INDEPENDENT AUDITOR'S REPORT

To the Shareholders Interfood Shareholding Company

We have audited the accompanying financial statements of Interfood Shareholding Company ("the Company"), which comprise the balance sheet as at 31 December 2025, the statements of income and cash flows for the year then ended and the explanatory notes thereto which were authorised for issue by the Company's Board of Directors on 17 March 2026, as set out on pages 6 to 38.

Management's Responsibility

The Company's Board of Directors is responsible for the preparation and true and fair presentation of these financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Enterprises and the relevant statutory requirements applicable to financial reporting, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and true and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Opinion

In our opinion, the financial statements give a true and fair view, in all material respects, of the financial position of Interfood Shareholding Company as at 31 December 2025 and of its results of operations and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Enterprises and the relevant statutory requirements applicable to financial reporting.

dated 22 December 2014 of the Ministry of Finance)*

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

1. Reporting entity

(a) Ownership structure

Interfood Shareholding Company (“the Company”) is incorporated as a joint stock company in Vietnam.

The Company’s shares were traded on the Unlisted Public Company Market in accordance with the Decision No. 717/QĐ-SGDHN issued by the Ha Noi Stock Exchange on 7 November 2016.

(b) Principal activities

The principal activities of the Company are to process agricultural and aquatic products into canned, dried, frozen, salted, and pickled products; the production of biscuits and snack food; carbonated and non-carbonated fruit juice, non-carbonated and carbonated beverages, with or without low level of alcohol (less than 10%); bottled filtered water; packaging for foods and beverages; to process milk and milk related products; and to export, import products in accordance with business operation.

(c) Normal operating cycle

The normal operating cycle of the Company is generally within 12 months.

(d) The Company’s headcount

As at 31 December 2025, the Company had 912 employees (1/1/2025: 914 employees).

(e) Fees paid and payable to the auditors

During the year, fees paid and payable to the auditors for the financial statements audit and financial information review amounting to VND1,040 million and VND320 million (2024: VND1,040 million and VND320 million), respectively.

2. Basis of preparation

(a) Statement of compliance

These financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Enterprises and the relevant statutory requirements applicable to financial reporting.

Form B 09 – DN

*(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

(b) Basis of measurement

The financial statements, except for the statement of cash flows, are prepared on the accrual basis using the historical cost concept. The statement of cash flows is prepared using the indirect method.

(c) Annual accounting period

The annual accounting period of the Company is from 1 January to 31 December.

(d) Accounting and presentation currency

The Company's accounting currency is Vietnam Dong ("VND"). The financial statements are prepared and presented in Vietnam Dong rounded to the nearest thousand ("VND'000").

3. Significant accounting policies

The following significant accounting policies have been adopted by the Company in the preparation of the accompanying financial statements.

(a) Foreign currency transactions

Transactions in currencies other than VND during the year have been translated into VND at rates approximating actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rate and the account transfer selling rate at the end of the annual accounting period, respectively, quoted by the commercial bank where the Company most frequently conducts transactions.

All foreign exchange differences are recorded in the statement of income.

(b) Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

(c) Accounts receivable

Accounts receivable from customers and other receivables are stated at cost less allowance for doubtful debts.

Interfood Shareholding Company
Notes to the financial statements for the year ended 31 December 2025 (continued)

Form B 09 – DN

*(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

(d) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour and attributable manufacturing overheads. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and estimated costs to sell.

The Company applies the perpetual method of accounting for inventories.

(e) Tangible fixed assets

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the statement of income in the year in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

▪ buildings and structures	30 years
▪ machinery and equipment	4 – 15 years
▪ motor vehicles	6 – 10 years
▪ office equipment	3 – 10 years

(f) Intangible fixed assets

Software

Cost of acquiring a new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible fixed asset. Software cost is amortised on a straight-line basis over 10 years.

Interfood Shareholding Company
Notes to the financial statements for the year ended 31 December 2025 (continued)

Form B 09 – DN

*(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

(g) Construction in progress

Construction in progress represents the costs of tangible and intangible fixed assets which have not been fully completed and installed. No depreciation is provided for construction in progress during the period of construction and installation.

(h) Long-term prepaid expenses

(i) *Prepaid land costs*

Prepaid land costs comprise prepaid land lease rentals, including those for which the Company obtained land use rights certificate but are not qualified as intangible fixed assets under prevailing laws and regulations, and other costs incurred in conjunction with securing the use of leased land. These costs are recognised in the statement of income on a straight-line basis over the term of the lease of 33 years.

(ii) *Other long-term prepaid expenses*

Other long-term prepaid expenses mainly include renovation, repair and maintenance expenses which are initially stated at cost and amortised on a straight-line basis over a period ranging from 2 to 3 years.

(i) Accounts payable

Accounts payable to suppliers and other payables are stated at their costs.

(j) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Severance allowance

Under the Vietnamese Labour Code, when an employee who has worked for 12 months or more (“the eligible employees”) voluntarily terminates his/her labour contract, the employer is required to pay the eligible employee severance allowance calculated based on years of service and employee’s compensation at termination. Provision for severance allowance has been provided based on employees’ years of service and their average salary for the six-month period prior to the end of the annual accounting period. For the purpose of determining the number of years of service by an employee, the period for which the employee participated in and contributed to unemployment insurance in accordance with prevailing laws and regulations and the period for which severance allowance has been paid by the Company are excluded.

(k) Share capital

(i) Ordinary shares

Ordinary shares are recognised at issuance price less incremental costs directly attributable to the issuance of shares, net of tax effects. Such costs are recognised as a deduction from share premium. The difference between proceeds from the issuance of shares over the par value is recorded in share premium.

(ii) Repurchase and reissue of ordinary shares (treasury shares)

Treasury shares are recognised only in respect of repurchased shares which are aggregated fractions of share arising when the Company issues shares to pay dividends or issues shares from equity reserves in accordance with an approved issuance plan, or repurchased odd-lots of shares as requested by the shareholders. In all other cases, when shares recognised as equity are repurchased, their par value amount is recognised as a reduction to share capital. The difference between the par value and the amount of the consideration paid, which includes directly attributable costs, net of tax effects, is included in share premium.

(l) Taxation

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the statement of income except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the end of the annual accounting period, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the end of the annual accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Form B 09 – DN

*(Issued under Circular No. 200/2014/TT-BTC
dated 22 December 2014 of the Ministry of Finance)*

On 29 November 2023, the National Assembly of Vietnam passed a resolution to introduce Income Inclusion Rule (“IIR”) and Qualified Domestic Minimum Top-up Tax (“QDMTT”), which broadly align with Pillar Two of the Global Anti-Base Erosion Model Rules of the OECD with effect from 1 January 2024. The resolution requires large multi-national enterprises to pay a global minimum corporate income tax of 15% on profit in each jurisdiction in which they operate. Following the Resolution, on 29 August 2025, the Vietnamese Government officially issued detailed guidance for the implementation of the GMT Rules under Decree No. 236/2025/ND-CP, which took effect from 15 October 2025. The global minimum top-up tax – which is required to pay under Pillar Two legislation – is included in current income tax in the scope of VAS 17 – *Income taxes*.

(m) Revenue and other income

(i) Goods sold

Revenue from sale of goods is recognised in the statement of income when significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods. Revenue from sale of goods is recognised at the net amount after deducting sale discounts stated on the invoice.

(ii) Interest income

Interest income is recognised in the statement of income on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

(n) Leases

(i) Leased assets

Assets held under leases in terms of which the Company, as lessee, does not assume substantially all the risks and rewards of ownership are classified as operating leases and are not recognised in the balance sheet.

(ii) Lease payments

Payments made under operating leases are recognised in the statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

(o) Earnings per share

The Company presents basic earnings per share (“EPS”) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. During the year, the Company had no potential ordinary shares and therefore does not present diluted EPS.

(p) Segment reporting

A segment is a distinguishable component of the Company that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Company's primary format and secondary format for segment reporting are based on business segments and geographical segments, respectively.

(q) Related parties

Parties are considered to be related to the Company if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where the Company and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.

Related companies refer to the Company's parent company, the ultimate parent company and their subsidiaries and associates.

(r) Comparative information

Comparative information in these financial statements is presented as corresponding figures. Under this method, comparative information for the prior year is included as an integral part of the current year financial statements and is intended to be read only in relation to the amounts and other disclosures relating to the current year. Accordingly, the comparative information included in these financial statements is not intended to present the Company's financial position, results of operations or cash flows for the prior year.

Comparative information as at 1 January 2025 was derived from balances and amounts reported in the Company's financial statements as at and for the year ended 31 December 2024.

(c) Applicable tax rates

Under the terms of prevailing income tax regulations, the Company has an obligation to pay the government income tax at the rate of 20% of taxable profits (2024: 20%).

(d) Global minimum top-up tax

As described in Note 3(1), on 29 November 2023, the National Assembly of Vietnam passed a resolution to introduce Income Inclusion Rule ("IIR") and Qualified Domestic Minimum Top-up Tax ("QDMTT"), which broadly align with Pillar Two of the Global Anti-Base Erosion Model Rules of the OECD with effect from 1 January 2024. The resolution requires large multi-national enterprises to pay a global minimum corporate income tax of 15% on profit in each jurisdiction in which they operate.

The Company has been appointed by the ultimate parent company as the designated filing entity for Qualified Domestic Minimum Top-up Tax purposes in Vietnam. Management has assessed the potential QDMTT top-up exposure for the years ended 31 December 2024 and 31 December 2025 and concluded that no QDMTT top-up tax is expected to be incurred, as the group entities in Vietnam meets the Transitional Country-by-Country Report ("CbCR") Safe Harbour requirements – specifically, the simplified effective tax rate test.
