES

To date, Vocarimex has been operating in the field of vegetable oil production for 49 years. The Corporation always has stable and reliable partners and suppliers of input materials for the Corporation. Therefore, Vocarimex is always proactive in sourcing goods and input materials in accordance with the business objectives of the Corporation.

 Putting into use power-saving electrical equipment such as BIOMASS-fueled boilers that do not cause environmental pollution.

WATER CONSUMPTION

The Company consumes water from the water supply in Ho Chi Minh City with stable quality and flow to ensure the production - business and living activities of the Corporation. The amount of clean water is used effectively and economically by the Corporation, avoiding waste, in order to save costs and protect natural resources. Furthermore, the Corporation also invests in a modern wastewater treatment system that meets QCVN 40:2011/ BTNMT standards (Column B, Kq=1.1; Kf=1.1) with a capacity of 350m³/day.

Vocarimex always focuses on finding reputable raw material suppliers, ensuring that the source of raw materials meets quality, stability and safety, as well as selecting and investing in vegetable oil production equipment and technology according to international standards. In particular, we always pay attention to improving the professional qualifications of our staff and applying a quality management system according to ISO 9001:2015, HACCP, CODEX standards to bring nutritious and safe products to our customers.

COMPLIANCE WITH ENVIRONMENTAL PROTECTION LAWS

In 2024, the Corporation complied with environmental protection laws and was not penalized for violations related to environmental laws and regulations.

POLICIES RELATED TO EMPLOYEES

abor force

As of December 31, 2024, the Company's labor force reached 57 people, the average salary for employees is 20 Million VND/person/month.

Accordingly, the efforts of employees in the production process are always recognized by the Corporation. Vocarimex always has clear policies in terms of salary, bonus, and welfare regimes. The income level of each individual in the company is always commensurate with their efforts and dedication. Recognizing the contributions of company employees, there are regular evaluation and reward programs for individuals and groups who work effectively and excellently, and the reward regime always ensures fairness and transparency. Furthermore, Vocarimex always listens to and respects the opinions, contributions, and sharing of employees in the company, always valuing and understanding that each individual is an important link in the sustainable development of the collective. In addition, the Corporation regularly organizes sports and cultural activities to help employees in the company have fun moments together and understand each other better. In particular, the Corporation also periodically organizes skills development and continuous learning programs to support workers to ensure employment and career development.

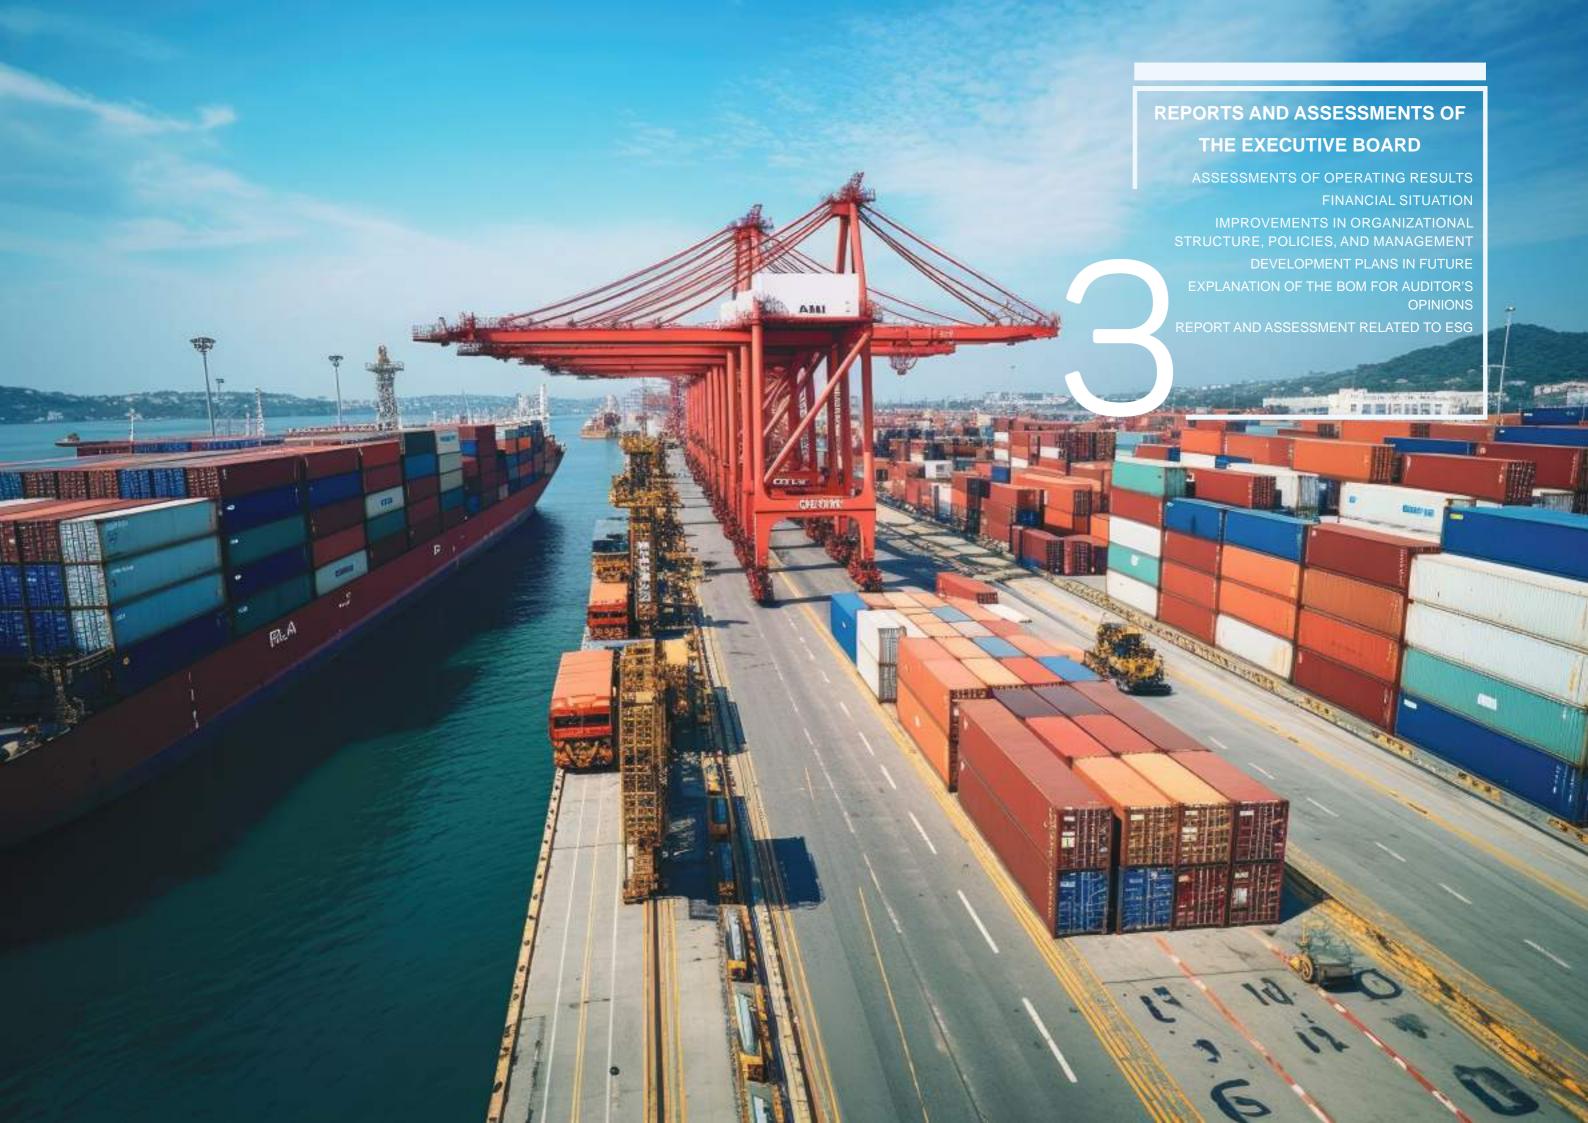

REPORT ON RESPONSIBILITY FOR LOCAL COMMUNITY

Over the years, the staff and employees of Vocarimex Corporation have always joined hands with the community, sharing with families in difficult circumstances, building many houses of gratitude and affection for Vietnamese heroic mothers, seriously injured soldiers, and poor people in localities across the country, providing financial support to care for poor children, and awarding scholarships to poor students who overcome difficulties in remote areas...

REPORT ON GREEN CAPITAL MARKET ACTIVITIES UNDER THE GUIDANCE OF THE SSC: NONE

REPORT AND ASSESSMENT OF THE EXECUTIVE BOARD

ASSESSMENT OF PRODUCTION AND BUSINESS PERFORMANCE

| Indicators | Actual 2023 | Plan 2024 | Actual 2024 | Actual 2024/ Actual 2023 | Actual 2024/ Plan 2024 |
|-------------------|-------------|-----------|-------------|-----------------------------|---------------------------|
| Net revenue | 844,058 | 600,000 | 418,971 | 49.64% | 69.83% |
| Profit before tax | 1,513,454 | 34,000 | 65,009 | 4.30% | 191.20% |

ADVANTAGES

Continue to transform according to the new strategic directions in the 2024-2025 period, with a particular focus on core values and expanding the long-term investment portfolio.

The Corporation owns synchronous and modern production technology and machinery systems that are among the best in the world.

Human resources with professional qualifications, understanding of the market, and experience in the field of investment & trading of vegetable oils.

Vocarimex has Nha Be Port, which facilitates the reception of cargo ships and oil tankers with large tonnage.

DISADVANTAGES

The output of oil-bearing seeds for domestic oil pressing is very small, and the purchase price of domestic oil-bearing seeds is always higher than the import price, which makes it difficult to expand the area for growing oil plants on a large scale domestically to make raw materials for the vegetable oil processing industry. Accordingly, the input materials for production are mainly imported, subject to the risk of fluctuating raw material prices and exchange rate fluctuations.

Due to the development potential of the industry, competition in the vegetable oil industry is increasingly fierce. In addition to long-standing companies, many new oil production and trading enterprises have appeared, making the competition increasingly fierce between imported and domestically produced products.

Enterprises processing confectionery, milk, instant noodles, seafood, pharmaceuticals, and cosmetics directly import refined oil, which has affected the consumption market share of industrial oil products.

ACHIEVEMENTS OF THE COMPANY

ON BUSINESS MODEL

RESEARCH & DEVELOPMENT OF CUSTOMIZED EDIBLE OILS AND FATS, SUITABLE FOR THE PRODUCTION NEEDS OF VARIOUS INDUSTRIAL CUSTOMER SEGMENTS SUCH AS: CONFECTIONERY, MILK, INSTANT NOODLES, SEAFOOD, PHARMACEUTICALS, AND COSMETICS.

IMPROVEMENTS IN ORGANIZATIONAL STRUCTURE, POLICIES, AND MANAGEMENT

ON PRODUCT QUALITY INSPECTION AND FOOD SAFETY

To ensure product quality requirements, Vocarimex always prioritizes "product quality and food safety." To implement this seriously, the refining oil production process and quality control process of the Corporation are always valued from the input of raw materials to the output of products and delivery to customers. The above quality management processes are carried out regularly and strictly at the Corporation.

On the path of international economic integration in recent times, VOCARIMEX has actively innovated technology, applying the latest technologies to production to stabilize, improve product quality and ensure food safety and hygiene. Currently, the Corporation's products have been exported to many markets with strict quality standards.

ON TECHNOLOGY OF MACHINERY AND PRODUCTION EQUIPMENT

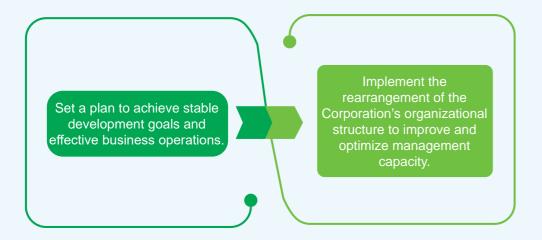

Main production equipment group: refining workshop, fractionation and automatic bottling line are the main workshops and equipment in the production and packaging of vegetable oil. This equipment group has been 100% newly invested by Vocarimex, modern, synchronous line, operating according to the most advanced technology, automatically controlled by PLC system, originating from developed countries of the EU bloc such as: Belgium, Germany, Netherlands, etc.

Auxiliary equipment group: equipment such as: boilers, air compressors are auxiliary equipment for the main workshops but are equipment with strict requirements on labor safety and environmental standards. Therefore, in order to achieve reliability, ensure labor safety and minimize environmental pollution such as: noise, emissions, wastewater, Vocarimex has also prioritized investing in this group of equipment completely new 100%, modern, synchronous line, operating according to the most advanced technology, originating from developed countries of the EU bloc.

PRODUCTION, BUSINESS AND INVESTMENT TASKS AND OBJECTIVES

MAIN TARGETS

Expected pre-tax profit

42

BILLION VND

PERCENTAGE OF DIVIDEND DISTRIBUTION DEPENDS ON THE 2025 AGM.

IMPLEMENTATION SOLUTIONS

Solutions for Market

Coordinate with the Group model to take advantage of distribution and expand the target of industrial customers.

Continue to maintain traditional export markets such as Cambodia, Japan, and North Korea.

Strengthen cooperation with waterway transport companies to act as agents for receiving cargo ships in order to increase revenue from port operations, warehousing, and tank services.

Solutions for Science
And Technology

Continue to research and develop new products suitable to market demands, focusing on developing quality products suitable for industrial customers.

An effective personnel strategy is essential for the success of a business. Focus on building and developing a professional workforce, consistent with a system of tightly and reasonably established processes. Consolidate the capacity and expertise of the personnel apparatus, with a focus on improving the effectiveness of training activities to foster knowledge and enhance the skills of the staff, while building a core team of experienced and enthusiastic managers and successors to drive the company's continued growth.

Each senior manager is empowered to take the initiative in establishing and building partnerships both internally and externally to promote company development without violating ethical standards.

Develop and implement a salary and bonus policy appropriate to the contributions and work capacity of employees, ensuring income and gradually improving living standards for employees, creating a cohesive and united environment within the Corporation.

EXPLANATION OF THE EXECUTIVE BOARD REGARDING AUDITOR'S OPINIONS (IF ANY): NONE

REPORT RELATED TO ENVIRONMENTAL AND SOCIAL **RESPONSIBILITIES OF THE COMPANY**

VOCARIMEX IS DEEPLY AWARE OF ITS RESPONSIBILITY TOWARDS THE ENVIRONMENT, WORKERS, AND THE LOCAL COMMUNITY, AIMING TOWARDS THE GOAL OF SUSTAINABLE DEVELOPMENT.

Assessment related to Environmental **Indicators**

The Company is very interested in activities that comply with environmental protection laws.

In 2024, the Company had no recorded violations related to non-compliance with environmental laws and regulations.

Assessment related to **Labor Issues**

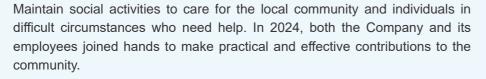

Focusing on the working environment and the health of employees is always an important factor to ensure sustainable development. Annually, the Company organizes periodic health checks for all employees, and health insurance and accident insurance programs are also applied.

Regularly organize fire prevention and fighting drills with professional fire prevention and fighting forces in the area to ensure good security, order, and fire prevention and fighting in the Company.

The quality of human resources plays an important role in the Company's business operations. The Company always develops specific training plans, and the training content is selected carefully. Employees have maximized their capabilities, boldly proposed the application of technology to management and production, bringing practical efficiency, contributing to the development of the Company.

Assessment of the Company's responsibilities to the **Local Community**

In addition, the Company has many activities with the local community: coordinating efforts to maintain security, order, and environmental sanitation.

ASSESSMENT OF THE BOARD OF DIRECTORS ON THE COMPANY'S OPERATIONS

SOME CHARACTERISTICS IN 2024 AFFECTING THE COMPANY'S BUSINESS

- The year 2024 is in the context of the economy continuing to have many fluctuations and complexities; Global inflation, although cooled down, is still at a high level; The Ukraine-Russia war is prolonged... The instability of some banks in the U.S. and Europe affects the confidence of people around the world in the banking system, while central banks continue to raise interest rates and use tight monetary policy. World energy prices increased sharply.
- Vietnam's economy is still at a low growth rate and purchasing power continues to decline, the price of input materials continuously fluctuates with large amplitudes affecting the cooking oil market as well as the transportation system.
- Vocarimex is no exception when facing the above-mentioned complex developments, the slow economic recovery and declining consumer demand from major trading partners; People tighten spending to reduce costs.
- With the above difficulties, Vocarimex has tried to implement production-business to complete the planned targets for 2024.

RESULTS OF IMPLEMENTING PRODUCTION-BUSINESS TARGETS IN 2024

44

THE TARGETS ACCORDING TO THE RESOLUTION OF THE 2024 AGM, THE IMPLEMENTATION RESULTS ARE AS FOLLOWS:

- The Corporation has ensured jobs and income for employees and contributed to the State budget as well as supported and shared with the social community.
- Vocarimex's 2024 financial statements were audited by Ernst & Young Company Limited with a fully accepted opinion.
- In the context of economic conditions with advantages and difficulties, the results achieved as above are the great efforts of the Board of Directors, the Executive Board and employees of Vocarimex.

→ 68 ← 2024 ANNUAL REPORT — 69 •

ASSESSMENT OF THE BOARD OF DIRECTORS ON THE ACTIVITIES OF THE COMPANY'S EXECUTIVE BOARD

SUPERVISION OF THE EXECUTIVE BOARD

- In 2024, the Board of Directors performed well in supervising and directing the Executive Board and managers in the production-business management of the Corporation.
- Directing the Executive Board to evaluate the results of operations in 2024, develop a production-business plan for 2025.
- The Executive Board has demonstrated its role in managing production-business activities in accordance with the orientations and directions of the Board of Directors. The Executive Board has exploited and promoted existing resources in terms of people, investment capital, and operating mechanisms to complete the production-business plan targets for 2024 approved by the BOD and approved by the GMS. The Executive Board always proactively implements the strategies and plans set out by the BOD. Directing the serious implementation of Resolutions, Decisions, and announcements of the BOD.
- Report publicly and transparently, and disclose information promptly and accurately.

SUPERVISION OF MANAGEMENT PERSONNEL

In 2024, the members of the Executive Board and management personnel of the company performed their tasks well in utilizing and promoting the existing resources of capital, assets, and labor of the Corporation, organizing the implementation of production and business tasks according to the plan assigned by the Board of Directors, and fully fulfilling obligations to the state and policies for employees.

PLANS AND ORIENTATIONS OF THE BOARD OF DIRECTORS

| Indicators | Unit | Plan 2024 | Actual 2024 | Plan 2025 | Plan 2025/ Actual 2024 |
|-------------------|-------------|-----------|-------------|-----------|---------------------------|
| Net revenue | Billion VND | 600 | 419 | 500 | 119% |
| Profit before tax | Billion VND | 34 | 65 | 42 | 65% |

- Faced with the forecast that the world and domestic economic situation will continue to be difficult, the Board of Directors has directed the Executive Board to have business orientations for 2025 that are appropriate to the new situation and fully exploit existing capacity.
- Vocarimex focuses on maximizing existing resources; the plan set for the coming year does not include profits from affiliated companies. The company mainly enhances corporate governance capacity and labor productivity to increase competitiveness, and promotes the construction and development of markets suitable to Vocarimex's business characteristics and in line with the synchronous development roadmap under the general orientation from the Group.
- Always ensure financial safety, well balance cash flow, promptly meet capital sources to serve production and business, control costs well, and reduce product costs to increase competitiveness and improve production and business efficiency.

| NO. | INDICATORS | PLAN | ACTUAL | ACTUAL/PLAN | | |
|-----|--------------------------------------|---|--------|-------------|--|--|
| 1 | Net revenue | 600 | 419 | 69.84% | | |
| 2 | Pre-tax profit | 34 | 65 | 191.18% | | |
| 3 | Dividends and appropriation of funds | The Board of Directors will submit the dividend payout ratio and fund appropriation to the General Meeting of Shareholders. | | | | |

EVALUATION OF SUPERVISORY ACTIVITIES OF THE BOARD OF DIRECTORS

In 2024, the Board of Directors performed its functions, duties, and powers in directing, guiding, and managing within the authority assigned by the General Meeting of Shareholders and as prescribed by law.

Implementing the resolutions approved by the Annual General Shareholders Meeting in 2024;

Implementing the business strategy orientation and approving the implementation plan throughout the Corporation system;

Organizing the evaluation of implementation results. Reviewing implementation plans and adjustments to suit the actual situation;

Specifically, in 2024, the Board of Directors held meetings with the full participation of all members and passed resolutions of the Board of Directors. According to the assessment of the Board of Supervisors, the organization of meetings and issuance of documents by the Board of Directors were carried out in accordance with legal regulations and the Company's Charter.

EVALUATION OF SUPERVISORY ACTIVITIES OF THE EXECUTIVE BOARD

In 2024, the Executive Board directed and managed production and business activities in compliance with the Enterprise Law, the Corporation's Charter, the resolutions of the General Meeting of Shareholders, the resolutions of the Board of Directors, and relevant legal regulations.

The Executive Board has directed, oriented, and responded quickly to the major fluctuations in the world's political situation and the instability of the global macroeconomy, which have affected the Company's production and business operations.

The Executive Board has regularly reported and updated on business results, analyzed and evaluated the implementation status compared to the set plan, and at the same time, issued directions, corrections, and measures to overcome shortcomings and limitations.

AUDIT OF THE AUDITED 2024 FINANCIAL STATEMENTS

Selecting an independent audit unit for the 2024 financial statements: The Company has signed a contract to audit the 2024 financial statements with Ernst & Young Limited in accordance with the Resolution of the 2024 Annual General Shareholders Meeting.

The Board of Supervisors found that the audited financial statements for 2024 fairly and reasonably reflect, in all material respects, the financial situation of the Company in 2024.

EVALUATION OF THE CORPORATION'S FINANCIAL SITUATION IN 2024

According to the audited financial statements for 2024 as of December 31, 2024, the Board of Supervisors noted that the financial indicators (indicators of solvency, indicators of capital structure, indicators of operating capacity, indicators of profitability) are reflecting positively on the Company's financial picture in 2024 compared to the same period in 2023.

ASSESSMENT OF THE COORDINATION BETWEEN THE SUPERVISORY BOARD, THE BOARD OF DIRECTORS, AND THE EXECUTIVE BOARD

The Board of Directors - Executive Board - Board of Supervisors have had a cooperative relationship in performing the powers and responsibilities stipulated in the Company's charter and the provisions of law.

Recommendations of the member of the Board of Supervisors to the Board of Directors, Executive Board: Year 2025 with the world's geopolitical situation continues to be tense in many regions of the world. The global macroeconomic situation is still unstable, which will be significant challenges for the Company's production and business activities in 2025. Therefore, the Board of Supervisors requests the Board of Director, Executive Board to promptly coordinate the development of business plans and timely responses to ensure good management and efficiency for the Company's production and business activities.

ASSESSMENT OF THE IMPLEMENTATION OF CORPORATE GOVERNANCE REGULATIONS

The Corporation continues to improve and issue new regulations and guidelines as the basis for directing and managing its business operations.

It will strengthen management, direction, and supervision across all areas of the Corporation's activities, ensuring the effective implementation of the Resolutions passed by the General Meeting of Shareholders and the Board of Directors.

The Corporation will also uniformly apply management measures, streamline the organizational structure of subsidiaries, and organize production operations efficiently to increase labor productivity, promote cost savings, and optimally utilize available resources to enhance the Corporation's profitability.

REPORT OF MANAGEMENT

Management of Vietnam Vegetable Oils Industry Corporation ("the Company") is pleased to present this report and the financial statements of the Company for the year ended 31 December 2024.

MANAGEMENT'S RESPONSIBILITY IN RESPECT OF THE FINANCIAL STATEMENTS

Management is responsible for the financial statements of each financial year which give a true and fair view of the financial position of the Company and of the results of its operations and its cash flows for the year. In preparing those financial statements, management is required to:

- » select suitable accounting policies and then apply them consistently;
- » make judgements and estimates that are reasonable and prudent;
- » state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- » prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue its business.

Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the financial position of the Company and to ensure that the accounting records comply with the applied accounting system. It is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Management confirmed that it has complied with the above requirements in preparing the accompanying financial statements.

STATEMENT BY MANAGEMENT

Management does hereby state that, in its opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 December 2024 and of the results of its operations and its cash flows for the year then ended in accordance with the Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the financial statements.

For and on behalf of the management:

Tran Tien Hoang General Director

Ho Chi Minh City, Vietnam

INDEPENDENT AUDITORS' REPORT

TO: THE SHAREHOLDERS OF VIETNAM VEGETABLE OILS INDUSTRY CORPORATION

We have audited the accompanying financial statements of Vietnam Vegetable Oils Industry Corporation ("the Company") as prepared on 31 March 2025 and set out on pages 5 to 32, which comprise the balance sheet as at 31 December 2024, the income statement and the cash flow statement for the year then ended and the notes thereto.

Management's responsibility

The Company's management is responsible for the preparation and fair presentation of these financial statements in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the financial statements, and for such internal control as management determines is necessary to enable the preparation and presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

INDEPENDENT AUDITORS' REPORT (Cont)

Opinion

In our opinion, the financial statements give a true and fair view, in all material respects, of the financial position of the Company as at 31 December 2024, and of the results of its operations and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of the financial statements.
