Unit: million VND

Description	Quarter II/2025	Quarter II/2026	Difference
Profit after corporate income tax	247.571	376.257	128.686

The main reason for the increase in after-tax profit in the second quarter of 2026 compared to the second quarter of 2025 was the higher average full-market electricity price in the second quarter of 2026, which resulted in increased revenue and profit.
