STATEMENT OF THE BOARD OF MANAGEMENT

We, members of Executive Board of Hanoi Water Supply Number 2 JSC ("the Company") presents this report together with the Company's audited Office Financial Statements for the year ended December 31,

Board of Management

The members of Board of Directors and Board of Management of the Company during the year ended December 31, 2024 and to the date of this report, include:

Board of Directors

Mr. Duong Quoc Tuan	Chairman
Mr. Ta Ky Hung	Member
Ms. Tran Thi Phuong Thao	Member
Mr. Ngo Van Duc	Member
Mr. Le Van Thinh	Member

Board of Management

Mr. Ta Ky Hung	Director
Ms. Tran Thi Phuong Thao	Deputy Director
Mr. Ngo Van Duc	Deputy Director
Mr. Pham Anh Tuan	Deputy Director

Respective responsibilities of Board of Management

Board of Management of the Company is responsible for preparing Office Financial Statements which give a true and fair view of the financial position, business operation results and cash flows of the Company in the year, in accordance with Vietnamese Accounting Standards, Vietnamese Accounting regime for enterprises and legal regulations relating to the preparation and presentation of the Office Financial Statements. In the preparation of these Office Financial Statements, Board of Management is required to:

- Select suitable accounting policies and then consistently apply them;
- Make judgments and estimates that are reasonable and prudent;
- State whether appropriate accounting standards are respected or any application of material misstatements needs to be disclosed and justified in Office Financial Statements;
- Prepare the Office Financial Statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business; and
- Design and implement an effective internal control system for the purpose of properly preparing and presenting the Office Financial Statements so as to minimize risks and frauds.

Board of Management is responsible for ensuring that proper accounting records are kept, which disclose, with reasonable accuracy at any time, the financial position of the Company and that the Office Financial Statements comply with Vietnamese Accounting Standards, Vietnamese Accounting regime for enterprises and legal regulations relating to the preparation and presentation of the Office Financial Statements. Board of Management is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of frauds and other irregularities.

Board of Management confirms that the Company has complied with the above requirements in preparing these Office Financial Statements.

Director

No. 2602.01-25/BC-TC/VAE

Hanoi, February 26, 2025

INDEPENDENT AUDITORS' REPORT

**To: The Shareholders
The Management Board
Hanoi Water Supply Number 2 JSC**

We have audited the accompanying Office Financial Statements of Hanoi Water Supply Number 2 JSC (the "Company"), prepared on February 25, 2025 as set out from page 06 to page 40, which comprise: the Office Balance sheet as at December 31, 2024, the Office Income Statement and Office Cash Flow Statement for the year then ended and Notes to the Office Financial Statements.

Management Board's Responsibility

Management Board is responsible for the preparation and fair presentation of these Office Financial Statements in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting and for such internal control as Management Board determines is necessary to enable the preparation of Office Financial Statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these Office Financial Statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Office Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Office Financial Statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the Office Financial Statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Company's preparation and fair presentation of the Office Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Management Board, as well as evaluating the overall presentation of the Office Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the Office Financial Statements give a true and fair view of, in all material respects, the financial position of the Company as at December 31, 2024, and its financial performance and its cash flows for the year then ended in accordance with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting.

INDEPENDENT AUDITORS' REPORT

(continued)

Emphasis of Matter

As presented in Note No. IV.7.1 of the Notes to the Office Financial Statements, in 2024, the Company changed the depreciation period of some tangible fixed assets, as approved by the Director on June 18, 2024. This increased the depreciation expense of tangible fixed assets by VND 16,472,483,271 compared to last year.

Our opinion is not modified in respect of this matter.

6. Disclosure of information comparability in the Office Financial Statements

Comparative figures are the figures of the Company's audited Office Financial Statements for the year ended December 31, 2024.

7. Number of employees

As at December 31, 2024, the Company has 529 employees (As at December 31, 2023: 518 employees)

II. Accounting period, accounting convention**1. Accounting period**

The Company's accounting period begins on 01 January and ends on 31 December of the calendar year.

2. Accounting currency

The currency used in accounting is Vietnam dong ("VND") accounted under the principle of historical cost, in accordance with Vietnamese Accounting Standards, Vietnamese Accounting regime for enterprises and the legal regulations related to the preparation and presentation of Office Financial Statements.

III. Applied accounting regime and standards**1. Applied accounting regime and standards**

The Company applies Vietnamese Accounting regime and Vietnamese Accounting Standards for enterprises promulgated under the Circular No. 200/2014/TT-BTC dated 22/12/2014 by Ministry of Finance guiding the Accounting Regime for Enterprises and Circular No. 53/2016/TT-BTC dated 21/03/2016 by Ministry of Finance regarding amendment to some articles of Circular No. 200/2014/TT-BTC.

NOTES TO THE OFFICE FINANCIAL STATEMENTS (continued)

(These notes are an integral part of and should be read in conjunction with the accompanying Office Financial Statements)

2. Statement on the compliance to Accounting Standards and Accounting regime

The Company's Office Financial Statements are prepared and presented in accordance with Vietnamese Accounting Standards and current Vietnamese Accounting regime for enterprises and the laws and regulations in relation to the preparation and presentation of Office Financial Statements.

IV. Summary of Significant accounting policies**1. Basis for the consolidation of Office Financial Statements preparation**

The Office Financial Statements are prepared as the Financial Statements of the Company's Office excluding figures of its subsidiaries. At the same time, the Company also prepares the Combined Financial Statements of the Company's Office and its subsidiaries for the year ending December 31, 2024, by Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting Regime and legal regulations related to the preparation of Financial Statements.

Users of the Office Financial Statements should read them together with the Combined Financial Statements in order to obtain full information on the consolidated financial position, consolidated results of operations, and Combined Cash Flows of the Company.

2. Accounting estimates

The preparation of Office Financial Statements in conformity with Vietnamese Accounting Standards, accounting regime for enterprises and legal regulations relating to financial reporting requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of the Office Financial Statements and the reported amounts of revenues and expenses during the financial year. Although these accounting estimates are based on the Executive board's best knowledge, actual results may differ from those estimates.

3. Principle of recognizing cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits, highly liquid investments (not exceeding 3 months) that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

4. Accounting principle for financial investments***Held-to-maturity investments***

Held-to-maturity investments comprise investments that the Company has the positive intent or ability to hold to maturity. Held-to-maturity investments include term deposits.

Held-to-maturity investments are recognised on a trade date basis and are initially measured at acquisition price plus directly attributable transaction costs. Post-acquisition interest income from held-to-maturity investments is recognised in the Office income statement on accrual basis. Pre-acquisition interest is deducted from the cost of such investments at the acquisition date.

Held-to-maturity investments are measured at cost less provision for doubtful debts (if any).

Provision for doubtful debts relating to held-to-maturity investments is made in accordance with prevailing accounting regulations.

NOTES TO THE OFFICE FINANCIAL STATEMENTS *(continued)**(These notes are an integral part of and should be read in conjunction with the accompanying Office Financial Statements)***5. Accounting principle for receivables**

Receivables are presented as net book value less allowance for doubtful and bad debts. Classification of receivables is made on the following principle:

- Trade accounts receivable consist of receivables with their commercial nature arising from transactions with their purchasing-selling nature between the Company and buyers who are independent entities from the Company.
- Internal receivables reflect receivables from affiliated units without legal entity status that are dependent on accounting
- Other receivables consist of receivables with their non-commercial nature, not related to transactions with their purchasing-selling nature.

Provision for bad debts is set aside for overdue receivables recorded in economic contracts, contract commitments, or debt repayment commitments that the enterprise has claimed many times but has not yet recovered, or receivable debts that the debtor is unlikely to be able to pay due to liquidation, bankruptcy or similar difficulties.

Increase, decrease in provision for bad and doubtful debts to be made at the cut-off date for Office Financial Statements shall be recognized into general administration expenses.

6. Principle for recognizing inventories

Inventories are recognized at the lower price between historical cost and net realizable value. Historical cost of inventories consists of expenses of acquisition, processing and other directly related expenses (if any) incurred to bring inventories to their present location and condition.

Net realizable value is determined as the estimated selling price of inventories during the normal business period minus the estimated costs to complete and necessary estimated costs to sell.

Value of inventories is determined under using the weighted average method and accounted for by perpetual method.

As of December 31, 2024, the Company does not have inventory that requires a provision for devaluation.

7. Principle for fixed asset recognition and depreciation**7.1 Principle for tangible fixed asset recognition and depreciation**

Tangible fixed assets are recognized at their historical cost, presented in the Office Balance Sheet under the items of historical cost, accumulated depreciation and carrying amount.

The historical cost of procured tangible fixed assets includes their purchase price (excluding trade discount or other discount), taxes and directly related costs to bring such assets into the ready-for-use state.

Historical cost of fixed assets which are constructed by contractors includes value of completed and handover works, directly-related costs and stamp duty.

The historical cost of procured tangible fixed assets include actual price of tangible fixed assets which are self-constructed or self-made and their installation and commissioning expense.

The expenses incurred after the initial recognition of tangible fixed assets are recorded as the increases of historical cost of assets when these expenses are sure to increase economic benefits in the future. The incurred expenses which do not satisfy the above conditions are recognized into production and business operation expense in the year.

NOTES TO THE OFFICE FINANCIAL STATEMENTS (continued)*(These notes are an integral part of and should be read in conjunction with the accompanying Office Financial Statements)*

The Company applied straight-line depreciation method to tangible fixed assets. Tangible fixed assets are accounted and classified into groups by their nature and purpose of utilization in the Company's production and business operation, including:

<i>Type of fixed assets</i>	<i>Depreciation duration <years></i>	
	<i>Year 2023</i>	<i>Year 2024</i>
Building and structures	05 - 30	05 - 20
Machinery, equipment	03 - 10	03 - 10
Means of transport, transmission equipment	06 - 30	05 - 25
Office equipment and tools	03 - 05	03 - 05

In 2024, the Company changed the depreciation period of some tangible fixed assets, as approved by the Director on June 18, 2024. This will result in an increase in depreciation expenses of VND 16,472,483,271 compared to the same period last year. Accordingly, the accumulated depreciation value of tangible fixed assets on the Office's Balance Sheet as of December 31, 2024, will increase by VND 16,472,483,271. Depreciation expenses will increase, and pre-tax accounting profit will decrease by a corresponding value of VND 16,472,483,271

7.2 Principle for intangible fixed asset recognition and amortization

Intangible fixed assets are recognized at their historical cost, presented in the Office Balance Sheet under the items of historical cost, accumulated amortization and carrying amount.

The historical cost of intangible fixed assets includes all costs that the Company must spend to acquire the fixed asset up to the time the asset is put into a ready-to-use state. Expenses related to intangible fixed assets incurred after initial recognition are recognized as production and business expenses in the period, unless these expenses are associated with a specific intangible asset and increase the economic benefits from these assets.

When fixed assets are sold and liquidated, their original cost and accumulated depreciation are written off and profits and losses arising from liquidation are recorded in income or expenses during the year.

Intangible fixed asset of the Company is Computer software

Computer software

Costs in relation to translation computer software are not an integral part of the relevant capitalized hardware. Historical costs of computer softwares is the whole expenditure paid by the Company until the softwares are put into use. Computer softwares are amortized on straight line basis from 02 to 20 years.

8. Principle for finance lease assets recognition and depreciation

Leases are classified as finance leases if substantially all the risks and rewards incidental to ownership of the asset remain with the lessee. Finance leased fixed assets are stated at cost less accumulated depreciation. The cost of a finance leased fixed asset is the lower of the fair value of the leased asset at the inception of the lease contract and the present value of the minimum lease payment.

The discount rate to calculate the present value of the minimum rental payment for a property lease is the interest rate implicit in the property lease contract or the interest rate stated in the contract. In case the interest rate implicit in the lease contract cannot be determined, the loan interest rate at the beginning of the asset lease is used.

NOTES TO THE OFFICE FINANCIAL STATEMENTS (continued)*(These notes are an integral part of and should be read in conjunction with the accompanying Office Financial Statements)*

Finance leased fixed assets are depreciated using the straight-line method over their estimated useful lives. In cases where there is no reasonable certainty that the Company will obtain ownership at the end of the lease term, the fixed assets are depreciated over the shorter of the lease term and the estimated useful life. The depreciation years for the various types of leased fixed assets are as follows:

<i>Type of fixed assets</i>	<i>Depreciation duration <years></i>
Means of transport	07

9. Principle for recognizing construction in progress

The Company's construction-in-progress costs include renovating water supply stations, renovating and upgrading water supply systems, and other works recorded at cost. These costs include construction, service, and related expenses to the Company's accounting policy.

10. Principle for recognition and allocation of prepayment expenses

Prepaid expenses include expenses that have been incurred but are actually related to production and business results of many accounting periods. Prepaid expenses include costs of chemicals awaiting allocation; costs of installing water machines in the allocated waiting house; replacing centralized meters awaiting allocation and costs of repairing and renovating the water supply network.

Chemical costs awaiting allocation are allocated to the General Business Results Report according to water production output during the period.

Costs of installing water machines in the distribution waiting house; costs of replacing centralized meters awaiting distribution and costs of repairing and renovating the water supply network are allocated to the Office income statement using the straight-line method from 24 to 36 months.

11. Accounting principle for liabilities

Liabilities are amounts payable to suppliers and other subjects. Liabilities comprise trade accounts payable and other payables. Liabilities are not recorded at lower amounts than payment obligation. Classification of liabilities is made on the following principle:

- Trade accounts payable comprise liabilities with their commercial nature arising from purchasing goods, services, and assets and the suppliers are independent buyers.
- Internal payables include amounts payable between superior units and subordinate units that do not have dependent accounting legal status;
- Other amounts payable comprise amounts payable with their non-commercial nature, not related to transactions of purchasing, selling and supplying goods, services.

Liabilities are monitored by details of each item and due date.

12. Principle for recognizing loans and obligations under finance lease

Loans and financial lease liabilities are recorded on the basis of receipts, bank documents, contracts and loan and financial lease contracts.

Loans and financial leases are tracked by subject, term, and currency.

NOTES TO THE OFFICE FINANCIAL STATEMENTS *(continued)**(These notes are an integral part of and should be read in conjunction with the accompanying Office Financial Statements)***13. Principle for recognition and capitalization of borrowing costs**

Borrowing costs include loan interest and other costs incurred directly related to the loans.

Borrowing costs are recorded in production and business expenses in the period in which they arise, unless capitalized according to the provisions of Accounting Standards "Borrowing costs". Accordingly, borrowing costs directly related to the purchase, construction investment or production of assets that take a relatively long time to complete and put into use or business are added to the historical cost of the asset for until that asset is put into use or business. Income from temporary investment in loans is recorded as a reduction in the cost of the relevant asset. For separate loans serving the construction of fixed assets or investment real estate, interest is capitalized even if the construction period is less than 12 months.

14. Principle for recognizing accrued expense

The Company's payable expenses include: accrued loan interest expenses and accrued forest environmental service fees which are actual expenses incurred in the reporting period but have not yet been paid due to the lack of invoices. Invoices or incomplete accounting records and documents are recorded in production and business expenses of the reporting period and payables that have not yet arisen because goods and services have not been recorded but are included in advance expenses. Production and business expenses this period to ensure that when they arise, they are zero causing sudden changes in production and business costs.

Accrued expenses on production and business expenses in the period are calculated strictly with reasonable and reliable evidence on the expenses to be accrued in the period to ensure the accounting expenses payable to be accounted will match the actual costs incurred.

15. Principle for recognizing owner's equity

Capital investment of the Company's owners is recognized by shareholders' actual capital contribution.

Profit after corporate income tax is allocated to shareholders right after funds are made for under the Corporation Article of the Company as well as legal regulations and upon approval of the Annual General Meeting.

Retained earnings are the profit amounts from enterprise's business operation after deducting CIT expense this year and the retroactive adjustments due to changes in accounting policies and the retroactive adjustment of material misstatements in the previous years.

Dividend is recognized as a payable upon approval by the Annual General Meeting.

16. Principle and method of recognizing other revenue, income

The Company's revenue includes revenue from clean water sales, construction and design activities, and services, and other revenue from interest on bank deposits.

Revenue from sales of clean water

Revenue from sales of clean water is recognised when all five (5) following conditions are satisfied:

- The Company has transferred the majority of risks and benefits associated with the right to own the products or goods to the buyer;
- The Company no longer holds the right to manage the goods as the goods owner, or the right to control the goods;
- Turnover is determined with relative certainty;
- The Company gained or will gain economic benefits from the sale transaction; and

NOTES TO THE OFFICE FINANCIAL STATEMENTS *(continued)**(These notes are an integral part of and should be read in conjunction with the accompanying Office Financial Statements)*

- It is possible to determine the costs related to the goods sale transaction.

Revenue from services rendered

Revenue from a service transaction is recognized when the outcome of such transaction is determined reliably. In case such transaction of services rendered is related to many periods, the revenue is recognized in the period corresponding to the completed work item as at the date of Office Financial Statements for such period. The outcome of a transaction can be measured reliably when all four (4) following conditions are satisfied:

- Turnover is determined with relative certainty. In case the contract specifies that buyers have the right to return services that were bought under specific terms, the revenue is only recognized when these specific terms no longer exist and the buyers have no right to return services rendered;
- It is possible to obtain economic benefits from the service provision transaction;
- The work volume completed on the cut-off date of the Office Financial Statements can be determined; and
- The costs incurred from the transaction and the costs of its completion can be determined.

Revenue from construction contracts

When the results of contract performance are reliably estimated:

- For construction contracts that stipulate that the contractor is paid according to the planned progress, revenue and costs related to the contract are recorded corresponding to the completed work as determined by the Company at the end of the year. Closing date of Financial Statements.
- For construction contracts where the contractor is paid according to the value of the volume performed, revenue and costs related to the contract are recorded corresponding to the completed work confirmed by the customer. and are reflected on the invoice issued

Increases and decreases in construction volume, compensation, and other revenues are only recorded as revenue when agreed with customers.

When the results of the performance of a construction contract cannot be estimated reliably, then:

- Revenue is only recognized as equivalent to the contract costs incurred, whose repayment is relatively certain.
- Contract costs are recognized as expenses only when incurred.

The difference between the total cumulative revenue of the construction contract recorded and the cumulative amount recorded on the invoice for payment according to the planned progress of the contract is recorded as receivable or payable according to the planned progress of the construction contracts.

Interest income

Interest amounts are recognized on accrual basis, being determined on balances of deposits and actual interest rate in the period.

17. Principle and method of recognizing financial expense

Financial expense recognized in the Office Income Statement is the total financial expense incurred in the period, without offset with revenue from financing activities, including interest expense.

NOTES TO THE OFFICE FINANCIAL STATEMENTS (continued)

(These notes are an integral part of and should be read in conjunction with the accompanying Office Financial Statements)

18. Tax liabilities

Value added tax (VAT)

The Company declares and calculates VAT under the guidelines of current Taxation Law.

Corporate income tax

Corporate income tax represents the total amount of current tax payable.

Current tax payable is calculated on taxable profit in the period. Taxable income differs from net profit presented in the Income Statement because taxable income does not include assessable incomes or expenses or deductible one in other years (including losses carried forward, if any) and it further excludes items that are non-taxable or non-deductible.

The Company applies the corporate income tax rate of 20% on taxable profits.

The corporate income tax of the Company is determined in conformity with current tax regulations. However, these regulations may change from time to time and the final determination of corporate income tax depending on the tax check results of the competent tax authorities.

Other taxes

Other taxes and fees are declared and paid by businesses to local tax authorities according to current tax laws in Vietnam.

REPORT

**On Salaries, Remuneration, and Operating Expenses in 2024;
Estimated Salaries, Remuneration, and Operating Expenses in 2025
Supervisory Board of the Company**

To: Shareholders

Pursuant to the Securities Law No. 54/2019/QH14 dated November 26, 2019;
Pursuant to the Enterprise Law No. 59/2020/QH14 dated June 17, 2020;
Pursuant to Decree No. 155/2020/ND-CP dated December 31, 2020 of the Government detailing the implementation of several articles of the Securities Law;

Pursuant to Circular No. 116/2020/TT-BTC dated December 31, 2020, guiding several articles on corporate governance applicable to public companies;

Pursuant to the Charter of Organization and Operation of Hanoi Water Supply Number 2 Joint Stock Company;

Pursuant to Circular No. 28/2016/TT-BLĐTBXH dated September 01, 2016, of the Ministry of Labor, Invalids and Social Affairs, guiding the implementation of regulations on labor, salaries, and bonuses of joint stock companies with dominant state capital contributions;

Pursuant to the actual expenses of the Supervisory Board in 2024, summarized in the Company's audited financial statements;

Pursuant to the salary and remuneration plans; and the financial plan for 2025 approved by the Members' Council of Hanoi Water Limited Company;

The Supervisory Board of Hanoi Water Supply Number 2 Joint Stock Company reports to the General Meeting of Shareholders on the settlement of salary, remuneration, and operating expenses for 2024, and the estimated salary, remuneration, and operating expenses of the Supervisory Board for 2025, as follows:

1. Settlement of Salary, Remuneration, and Operating Expenses of the Supervisory Board in 2024: 866,643,564 VND, including:

- Salary expenses for specialized Supervisory Board members: 405,039,300 VND, reaching 101.2% of the 2024 estimate (Average actual salary: 34,100,000 VND/month).
- Remuneration expenses: 64,800,000 VND, reaching 100% of the 2024 estimate (Remuneration for 02 part-time Supervisory Board members, calculated according to the Company's 2024 remuneration plan. Remuneration amount: 2,700,000 VND/person/month).
- Operating expenses of the Supervisory Board: 396,804,264 VND, reaching 103.3% of the 2024 estimate.

2. Estimated Salary, Remuneration, and Operating Expenses of the Supervisory Board for 2025: 963,452,900 VND, including:

Người ký: TA KỲ HƯNG
Ký ngày: 22/04/2025 18:18:29

- Salary expenses for specialized Supervisory Board members: 409,200,000 VND (Average salary: 34,100,000 VND/month).
- Remuneration expenses: 81,840,000 VND. Remuneration is calculated for 02 part-time members, with a remuneration amount of 3,410,000 VND/person/month.
- Operating expenses of the Supervisory Board: 472,412,900 VND.

The operating expenses of the Supervisory Board depend on the company's business operations, production and business results, and the actual activities of the Supervisory Board. Salaries, remuneration, bonuses, and other operating expenses of the Supervisory Board will be settled annually based on actual expenditures and in accordance with regulations.

The Supervisory Board of Hanoi Water Supply Number 2 Joint Stock Company reports to the General Meeting of Shareholders on the final settlement of salary, remuneration, and operational expenses of the Supervisory Board for 2024; and the budget estimate for salaries, remuneration, and operating expenses of the Supervisory Board for 2025, to be approved at the Annual General Meeting of Shareholders in 2025.

We respectfully submit this for the consideration and approval of the General Meeting of Shareholders.

Sincerely thanks!
