**ACCOUNTING POLICIES AT THE COMPANY**

The annual accounting period of the Company is from 1 January to 31 December.

Accounting currency is Vietnam Dong (VND).

Economic transactions arising in foreign currencies are translated into VND at the actual exchange rate of the bank opening the account (or the average inter-bank exchange rate) at the time of transaction. At year-end, monetary items denominated in foreign currencies are translated at the average inter-bank exchange rate announced by the State Bank of Vietnam at the balance sheet date.

Actual exchange differences arising during the period and exchange differences due to revaluation of monetary items' balances at the end of the year are accounted in financial revenue or expenses in the fiscal year.

### **Applicable accounting standards and accounting policies**

#### **Applicable accounting policies**

#### **Complying with Accounting Standards and Accounting Policies**

The Company has applied Vietnamese Accounting Standards and standard guiding documents issued by the Ministry of Finance. The financial statements are prepared and presented in accordance with all provisions of each standard, circular on guidelines for the standard and the applicable accounting policies.

#### **System and form of accounting books applied**

The company uses accounting software to record arising economic transactions.

### **Cash and cash equivalents**

Cash and cash equivalents comprise cash in hand, bank deposits, cash in transit, call deposits and other short-term investments not exceeding 3 months that are readily convertible to cash and are subject to an insignificant risk of being convertible to cash from the date of acquisition of the investment at the reporting time.

### **Financial investments**

Financial investments include trading securities; held-to-maturity investments ; Loans; investments in subsidiaries and associates; investments in equity instruments of other entities, used to reflect the purchase, sale and payment for the purpose of making a profit. Trading securities must be recognised at cost. Listed securities are recognized at the time of order matching; unlisted securities are recognized at the time of official ownership in accordance with the law. At the end of the accounting year, if the market value of trading securities is lower than the cost, a provision is made. Paying dividends in shares, investors only track the amount on the notes. All stock swaps must be valued at fair value, at the date of exchange. When liquidating or selling, the cost is determined on a weighted average basis.

Investments in subsidiaries and associates are recognised at cost. Net profit distributed from subsidiaries and associates arising after the investment date is recognized in the income statement. Other distributions (except for net profit) are considered to be the recovery of investments and are recognized as a deduction from cost of investment.

### **Accounts receivable**

Trade receivables are stated at the original invoice amount less allowance for doubtful receivables estimated based on the Management's review of all outstanding debts at end of the year. Debts determined to be uncollectible will be written off.

### **Inventories**

Inventories are stated at the cost and net realisable value. Cost is determined on a weighted average basis and includes all purchase costs, manufacturing costs, other direct related costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price of inventory items in the normal course of business, less the estimated costs necessary for consumption.

Inventories are determined on a weighted average basis

Inventories are accounted by the perpetual method.

Provision for devaluation of inventories made at year-end is the difference between the cost of inventories and their net realisable value.

### **Depreciation of fixed assets, finance lease fixed assets, investment properties**

Tangible fixed assets, intangible fixed assets are recognised at cost. When using, tangible fixed assets, intangible fixed assets are stated at cost, accumulated depreciation and carrying amount.

Finance lease fixed assets are stated at their fair value or the present value of the minimum lease payments (excluding VAT) and the initial direct costs incurred related to finance lease fixed assets. When using, finance lease fixed assets are stated at cost, accumulated depreciation and carrying amount.

Applicable depreciation method and special depreciation cases: Depreciation is deducted using the straight-line method, the depreciation period is estimated as prescribed in Circular No. 45/2013/TT-BTC dated April 25, 2013 by the Ministry of Finance.

Buildings and structures: 5 – 25 years

Machinery and equipment: 5 – 10 years

Motor vehicle: 6-10 years

Office equipment: 3-8 years

Land use right: 49 years

Finance lease fixed assets are depreciated like the Company's fixed assets. For finance lease fixed assets that are not certain to be repurchased, depreciation will be computed over the lease term when the lease term is shorter than its useful lives.

Investment properties are stated at cost. While held for appreciation, or under an operating lease, investment properties are recognized at cost, accumulated amortization, and carrying amount.

Investment properties are computed and depreciated like the Company's other fixed assets.

### **Business cooperation contracts (BCC)**

A contractual agreement between two or more parties to jointly conduct economic activities but do not form an independent legal entity. The party receiving the contributed capital does not record it in equity but records it in Account 338. BCC divides the profit after tax controlled by one party or jointly controlled by one party, and by one party accounting and finalizing. The parties must consider the risks they may incur.

Investments in joint ventures are accounted at cost. The joint venture capital contribution is not adjusted for the change in the company's share of the joint venture's net assets. The income statement of the Company reflects the income distributed from the accumulated net profit of the joint venture arising after the contribution of capital to the joint venture.

Joint venture activities in the form of jointly controlled businesses and jointly controlled assets are subject to the same general accounting principles as with other ordinary business activities. Including:

The Company separately monitors the incomes and expenses related to joint venture activities and makes allocations to the parties in the joint venture according to the joint venture A125;

The Company separately monitors assets contributed to joint ventures, capital contributions to jointly controlled assets and joint liabilities and separate liabilities arising from joint venture activities.

Securities investments at the reporting time, if:

With a maturity or withdrawal period not exceeding 3 months from the date of purchase, such investment is considered "cash equivalent";

Having a withdrawal period of less than 1 year or within 1 business cycle, which is classified as a short-term asset;

Having a withdrawal period of more than 1 year or more than 1 business cycle, which is classified as a long-term asset;

Provision for devaluation of investments made at year-end is the difference between the cost of investments accounted in the accounting books and their market value at the time of making the provision.

If BCC stipulates that other parties participating in BCC are entitled to a fixed profit regardless of the business performance of the contract; In this case, although the legal form of the contract is BCC, the nature of the contract is to lease the property. If BCC stipulates that another party in BCC only classifies profit sharing if BCC's operating results are profitable and at the same time incurs losses, although the legal form of BCC is to divide profit after tax, the nature of BCC is the division of revenue and expenses.

### **Borrowing costs**

Borrowing costs are recognised in business expenses in the period in which they are incurred, except where the borrowing costs related to the investment in construction or production of unfinished assets which are included in the value of assets (capitalized) when all the conditions specified in Vietnamese Accounting Standard No. 16 "Borrowing costs" are met.

borrowing costs related to the investment in construction or production of unfinished assets are included in the value of the asset (capitalized), including interest on the loan, amortization of discounts or additional fees when issuing bonds, additional costs incurred related to loan procedures.

### **Loans and finance lease liabilities**

Monitor details of terms of loans and finance lease liabilities. Accounts with a repayment period of more than 12 months from the time of preparation of the financial statements are presented as loans and long-term financial lease liabilities. Accounts due to be paid within the next 12 months from the time of preparation of the financial statements, are presented as loans and short-term financial lease payables to have a repayment plan.

Finance lease liability is the total lease liability calculated at the present value of the minimum lease payments or the fair value of the leased asset.

The capitalization rate of interest expense for the period is: 0%

### **Prepaid expenses**

Actual prepaid expenses incurred during the fiscal year or related to the business performance of many accounting periods and transferred to many later accounting periods.

Establishment costs

- Pre-operation costs/production preparation costs (including training costs);
- Expenses for relocation, expenses for business reorganization;

Cost for load tests and trial production;

Tools and instruments delivered are of great value;

Loss on exchange rate difference of capital construction investment stage;

The cost of major repair of fixed assets incurred once is too large.

Calculation and allocation of prepaid expenses into production and business expenses in each accounting period is based on the nature and extent of each type of expense in order to choose a method and reasonable allocation criteria. Prepaid expenses are gradually amortized to production and business expenses on a straight-line basis.

### **Payables**

The classification is done on the same principle as receivables.

#### **Payable expenses**

Actual expenses that have not been incurred but are deducted in advance into production and business expenses in the period to ensure that when incurred costs actually do not cause a sudden change in production and business costs on the basis of ensuring the matching rule between revenue and cost. When such expenses are incurred, if there is a difference with the deducted amount, the accountant shall record additional or decrease expenses corresponding to the difference.

#### **Payable provisions**

The recognized amount of a payable provision is the most reasonable estimate of the amount that will be required to settle the present obligation as at the end of accounting period or at the end of six-month period.

Only expenses related to the payable provision initially made will be offset by such provision.

The difference between the provision for payables made in the previous accounting period that has not been used up is larger than the provision for payables made in the reporting period, which is reversed and recorded as a decrease in production and business expenses in the period minus the difference. The larger amount of the provision for warranty payments for construction works is reversed into other income in the period.

### **Equity**

The owner's investment equity is recognized according to the amount of equity contributed by the owner.

Share premium is recognized according to the larger or smaller difference between the actual value of the issue and the par value of the shares upon the initial issuance, additional issuance or re-issuance of treasury shares.

Other equity of the owner is stated according to the residual value between the fair value of assets that the enterprise is donated or donated by other organizations and individuals after deducting (-) payable taxes (if any) related to these donated assets and not additional business capital from business performance.

Difference in revaluation of assets due to revaluation of existing assets and handling of the difference.

Exchange rate differences reflected on the balance sheet are exchange rate differences arising or revaluation at the end of the period of items denominated in foreign currencies.

Undistributed profit after tax is the profit from the enterprise's activities after deducting (-) adjustments due to retrospective application of changes in accounting policies and retrospective adjustment of material misstatements of the previous years.

### **Revenue**

#### **Sales revenue**

Sales revenue is recognized when the following conditions are simultaneously satisfied:

The significant risks and rewards of ownership of the product or goods have been transferred to the buyer;

The company no longer holds the right to manage the goods as the owner of the goods or control the goods;

The revenue can be measured reliably;

The Company has obtained or will receive economic benefits from the sale transaction;

Determine the costs associated with the sale transaction

#### **Service revenue**

Service revenue is recognized when the outcome of the transaction can be measured reliably. Where the provision of services involves multiple periods, revenue is recognized in the period according to the results of the work completed at the balance sheet date of that period. The outcome of a service provision transaction is determined when the following conditions are satisfied:

The revenue can be measured reliably;

It is likely to obtain economic benefits from the transaction of providing that service;

The work completed at the balance sheet date can be determined;

Determine the costs incurred for the transaction and the cost to complete the transaction of providing that service.

The work of providing services completed has been determined by work completion assessment method

#### **Financial income**

Revenue arising from interest, royalties, dividends, distributed profits and other financial income is recognized when the following two (2) conditions are satisfied simultaneously:

It is likely to obtain economic benefits from the transaction;

The revenue can be measured reliably.

Dividends and distributed profits are recognized when the Company receives dividends or receives profits from capital contribution.

### **Revenue from construction contracts**

The completed work of the construction contract as the basis for determining the revenue is determined by the method of percentage (%) between the actual costs incurred of the completed work at a given time compared to with the total estimated cost of the contract.

### **Financial expenses**

Expenses recognized in financial expenses include:

Expenses or losses related to financial investments;

Loan and borrowing costs;

Losses due to changes in exchange rates of transactions related to foreign currencies;

Provision for devaluation of securities investment.

The above amounts are recognized according to the total amount incurred during the period, not offset against financial income.

**Current corporate income tax expenses and deferred corporate income tax expenses**

Current corporate income tax expense is determined on the basis of taxable income and CIT rate in the current year.

Deferred corporate income tax expense is determined on the basis of deductible temporary difference, taxable temporary difference and CIT rate.
