Hanoi Stock Exchange

**I. General Information**

**1. Overview**

- Trading Name: TAM DUC CARDIOLOGY HOSPITAL JOINT STOCK COMPANY
- Enterprise Registration Certificate No.: 0302668322
- Charter Capital: VND 155,520,000,000
- Owner's Investment Capital:
- Address: No. 4, Quarter 1, Nguyen Luong Bang Street, Tan My Ward, Ho Chi Minh City
- Phone Number: 1900 561539
- Fax Number: (028) 54110029
- Website: <https://tamduchearthospital.com/>
- Stock Code: TTD

***Establishment and Development Process***

**- Establishment Process**

In 2000, with encouragement from City leaders, the Department of Health and the Ministry of Health encouraged and directed the Heart Institute to mobilize social resources to build an additional modern cardiology hospital, on a scale similar to the Heart Institute, to triple the national cardiac surgery capacity compared to that of the Heart Institute. From this noble purpose and pursuant to the socialization policy for activities in Education, Health, and Cultural Sports fields issued in Decree No. 73/1999/NĐCP dated August 19, 1999, by the Government, Tam Duc Cardiology Hospital was established.

On October 27, 2000, the People's Committee of Ho Chi Minh City, via Official Letter No. 1641-VP-VX, directed the Department of Health to consider facilitating the establishment of a private cardiology hospital; On November 3, 2000, the Department of Health of Ho Chi Minh City issued directives for the Heart Institute to support in personnel training and transferring technology to the private cardiology hospital according to Official Letter No. 1641-VP-VX of the People's Committee; On May 17, 2002, the founding shareholders' meeting of Tam Duc Cardiology Hospital Joint Stock

Company, consisting of 8 members with the assistance of advisors: Dr. Nguyen Ngoc Chieu, Associate Professor Dr. Pham Nguyen Vinh, Dr. Phan Kim Phuong, and with enthusiastic support from Professor Duong Quang Trung and Professor Alain Carpentier, the founders of the Heart Institute, laying the first foundations for the development of Tam Duc.

On July 16, 2002, the Department of Planning and Investment issued Business Registration Certificate No. 4103001109 to Tam Duc Cardiology Hospital Joint Stock Company. In 2004, the Tam Duc Cardiology Hospital, under Tam Duc Cardiology Hospital Joint Stock Company, commenced construction on a 10,000 m<sup>2</sup> site at No. 04, Nguyen Luong Bang Street, Tan Phu Ward, District 7, Ho Chi Minh City. The hospital has a usable area of 17,984 m<sup>2</sup>, with a capacity of 180 beds, and includes the following departments:

- The Outpatient Clinic Department can examine and treat 300 to 400 cardiovascular patients per day; it also specializes in Ophthalmology, Otorhinolaryngology, Dentistry, Obstetrics, and Gynecology related to cardiovascular issues, as well as clinical and laboratory testing.
- The Cardiovascular Surgery Department has 72 treatment beds and 2 modern operating rooms capable of performing 4-6 surgeries per day, totaling 1,000 to 1,200 surgeries per year, addressing congenital heart diseases, valvular heart diseases, coronary artery diseases, and other cardiovascular conditions.
- The Cardiothoracic Surgical Intensive Care Unit has 15 beds dedicated to effectively treating severe postoperative cases, catering to both very young pediatric patients and elderly patients.
- The Cardiovascular Intensive Care Unit has 18 beds, providing emergency treatment and intensive care for cardiovascular conditions.
- The Internal Cardiology Division has 80 beds organized into three departments, including Internal Cardiology 1, 2, and 3, treating internal cardiovascular diseases and other related conditions. It includes a Cardiovascular Function Testing Room (Echocardiography, Stress ECG), an Arrhythmia Testing Room, electrophysiological studies for diagnosis and ablation, or implantation of devices for arrhythmia treatment, and an Interventional Cardiology Department capable of performing 5-6 interventional procedures daily, treating coronary artery diseases, other vascular diseases, congenital heart diseases, and intravascular ultrasound (IVUS).

Tam Duc Cardiology Hospital was officially inaugurated on March 8, 2006, and has quickly become a new source of hope for patients requiring life-saving cardiac surgery, timely interventional cardiology, advanced arrhythmia treatment, or effective medical management.

#### **Facility Development:**

Tam Duc Cardiology Hospital was built on a 10,000 m<sup>2</sup> area, which was allocated by the Ho Chi Minh City People's Committee for a land use term of 50 years, inaugurated on March 8, 2006.

On February 3, 2005, the City People's Committee allocated an additional 5,000 m<sup>2</sup> in the adjacent rear area.

On September 18, 2009, Tam Duc Cardiology Hospital was permitted to construct an 8-story rear area with a construction floor area of 7,067 m<sup>2</sup> to expand with 2 additional internal and external intensive care units with 40 beds; 2 interventional cardiology rooms; 1 outpatient clinic No. 2 capable of examining and treating 250 patients per day, and 3 new treatment departments with 80 beds.

The project commenced on June 21, 2010, was completed by the end of September 2011, and has been operational since October 2011.

Today, Tam Duc has two outpatient clinics, 250 inpatient beds, six departments for internal cardiology and cardiovascular surgery, a special examination, treatment, and intensive care area, two interventional cardiology rooms, one electrophysiology room, three operating rooms, two cardiac intensive care units, and a cardiovascular function testing area with two MSCTs.

### **Development of Charter Capital:**

The company was established on July 16, 2002, with an initial charter capital of VND 28.9 billion.

There have been two rounds of charter capital increases in 2004 and 2007, according to the Resolutions of the General Meeting of Shareholders.

On April 24, 2010, the annual general meeting of shareholders approved a resolution to increase the capital contribution by an additional VND 25.92 billion from existing shareholders. On January 12, 2011, the company completed a share issuance (according to the Offering Certificate No. 733/UBCK-GCN dated November 16, 2010, of the State Securities Commission), and the current charter capital is VND 155.52 billion.

The Hanoi Stock Exchange approved Tam Duc's official registration for trading on the Upcom market through Decision No. 65/QĐ-SGDHN issued by the General Director of the Hanoi Stock Exchange on January 23, 2017.

### **2. Business Sectors and Locations**

- Business Sectors: Hospital, general and specialized clinics, retail pharmacy
- Business Location: No. 4, Quarter 1, Nguyen Luong Bang Street, Tan My Ward, Ho Chi Minh City.

### **3. Information on Governance Model, Business Organization, and Management Apparatus**

- Governance Model and Management Apparatus Structure:

+ General Meeting of Shareholders, Board of Directors, Board of Supervisors, and General Director

### **ORGANIZATIONAL STRUCTURE**

Tam Duc Cardiology Hospital Joint Stock Company operates in accordance with the Law on Enterprises of 2000, subsequently replaced by the Law on Enterprises of 2005, the Law on Enterprises of 2014, the Law on Enterprises of 2020, other relevant laws, and the company's Charter. Currently, Tam Duc Cardiology Hospital Joint Stock Company has:

Tam Duc Cardiology Hospital, No. 04, Quarter 1, Nguyen Luong Bang Street, Tan My Ward, Ho Chi Minh City.

### **EXECUTIVE LEADERSHIP:**

#### **A. BOARD OF DIRECTORS:**

- |                             |  |
|-----------------------------|--|
| 1. Dr. Nguyen Ngoc Chieu    | Founder - Chairman of the Board of Directors |
| 2. MSc. Dr. Phan Kim Phuong | Founder - Member of the Board of Directors   |
| 3. Dr. Chu Trong Hiep       | Member of the Board of Directors             |

- |                                     |                                  |
|-------------------------------------|----------------------------------|
| 4. MSc. Pham Anh Dung               | Member of the Board of Directors |
| 5. Spec. Level I Dr. Pham Bich Xuan | Member of the Board of Directors |

**B. BOARD OF SUPERVISORS**

- |                             |  |
|-----------------------------|--|
| 1. BSc. Nguyen Duc Tuan     | Head of the Board (appointed on April 25, 2025)  |
| 2. BSc. Vuong Thi Quynh Anh | Head of the Board (term ended on April 25, 2025) |
| 3. Mrs. Bui Thuy Kieu       | Member   |
| 4. Dr. Le Thi Huyen Trang   | Member   |

**C. BOARD OF MANAGEMENT**

- |   |   |
|---|---|
| 1. Spec. Level II Dr. Do Van Buu Dan    | General Director of Tam Duc Cardiology Hospital Joint Stock Company, Deputy Director of Electrophysiology |
| 2. Dr. Ton That Minh                    | Hospital Director   |
| 3. Dr. Chu Trong Hiep                   | Director of Cardiovascular Surgery  |
| 4. Dr. Dinh Duc Huy                     | Director of Internal Cardiology   |
| 5. MSc. Phan Thi Thanh Nga              | Chief Financial Officer, Chief Accountant   |
| 6. Assoc. Prof. Dr. Nguyen Thi Bich Dao | Deputy Director of Endocrinology-Metabolism & Nutrition   |
| 7. MSc. Dr. Nguyen Huynh Khuong         | Deputy Director of Interventional Cardiology and Vascular Diseases  |
| 8. Spec. Level II Dr. Ly Huy Khanh      | Deputy Director of General Planning   |
| 9. MSc. Dr. Ngo Thi Kim Anh             | Deputy Director of Outpatient Examination & Treatment   |
| 10. Spec. Level II Dr. Thai Minh Thien  | Deputy Director of Emergency & Cardiovascular Intensive Care  |
| 11. BSc. Nguyen Ngoc An Khoi            | Deputy Director of Brand Development  |
| 12. BSc. Nguyen Ngoc Nhu Anh            | Deputy Director of Administration   |
| 13. BSc. Tran Thi Thanh Nhan            | Deputy Director of Human Resources Management and Organization  |
| 14. MSc. Nguyen Van Chung               | Deputy Director of Information Technology (appointed on October 15, 2025)                                 |

**4. Development Orientation for 2025**

**HUMAN RESOURCES:** *Tam Duc has been operating stably and developing for 19 years. The leadership and professional team of Tam Duc have matured, but it is necessary to continue recruiting and providing postgraduate training in critical technical positions such as emergency resuscitation, anesthesia resuscitation, surgery, cardiac catheterization, and cardiac electrophysiology, and to prepare the next generation of leadership.*

**PROFESSIONAL DEVELOPMENT:** In 2025, outpatient examination, emergency, and inpatient treatment are expected to increase by 5% compared to 2024. Cardiac surgeries must reach 400, and interventional cardiac catheterizations and electrophysiology procedures must exceed 2,000.

**FINANCIAL PERFORMANCE:**

Total Revenue:	VND 750 billion
Profit Before Tax:	VND 92 billion
Profit After Tax:	VND 84 billion
Dividend:	33% of par value

**SOCIAL OBJECTIVES:** Continue the sponsored heart surgery program for underprivileged children undergoing surgery at Tam Duc, with 60% of cases funded by organizations and individuals.

**5. Risks**

In 2025, there will continue to be many risks and challenges. Therefore, Tam Duc must consistently comply with cost-saving policies to achieve positive financial results.

Tam Duc Cardiology Hospital Joint Stock Company is a high-tech cardiology specialty hospital, it must consistently maintain a relatively large expenditure on salaries, bonuses, and especially continuous training both domestically and internationally to ensure that the professional team maintains a high level of expertise, remains promptly updated on advanced medical practices abroad. However, this also poses a notable risk, as after the training process, the hospital may still face staff attrition among specialized personnel, affecting personnel stability, professional quality, and the effectiveness of investment in training.

**II. Business Performance in 2025**

**1. Professional Operations**

In 2025, Tam Duc achieved its objectives in terms of treatment quality and patient satisfaction, with operational capacity remaining stable compared to 2024.

**a) Outpatient Examination and Treatment:**

	2020	2021	2022	2023	2024	2025
Cardiology examinations:	74,868	46,450	76,062	78,296	80,010	80,140
Specialist consultations upon request	29,914	18,614	25,596	26,754	25,605	24,018
Routine examinations	35,870	18,822	31,057	31,145	32,728	34,286
VIP Examination	9,084	9,014	19,409	20,397	21,677	21,836
Surgical Case Conference	230	56	491	293	237	122
Internal Medicine Case Conference	202	47	91	296	283	135
Endocrine Examination	1,190	601	773	976	898	686
<b>Total</b>	<b>80,537</b>	<b>48,258</b>	<b>77,417</b>	<b>79,861</b>	<b>81,428</b>	<b>81,083</b>

Medical Examination Activities in 2025 were equivalent to 2024 (81,083/81,428). Approximately 300 patients visited for examination each day, of whom 17% were new patients.

**Chart 01: Average number of patient visits per day from 2020 to 2025**

**b) Special Treatment Area:**

*Intensive Care Unit* and *Special Examination and Treatment Area* for patients requiring high-demand care and treatment, commenced operations on October 9, 2018, and have demonstrated strong performance over the years.

	Special Treatment Area			Intensive Care Unit	
	Inpatient	Total Days of Treatment		Inpatient	Total Days of Treatment
		Outpatient			
2018	58	276	361	67	457
2019	316	1,434	4,949	242	1,884
2020	300	1,429	9,084	181	1,691
2021	233	1,217	9,010	179	1,300
2022	446	2,224	19,409	553	1,248
2023	406	1,941	20,397	565	1,495
2024	237	1,399	21,677	313	1,710
2025	245	1,218	21,836	363	1,830
Total	2,241	11,138	106,723	2,463	11,615

In 2025, outpatient visits in the Special Examination Area totaled 21,836 cases, equivalent to 2024 (21,677 cases).

Patients opting for treatment in the Special Treatment Area accounted for 40% of new patients and 25% of returning patients. This result reflects patient satisfaction and contributes positively to financial performance.

**c) Inpatient Treatment**

	2020		2021		2022		2023		2024		2025	
	Quantity	%	Quantity	%	Quantity	%	Quantity	%	Quantity	%	Quantity	%
Ho Chi Minh City	1,702	41	1,681	57	1,766	40	1,779	38	1,695	39	1,880	41
Southern Provinces	2,022	49	1,049	35	2,110	48	2,163	46	1,867	43	1,750	38

Central Provinces	308	8	146	5	357	8	475	10	488	11	585	13
Northern Provinces	13		4		40	1	31	1	30	1	52	1
Foreign Countries	75	2	74	3	144	3	223	5	264	6	298	7
<b>Total</b>	<b>4,120</b>	<b>100</b>	<b>2,954</b>	<b>100</b>	<b>4,417</b>	<b>100</b>	<b>4,671</b>	<b>100</b>	<b>4,344</b>	<b>100</b>	<b>4,565</b>	<b>100</b>

In 2025, inpatient numbers *increased* by 5% compared to 2024 (4,565/4,344).

Patients of Tam Duc are primarily from Ho Chi Minh City (41%) and the southern provinces (38%). The number of foreign patients of various nationalities visiting Tam Duc has increased over the years; however, there was a decline in 2020 and 2021 due to the Covid pandemic (2018: 1,459; 2019: 2,671; 2020: 1,185; 2021: 1,064; 2022: 1,780; 2023: 2,494; 2024: 2,931; 2025: 3,374). *In 2025, Tam Duc recorded 3,374 outpatient visits by foreign patients, accounting for 4.2% of total outpatient visits. For inpatient treatment, there were 298 foreign cases, representing 6.5% of Tam Duc's total inpatient population, including those from Australia, Canada, Cambodia, Japan, China, South Korea, India, the Philippines, Singapore, the United States, Taiwan, New Zealand, France, and others.*

#### d) Total Hospitalization Days

Year	2020	2021	2022	2023	2024	2025
Total Hospitalization Days	32,356	24,848	36,188	33,020	29,784	29,845

Total hospitalization days in 2025 *were equivalent* to those in 2024.

#### e) Average Treatment Days

Department	Average Treatment Days					
	2020	2021	2022	2023	2024	2025
Internal Cardiology 1	4.55	4.56	4.79	4.21	4.35	3.94
Special Treatment	4.7	5.55	4.97	4.74	4.67	3.84
Internal Cardiology 2	3.88	5.28	3.71	3.17	3.16	3.09
Internal Cardiology 3	5.82	5.87	7.44	6.11	5.52	5.61
Internal Cardiology 4	7.07	8.68	6.31	6.2	5.48	5.08
Internal Cardiology 5	7.22	8.49	10	8.74	8.37	7.5
Internal Cardiology and Vascular	4.66	5.75	4.93	4.22	4.04	3.81
Cardiology Intensive Care Unit	7.64	9	7.16	6.33	6.22	5.5
Emergency	1.45	1.23	4.1	4.25	2.50	0
Cardiovascular Surgery	9.9	9.33	9.87	8.91	9.31	7.29
Cardiovascular Surgical Intensive Care Unit	4.64	6.3	5.44	5.14	6.27	5.48

The average treatment days have remained stable over the years. The average treatment days for the Internal Division range from 3 to 7 days, with most departments averaging 3 to 5 days. Cardiovascular surgery averages 7 days, and intensive care surgery averages 5 days. The increase in the average

treatment days in intensive care surgery is due to the fact that most children with congenital heart disease coming to Tam Duc are in extremely severe conditions in recent years.

**f) Bed Utilization Rate**

Department	Bed Utilization Rate (%)					
	2020	2021	2022	2023	2024	2025
Internal Cardiology 1	41	27	44	43	41	45
Special Treatment	24	27	38	33	24	21
Internal Cardiology 2	30	38	37	26	25	28
Internal Cardiology 3	39	23	37	31	24	26
Internal Cardiology 4	51	53	49	48	43	41
Internal Cardiology 5	35	18	35	30	25	26
Internal Cardiology - Vascular	33	39	38	39	37	37
Cardiovascular Intensive Care	49	45	54	62	64	65
Emergency	20	23	39	11	1	0
Cardiovascular Surgery	35	17	40	38	32	25
Cardiovascular Surgical Intensive Care	55	31	71	63	63	45

The bed utilization rate in 2025 is 33%, similar to 2024 (34%), which is still low compared to the requirement of over 50%.

**Chart 02: Average number of inpatients per day from 2020 to 2025**

+ TTCT						17
+ REA						17
+ ICU						2
Temporary Pacemaker Placement (TTCT)				12	23	7
Valve Inspection				12	31	23
Mesenteric Artery Embolization and Occlusion					2	0
Closure of Arteriovenous Fistulas					2	0
<b>Total (1+2+3+4+5+6+7+8)</b>	<b>1,296</b>	<b>765</b>	<b>1,599</b>	<b>1,722</b>	<b>1,689</b>	<b>1,755</b>

In 2025, interventional cardiology *increased by 4%* compared to 2024 (1,755/1,689).

*Interventional cardiology has remained stable and has continued to develop effectively over the years, saving many patients within the golden six-hour window. Since October 2022, Tam Duc has also introduced new techniques such as abdominal aortic stent graft placement, pulmonary artery stenting, and rotational atherectomy for calcified coronary lesions. Currently, routine interventional cardiology techniques include coronary artery intervention, carotid artery intervention, peripheral vascular intervention, congenital heart disease intervention, atrial septal defect closure, patent ductus arteriosus closure, ventricular septal defect closure, coronary artery fistula closure, alcohol septal ablation, balloon mitral valvuloplasty, percutaneous patent foramen ovale closure, and balloon pulmonary valvuloplasty.*

**Chart 03: Monthly interventional cardiology and electrophysiology cases from 2020 to 2025**

#### h) Electrophysiology

	2020	2021	2022	2023	2024	2025
Temporary Pacemaker Placement (DSL)	7	8	19	10	1	1
Permanent Pacemaker Placement	46	66	74	89	117	95
ICD Placement	42	21	30	23	24	32
Pacemaker Lead Replacement	1	3	11	4	5	9
Electrophysiological Study	57	24	55	38	43	39
DSL Ablation Study	76	54	101	102	103	104
PM Device Replacement	0	1	23	23	14	33
3D Mapping Ablation	22	26	85	113	134	178
Coronary Angiography with PM Placement				24	20	16
<b>Total</b>	<b>251</b>	<b>203</b>	<b>398</b>	<b>426</b>	<b>461</b>	<b>507</b>

In 2025, the figure *increased by 10%* compared to 2024 (507/461). New techniques have developed, with 3D mapping ablation reducing X-ray exposure time, and His bundle pacing reducing long-term heart failure rates, achieving great success.

At the end of June 2023, Tam Duc added a 3D Carto cardiac mapping system from Johnson & Johnson alongside the existing 3D Ensite Velocity system (from Abbott). From June 2023 to date, 116 successful cases have been performed with the Carto system, allowing patients requiring 3D mapping and ablation to avoid previous waiting times.

#### i) Cardiac Surgery

## SURGERY CLASSIFICATION

	2020		2021		2022		2023		2024		2025

## **5. Shareholder Structure, Changes in Owner's Investment Capital**

### a) Shares:

- Number of outstanding shares: 15,552,000 shares.
- Number of freely transferable shares: 15,552,000 shares.
- Number of restricted transferable shares: 0 shares.

### b) Shareholder Structure: Outline the shareholder structure based on ownership criteria (major shareholders, minor shareholders); institutional and individual shareholders; domestic and foreign shareholders, state shareholders, and other shareholders.

- Major shareholders: 26%; Minor shareholders: 74%.
- Institutional shareholders: 16.44%; Individual shareholders: 83.56%.
- Domestic shareholders: 99.59%.
- Foreign shareholders: 0.41%.
- State shareholders: none.

### c) Changes in Owner's Investment Capital: *There were no changes in 2025.*

The company was established on July 16, 2002, with an initial charter capital of VND 28.9 billion.

There have been two capital increases in 2004 and 2007 according to the resolutions of the General Meeting of Shareholders. The charter capital as of July 29, 2007, was VND 129.6 billion.

On April 24, 2010, the annual general meeting approved a resolution to increase capital by an additional VND 25.92 billion from existing shareholders. On January 12, 2011, the company completed a share issuance (according to the offering certificate No. 733/UBCK-GCN dated November 16, 2010, of the State Securities Commission), the current charter capital is VND 155.52 billion.

**Chart of Shareholder Capital Growth** *Unit: million VND*

d) Treasury stock transactions: none.

Other securities: none.

## 6. Report on the Company's Environmental and Social Impact

### 6.1 Environmental Impact:

Total direct and indirect greenhouse gas (GHG) emissions

Initiatives and measures to reduce greenhouse gas emissions: *none*

### 6.2 Management of Material Resources:

a) Total amount of materials used for the production and packaging of the organization's main products and services during the year: *MEDICAL EXAMINATION AND TREATMENT SERVICE UNIT*

b) Report the percentage of recycled materials used in the production of the organization's main products and services: *none*

### 6.3 Energy Consumption

a) Direct and indirect energy consumption:

- *Electrical energy: 2,706,139 kWh*

- *Oil energy: 450 liters of DO oil.*

b) Energy saved through energy efficiency initiatives.

- *Electrical energy: 155,300 kWh*

- *Oil energy: 0 liters of DO oil.*

c) Reports on energy-saving initiatives (providing energy-saving products and services or using renewable energy); report the results of these initiatives:

Electricity saving solutions:

- Improving the operation mode of central air conditioning, according to different times, peak, off-peak, during office hours, and outside office hours to save energy more effectively.
- Replacing fluorescent lights with LED lights.
- Daily Index Monitoring

Water Conservation Solutions:

- Implement a wastewater reuse system for garden irrigation, with a reuse rate of approximately 6%.

6.4 Water Consumption: (water consumption levels of business activities during the year)

a) Water supply sources and usage volume: *47,114 cubic meters/year*

b) Percentage and total volume of recycled and reused water: *8,000 cubic meters/year*

6.5 Compliance with Environmental Protection Laws:

a) Number of penalties for non-compliance with environmental laws and regulations: *none*

b) Total fines for non-compliance with environmental laws and regulations: *none*

6.6 Employee-Related Policies:

a) Number of employees, average salary for employees:

The total number of employees as of December 31, 2025, is 536. The average salary is VND 29,054,724.

b) Labor policies to ensure the health, safety, and welfare of employees:

- Ensure an 8-hour workday, on-call duty for specialized departments. Provide uniforms, comply with occupational safety regulations, and pay hazardous and arduous allowances for medical staff due to job requirements.
- Ensure all staff participate in social insurance and co-pay social insurance as per regulations.
- As of December 31, 2025, 524 employees are covered by social insurance.
- Total contributions to social insurance, health insurance, and unemployment insurance from January 1, 2025, to December 31, 2025, amount to VND 13,142,622,916 (of which the Company contributes VND 8,830,682,557 (67.19%), and employees contribute VND 4,311,940,359 (32.81%)).

c) Employee Training Activities

Training Methods:

- On-the-job training.
- Participation in continuous training courses domestically and internationally

Training Directions:

- Specialization
- Management
- Foreign Languages

Particular emphasis on specialized training

Training Budget:

Allocated from the hospital's budget, supporting 50% of the costs for training programs aligned with the hospital's development orientation.

*Specialized Training Activities in 2025:*

## 6.7 Report on Community Responsibility:

### a) Assisting the Poor with Heart Surgery

Tam Duc Cardiology Hospital is a trusted destination for charitable organizations and associations supporting impoverished patients across the country to send *children with congenital heart disease requiring surgery*. Twenty organizations and individuals, both domestic and international, have participated with Tam Duc in covering the heart surgery costs for these children.

The hospital has organized free direct screening programs in various localities to examine and diagnose heart disease in children.

The screening of children with heart disease requiring surgery under the sponsored heart surgery program for underprivileged children has been conducted since 2010. Doctors from Tam Duc Cardiology Hospital have traveled to remote areas to detect heart disease, recommend surgery, and seek organizations and individuals to cover the surgery costs for the children.

In 2025, Tam Duc continued to actively coordinate closely with localities and sponsors. Tam Duc visited the provinces of Ninh Thuan, Ca Mau, Kien Giang, Tra Vinh, Phu Yen, and An Giang, examining 6,252 cases (2024: 7,456), of which 48 cases were indicated for surgery. In 2025, Tam Duc performed 64 surgeries, accounting for 23.7% of the total surgeries in 2025 (64/270). The total amount of assistance provided by domestic and international organizations and individual sponsors was VND 7,520,583,514 to cover the costs for the children (2024: VND 15,770,483,100).

The total number of children who underwent heart surgery funded by health insurance, charitable organizations, and individual sponsors from the hospital's inception until December 31, 2025, was 7,070 cases, accounting for 58% of the total patients operated on (7,070/12,150), with total sponsorship amounting to VND 461.8 billion.

### b) Health Education

- Organizing and internally communicating campaigns on patient safety, prevention of medical incidents, hand hygiene, nutrition, and treatment compliance.
- Cardiovascular Health Counseling Program: organized once a month, attracting an average of 50 – 80 participants per session, enhancing the connection between doctors, patients, and relatives, providing knowledge on cardiovascular diseases, diabetes, and hypertension.
- External coordination through various community activities such as seminars on elderly health care; exhibitions to raise awareness about strokes; medical support at running events and organizing CPR training. Through these activities, the hospital contributes to raising community awareness about disease prevention, first aid, and cardiovascular health care.

- The hospital's website publishes articles on cardiovascular diseases.

c) Training

Tam Duc identifies Training and Scientific Research as a core function, meeting the hospital's survival and development requirements, befitting a high-tech specialized hospital.

The hospital has continuously trained and supplemented the skills of its staff to meet requirements; training forms are diverse: in-hospital training, domestic and international training; short-term and long-term training; on-the-job and formal training; with partial funding support from the hospital.

There is an on-the-job training policy applicable to all newly recruited employees, with additional postgraduate training domestically and overseas internships. Furthermore, employees are encouraged and facilitated to improve their foreign language proficiency to meet communication and scientific reporting requirements.

In 2025, Tam Duc Cardiology Hospital Joint Stock Company has eight scientific research projects, including three at the Ministry/provincial level and five at the institutional level.

The Hospital also received Specialist Level I and Level II trainees, master's students, and trainees in fetal echocardiography and vascular ultrasound from Pham Ngoc Thach University of Medicine for clinical practice.

- 6.8 Report related to green capital market activities according to the guidelines of the State Securities Commission: none

### III. Report and assessment of the Board of Management

#### 1. Evaluation of Business Results

In 2025, medical examination activities *were equivalent* to 2024 (81,083/81,428). Approximately 300 patients visit daily, of which 17% were new patients.

In 2025, inpatient numbers *increased by 5%* compared to 2024 (4,565/4,344).

In 2025, interventional cardiac catheterization *increased by 4%* compared to 2024 (1,755/1,689).

In 2025, cardiac electrophysiology *increased by 10%* compared to 2024 (507/461).

Surgical activities in 2025, *performed 270 cases, a decrease of 24% compared to 2024 (270/355).*

Total Revenue of VND 846,098,888,964 (Code 10+21+31) *increased by 7.73% compared to 2024 (VND 846 billion/ VND 785 billion), exceeding the 2025 plan by 12.8%.*

Total Expenses of VND 737,856,206,963 (Code 11 + 22 + 24 + 25 + 32) *increased by 6.88% compared to 2024 (VND 737 billion/ VND 690 billion).* Cost of goods sold is VND 652,001,684,104 (Code 11: *includes costs of drugs, medical supplies, doctors' and nurses' salaries...*), which is a direct cost, the most significant part accounting for 88.36% of total expenses, a proportion that remains stable over the years.

Profit Before Tax reached VND 108.2 billion, *increasing by 13.9% compared to 2024 (VND 108.2 billion/ VND 95 billion), increasing by 17.7% compared to the 2025 plan.*

The Profit Before Tax/ Total Revenue ratio for 2025 is *12.79% (2024 was 12.1%).*

In 2025, revenue increased, but the rate of expense increase was lower than in 2024. The lower expense increase was mainly due to reduced meal costs for patients and staff as Tam Duc transitioned into the meal supply organization in October 2024. Additionally, increased financial revenue due to higher term deposits also contributed to increased profit.

## **2. Financial Situation**

### **a) Asset Situation**

*Short-term Receivables* decreased due to *Short-term Receivables from Customers* are paid and health insurance funding was provided in a timely manner. *Long-term Assets* increased primarily in the category of *Fixed Assets*, with the main component being the coronary angiography and intervention system (DSA), which was accepted and put into use in March 2025. Additionally, in 2025, Tam Duc invested in equipping an additional sterilization autoclave, two ultrasound machines, and replaced 36 new electric beds in inpatient rooms and recovery areas to replace old beds, aiming to enhance treatment quality, increase patient satisfaction and modernize facilities; purchased a new server to plan and upgrade IT infrastructure to meet the Ministry of Health's requirements for completing electronic medical records; and other replacement machinery and equipment. Currently, Tam Duc still has fully depreciated assets that are still in use with a total value of VND 91.4 billion due to good use and maintenance.

### **b) Liabilities Situation:**

*Liabilities* increased due to higher inventory levels to ensure increased operations. Tam Duc always ensures timely payments to suppliers, thus no overdue debts arise.

## **3. Improvements in Organizational Structure, Policies, and Management**

### **a. Maintenance:**

#### *Facility Safety*

Tam Duc regularly maintains facilities to ensure they are always in good condition.

#### *Technical Equipment Safety*

The major technical machinery of Tam Duc includes: central air conditioning system; medical gas system, backup generators, elevators, and important medical equipment, all of which have maintenance contracts with the original manufacturers and are regularly maintained by Tam Duc's engineering team, promptly repairing and replacing damaged parts to ensure good operation.

*Electrical Safety:* The medium voltage station, transformers, and generators underwent comprehensive maintenance in December 2024, ensuring a safe electricity supply for hospital operations, with the installation of two anti-flood pumps and backup systems.

*Gas Safety:* The Maintenance Department conducts weekly inspections, and the gas supplier conducts quarterly leak tests to ensure safety. In May 2025, management was handed over to Huong Sen Restaurant. Daily at 8:30 PM, the maintenance shift checks and logs the gas lock-off and power-off in the restaurant area to ensure fire safety.

*Elevator Safety:* The elevator company conducts monthly periodic maintenance, with safety inspections as per regulations, ensuring good operation. Annually, two rescue training sessions are conducted for all maintenance staff. On June 18, 2025, the first training session of 2025 was organized, meeting requirements. On January 7, 2026, the second training session of 2025 was organized, meeting requirements.

*Security and Order:* The situation regarding agency safety and security is good, with no serious incidents.

*Fire Safety:* Regulations on agency safety and fire prevention are always strictly implemented. On June 25, 2025, the Fire Prevention Police conducted a periodic inspection, achieving good results. On December 31, 2025, annual training and drills for fire rescue plans were organized hospital-wide as per regulations, achieving satisfactory results.

The fire protection system is maintained monthly by a specialized unit (Fire Equipment Center 4/10 – under the Logistics Department of Ho Chi Minh City Police).

The costs of electricity and water usage are very high. Tam Duc has consistently implemented solutions to save electricity and water. In 2025, electricity consumption decreased by 8% compared to 2024 (2,706,139 Kwh/2,930,340 Kwh), and water consumption decreased by 12% compared to 2024 (47,114 m<sup>3</sup>/53,506 m<sup>3</sup>).

b. New Equipment:

In its development process, Tam Duc always focuses on acquiring new equipment in line with its financial capabilities.

- **Ultrasound Machines:** The Board of Directors VII.05 on December 26, 2024, decided to purchase two ultrasound machines. On January 20, 2025, Decision 96-25/QĐ-CTTĐ was issued to establish a Procurement Committee to conduct bidding procedures through competitive offers. The Board of Directors VII.06 on March 4, 2025, decided to select the supplier for the two ultrasound machines. Tam Duc received one Philips ultrasound machine from Hoan Chau Company on May 8, 2025, and one Canon ultrasound machine from Tramatco Company on July 7, 2025. The machines are operating stably.
- **Sterilization Autoclave:** The Board of Directors VII.06 on March 4, 2025, decided to purchase one sterilization autoclave. On May 14, 2025, Decision 395-25/QĐ-CTTĐ was issued to establish a Procurement Committee to carry out the procurement process through competitive offers, advising the Board of Directors on purchasing a sterilization autoclave that meets technical standards at a reasonable cost. The Board of Directors VII.08 on July 15, 2025, decided to purchase a Belimed-Switzerland sterilization autoclave, manufactured in Slovenia in 2023, supplied by Minh Khoa Company, at a price of VND 2.4 billion. Tam Duc received the autoclave on August 22, 2025. The machine is operating stably.
- **Electric Beds:** The Board of Directors VII.07 on April 10, 2025, decided to replace the electric beds. Tam Duc received 30 electric beds on July 28, 2025.

c. Information Technology:

In March 2025, Tam Duc recruited a Master of Information Technology to assume the position of IT Department Head.

- **Electronic Medical Records (EMR):** Approved and officially announced by the Ministry of Health on September 15, 2025. The system is currently in the operational, adjustment, and completion phase. By 2026, the hospital aims to become a paperless hospital.
- **Server Infrastructure Planning:** Implemented SQL Cluster, transferred HIS to a new server. The operation results are stable.

- Digital Signature: Completed the implementation of the Softdream digital signature (SignServer, EasySign API). Doctors have digitally signed medical records and orders; the date, hour, minute, and second are fully displayed as per regulations. The system is operating stably.
- National Prescription Connectivity: Completed the connection and data transmission from June 2025. The Pharmacy Department has been instructed on regular operations. Ensures prescription data synchronization with the National Prescription Portal.
- Information Security: Centralized server management, established a backup/restore schedule.
- It is expected that by March 2026, the construction of a synchronized website for appointment scheduling will be completed.
- Coordinate with relevant departments to implement smart kiosks and cashless payment systems, expected to be completed by March 2026.

d. Communication:

To enhance professional hospital communication activities and strengthen relationships with patients, the Communication Department was established on March 1, 2024, and has been operating effectively.

Internal Communication: Accompanying the monthly cardiovascular health consultation program; International Nurses Day 2025; Handwashing Day; nutrition and nursing training events; Tam Duc's communication on electronic medical records, etc.

Collaborative Communication from Units: Health Education Communication 2025 with HCDC; programs from the Department of Health related to vaccination, dengue fever; Patient Safety Day 2025; Green-Clean-Beautiful Program achieves good results from the Department of Health, etc.

Brand Promotion: Spring Health Consultation Program; Accompanying 2025 running events; CPR training program with Grab Vietnam and other promotional activities.

e. Health Insurance:

Year	2020	2021	2022	2023	2024	2025
Patients with Health Insurance	13,737	7,284	10,171	11,464	11,259	26,492
Including						
- Outpatient	10,521	4,985	6,573	7,676	7,660	22,626
- Inpatient	3,216	2,299	3,598	3,788	3,599	3,866
Payment Amount (million VND)	56,703	46,532	86,715	81,856	93,012	106,569

Health insurance is crucial to the development of Tam Duc. Among the total number of patients with health insurance at Tam Duc, outpatients account for 85% and inpatients account for 15%. In 2025, the number of outpatient health insurance cases reached 22,626, a significant increase compared to 2024, which was 7,660 cases. The main reason is due to new regulations effective from January 2025, facilitating health insurance participants to directly access higher-level hospitals for outpatient consultations without referral papers if diagnosed with critical illnesses or requiring surgery (most patients at Tam Duc fall into this category). Simplifying health insurance administrative procedures provides many conveniences for patients to return for follow-up visits and helps the number of outpatient consultations increase steadily each month (an average of 1,800 cases/month, tripling the average consultations in 2024). The health insurance payment amount in 2025 was VND 106.5 billion,

with outpatient health insurance payments amounting to VND 15.8 billion and inpatient payments amounting to VND 90.7 billion.

f. Hospital Quality Management according to Ministry of Health Criteria:

On April 17, 2025, the Department of Health inspected the quality management of Tam Duc Cardiology Hospital for the year 2024, and Tam Duc achieved a level of 4.37 (2023: 4.35).

In 2025, the Quality Management Department maintained quality monitoring activities, tracking improvements in departments, and managing incidents.

#### **4. Development Plan for 2026**

**Regarding Human Resources:** *After 20 years of stable operation and development, the leadership and professional team of Tam Duc have become increasingly well established. However, it is necessary to continue recruiting and providing postgraduate training in key technical positions such as emergency resuscitation, anesthesia and resuscitation, surgery, cardiac catheterization, and cardiac electrophysiology, while focusing on nurturing key personnel and future leadership to ensure sustainable development in the next phase.*

**Regarding Expertise:** *In 2026, outpatient consultations, emergency care, and inpatient treatment will increase by 5% compared to 2025. The development of specialized techniques and the maintenance of stable professional quality will achieve, with targets including 300 heart surgeries, 1,500 interventional cardiology procedures, and 500 cardiac electrophysiology cases.*

#### **Regarding Financials:**

Pursuant to Resolution No. VII.11 dated 2 March 2026 of the Board of Directors, the Board of Directors has approved the financial plan for 2026 as follows:

<i>Total revenue:</i>	<i>VND 800 billion</i>
<i>Profit before tax:</i>	<i>VND 100 billion</i>
<i>Profit after tax:</i>	<i>VND 88.5 billion</i>
<i>Dividend:</i>	<i>20% of par value</i>

Based on the business performance in the first three (03) months of 2026 and the current socio-economic conditions, the 2026 financial plan is expected to be adjusted as follows:

<i>Total revenue:</i>	<i>VND 780 billion</i>
<i>Profit before tax:</i>	<i>VND 95 billion</i>
<i>Profit after tax:</i>	<i>VND 86 billion</i>
<i>Dividend:</i>	<i>20% of par value</i>

This adjusted plan shall be formally approved by the Board of Directors at its 12th meeting on 30 March 2026 and submitted to the 2026 General Meeting of Shareholders for consideration and approval.

**5. Explanation by the Board of Management regarding the audit opinion:** *The Audit Firm issued an unqualified opinion on the financial results of the Hospital. The Board of Management is not required to provide an explanation.*

**6. Report on the company's environmental and social responsibilities:**

a. *Assessment related to environmental indicators such as water consumption, energy usage, emissions, etc.:*

In 2025, professional activities remained stable.

Electricity saving solutions:

- Improving the operation mode of central air conditioning systems according to different times, peak and off-peak hours, during and outside office hours to enhance energy efficiency.
- Replacing fluorescent lights with LED lights.
- Daily index monitoring

Water saving solutions:

- Installing a wastewater reuse system for garden irrigation, with a reuse rate of approximately 6%.

In 2025, electricity consumption decreased by 8% compared to 2024 (2,706,139 Kwh/2,930,340 Kwh), and water consumption decreased by 12% compared to 2024 (47,114 m<sup>3</sup>/53,506 m<sup>3</sup>).

b. *Assessment related to labor issues:*

The total number of employees as of December 31, 2025, was 536. The average salary was VND 29,054,724.

Ensuring an 8-hour workday regime, on-call duty for specialized departments. Providing uniforms, complying with occupational safety regulations, and paying hazardous and heavy-duty allowances for medical staff as required by the job.

Ensuring that all employees participate in social insurance and contribute to social insurance as per regulations.

As of December 31, 2025, 524 employees were covered by social insurance.

The total amount of social insurance, health insurance, and unemployment insurance contributions from January 1, 2025, to December 31, 2025, was VND 13,142,622,916 (of which the company contributed VND 8,830,682,557 (67.19%), and employees contributed VND 4,311,940,359 (32.81%)).

Organizing annual health check-ups for employees.

Supporting 50% of training costs for the hospital's medical staff.

c. *Assessment related to the company's responsibility towards the local community:*

In 2025, Tam Duc proactively continued to coordinate closely between localities and sponsors. Tam Duc visited the provinces of Ninh Thuan, Ca Mau, Kien Giang, Tra Vinh, Phu Yen, and An Giang, conducting examinations for 6,252 cases (2024: 7,456), of which 48 cases were indicated for surgery. In 2025, Tam Duc performed 64 surgeries, accounting for 23.7% of the total surgeries in 2025 (64/270). The total amount of assistance provided by domestic and international organizations and individual sponsors was VND 7,520,583,514 (2024: VND 15,770,483,100).

Not only are those who can afford the costs operated on at Tam Duc Cardiology Hospital, but it is also a trusted destination for charitable organizations and the Association for Supporting

Poor Patients across the country to send children with congenital heart disease for surgery. The total number of children who underwent heart surgery funded by health insurance, organizations, and charitable individuals since the hospital commenced operations to December 31, 2025, was 7,070 cases, accounting for 58% of the total cases operated (7,070/12,150), with total sponsorship reaching VND 461.8 billion.

#### IV. Assessment of the Board of Directors on the Company's Operations

##### 1. Assessment of the Board of Directors on Various Aspects of the Company's Operations

###### a. Regarding Human Resources:

- Total number of employees in 2025 was 537
- Total salary fund in 2025: VND 186.6 billion

###### b. Regarding Expertise:

In 2025, medical examination activities *were equivalent* to 2024 (81,083/81,428). Approximately 300 patients visited daily, of which 17% were new patients.

In 2025, inpatient numbers *increased by 5%* compared to 2024 (4,565/4,344).

In 2025, interventional cardiac catheterization *increased by 4%* compared to 2024 (1,755/1,689).

In 2025, there was an *increase by 10%* compared to 2024 (507/461).

In 2025, 270 surgical cases were performed, *a decrease of 24%* compared to 2024 (270/355).

###### c. Regarding Finance:

- Total revenue: *increased by 12.8%* compared to the 2025 plan (VND 846 billion/VND 750 billion)
- Total expenses: *increased by 6.88%* compared to 2024 (VND 737 billion/VND 690 billion)
- The profit before tax/revenue ratio for 2025 was *12.79%* (2024 was *12.1%*).

The General Meeting of Shareholders on April 29, 2016, decided on the policy for Tam Duc Cardiology Hospital Joint Stock Company to list on the UPCOM exchange in accordance with state regulations.

Resolution No. V.12/NQ-HĐQT dated June 23, 2016, of the Board of Directors decided to sign a contract with Viet Dragon Securities Corporation to advise on the necessary procedures for Tam Duc to list on the Upcom exchange in accordance with regulations.

Viet Dragon Securities Corporation was selected as the consulting company for Tam Duc to carry out the necessary procedures for listing on the UPCOM exchange.

On January 9, 2017, the Securities Depository Center issued the Securities Registration Certificate No. 11/2017/GCNCP-VSD for Tam Duc.

The Hanoi Stock Exchange approved Tam Duc's official registration for trading on the Upcom exchange through Decision No. 65/QĐ-SGDHN issued by the General Director of the Hanoi Stock Exchange on January 23, 2017. The first trading day was February 6, 2017. The reference

price was VND 36,000 per share. Tam Duc sent shareholders a letter guiding the trading procedures on the Upcom exchange on January 23, 2017. As of February 23, 2026, the share price of Tam Duc on the Upcom exchange was VND 141,000 per share, but there was very little trading. In 2025, it was 0.53%.

## 2. *Assessment by the Board of Directors on the activities of the Company's Board of Management*

*The Company's Board of Management operates efficiently.*

In 2025, Tam Duc made significant efforts in hospital quality management, from planning, staffing, enhancing coordination between departments, to improving processes, facilities, and equipment. As a result, the hospital quality inspection results and patient satisfaction levels remained at a good level. The quality assessment result in 2023 was 4.35, and 4.37 in 2024.

## 3. *Plans and orientations of the Board of Directors*

- Develop specialized techniques and maintain consistent professional standards to ensure treatment quality and patient satisfaction.

In terms of finance: always focus on investment efficiency.

- Continue to develop Tam Duc's social objectives so that Tam Duc becomes a source of trust and hope for cardiovascular patients.
- Continue to attract, recruit, and provide postgraduate training for personnel in key technical specialties such as intensive care, anesthesia and resuscitation, surgery, cardiac catheterization, and cardiac electrophysiology, while focusing on nurturing key personnel and future leadership to ensure sustainable development in the next phase.

## V. **Corporate Governance**

### 1. *Board of Directors*

#### a) Members and structure of the Board of Directors:

No.	Full Name	Position	Shareholding Ratio (%)	Executive	Position at Other Companies
1	Dr. Nguyen Ngoc Chieu	Chairman	0.77	X	No
2	MSc. Dr. Phan Kim Phuong	Member	3.68	X	No
3	Dr. Chu Trong Hiep	Member	0.23	X	No
4	MSc. Pham Anh Dung	Member	3.78		No
5	Spec. Level I Dr. Pham Bich Xuan	Member	2.34		No

#### b) Committees under the Board of Directors:

- The Financial and Investment Oversight Committee, chaired by MSc. Pham Anh Dung, Member of the Board of Directors.

#### c) Activities of the Board of Directors:

The Board of Directors meets quarterly.

In 2025, the Board of Directors held four sessions as follows:

- The Board of Directors VII Term convened on March 4, 2025, to evaluate the 2024 business results; prepare the 2025 plan; and prepare for the 2025 General Meeting of Shareholders. Attendance rate: 5/5.
- The Board of Directors VII Term convened on April 10, 2025, to preliminarily assess the financial results for the first quarter of 2025; approve personnel appointments. Attendance rate: 5/5.
- The Board of Directors VII Term convened on July 15, 2025, to evaluate the business results for the first six months of 2025 and the potential to achieve the 2025 plan; Approval of the first interim dividend payment for 2025; Approval of the selection of the audit firm for the 2025 financial statements. Attendance rate: 5/5
- The Board of Directors of VII Term convened on October 15, 2025, to conduct a preliminary assessment of the business results for the first nine months of 2025; Approval of personnel appointments. Attendance rate: 5/5
