Masan MEATLife Corporation Statement of the Board of Management

The Board of Management of Masan MEATLife Corporation ("the Company") presents this statement and the accompanying separate financial statements of the Company for the year ended 31 December 2024.

The Company's Board of Management is responsible for the preparation and true and fair presentation of the separate financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting. In the opinion of the Company's Board of Management:

- (a) the separate financial statements set out on pages 5 to 34 give a true and fair view of the separate financial position of the Company as at 31 December 2024, and of its separate results of operations and its separate cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting; and
- (b) at the date of this statement, there are no reasons to believe that the Company will not be able to pay its debts as and when they fall due.

The Company's Board of Management has, on the date of this statement, authorised the accompanying separate financial statements for issue.

On behalf of the Board of Management

INDEPENDENT AUDITOR'S REPORT

To the Shareholders Masan MEATLife Corporation

We have audited the accompanying separate financial statements of Masan MEATLife Corporation ("the Company"), which comprise the separate balance sheet as at 31 December 2024, the separate statements of income and cash flows for the year then ended and the explanatory notes thereto which were authorised for issue by the Company's Board of Management on 28 February 2025, as set out on pages 5 to 34.

Management's Responsibility

The Company's Board of Management is responsible for the preparation and true and fair presentation of these separate financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting, and for such internal control as the Board of Management determines is necessary to enable the preparation of separate financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these separate financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the separate financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and true and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Company's Board of Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Opinion

In our opinion, the separate financial statements give a true and fair view, in all material respects, of the separate financial position of Masan MEATLife Corporation as at 31 December 2024 and of its separate results of operations and its separate cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting.

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

These notes form an integral part of and should be read in conjunction with the accompanying separate financial statements.

1. Reporting entity

(a) Ownership structure

Masan MEATLife Corporation ("the Company") is a joint stock company incorporated in Vietnam.

The Company's shares were traded on the Unlisted Public Company Market ("UPCoM") in accordance with the Decision No. 804/QD-SGDHN issued by Ha Noi Stock Exchange on 2 December 2019.

(b) Principal activity

The principal activity of the Company is investment holding.

(c) Normal operating cycle

The normal operating cycle of the Company is generally within 12 months.

(d) The Company's structure

As at 31 December 2024, the Company had 5 directly owned subsidiaries and 1 directly owned associate (1/1/2024: 5 directly owned subsidiaries and 1 directly owned associate) as listed in Note 9.

As at 31 December 2024, the Company had 177 employees (1/1/2024: 127 employees).

2. Basis of preparation

(a) Statement of compliance

These separate financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting.

The Company prepares and issues its consolidated financial statements separately. For a comprehensive understanding of the consolidated financial position as at 31 December 2024 of the Company and its subsidiaries (collectively referred to as "the Group"), their consolidated results of operations and their consolidated cash flows for the year then ended, these separate financial statements should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2024.

(b) Basis of measurement

The separate financial statements, except for the separate statement of cash flows, are prepared on the accrual basis using the historical cost concept. The separate statement of cash flows is prepared using the indirect method.

Form B 09 - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(c) Annual accounting period

The annual accounting period of the Company is from 1 January to 31 December.

(d) Accounting and presentation currency

The Company's accounting currency is Vietnam Dong ("VND"), which is also the currency used for the separate financial statements presentation purposes.

3. Significant accounting policies

The following significant accounting policies have been adopted by the Company in the preparation of these separate financial statements.

(a) Foreign currency transactions

Transactions in currencies other than VND during the year have been translated into VND at rates approximating actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rate and the account transfer selling rate, respectively, at the end of the annual accounting period quoted by the commercial bank where the Company most frequently conducts transactions.

All foreign exchange differences are recorded in the separate statement of income.

(b) Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

(c) Investments

Investments in subsidiaries and an associate

For the purpose of these separate financial statements, investments in subsidiaries and an associate are initially recognised at cost which includes purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. An allowance is made for diminution in investment value if the investee has suffered a loss which may cause the Company to lose its invested capital, unless there is evidence that the value of the investment has not been diminished. An allowance is not considered to be made for the investment when the Company may not lose its invested capital. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

Form **B** 09 - **DN**

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(d) Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts.

(e) Tangible fixed assets

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the separate statement of income in the year in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

office equipment

3 - 5 years

motor vehicles

5 years

(f) Intangible fixed assets

Software

Cost of acquiring a new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible fixed asset. Software cost is amortised on a straight-line basis over 5 years.

(g) Accounts payable

Trade and other payables are stated at their costs.

(h) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

Form B 09 - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

Severance allowance

Under the Vietnamese Labour Code, when an employee who has worked for 12 months or more ("the eligible employees") voluntarily terminates his/her labour contract, the employer is required to pay the eligible employee severance allowance calculated based on years of service and employee's compensation at termination. Provision for severance allowance has been provided based on employees' years of service and their average salary for the year prior to the end of the annual accounting period. For the purpose of determining the number of years of service by an employee, the period for which the employee participated in and contributed to unemployment insurance in accordance with prevailing laws and regulations and the period for which severance allowance has been paid by the Company are excluded.

(i) Straight bonds issued

At initial recognition, straight bonds are measured at cost which comprises proceeds from issuance net of bonds issuance costs. Any discount, premium or issuance costs are amortised on a straight-line basis over the terms of the bonds.

(j) Share capital and share premium

Share capital is recognised at issuance price less incremental costs directly attributable to the issue of shares, net of tax effects. Such costs are recognised as a deduction from share premium. The excess of proceeds from issuance of shares over the par value of shares issued is recorded as share premium.

(k) Taxation

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the separate statement of income except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the end of the annual accounting period, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the end of the annual accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(l) Revenue from provision of services

Revenue from services rendered is recognised in the separate statement of income in proportion to the stage of completion of the transaction. The stage of completion is assessed by reference to surveys of work performed. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

(m) Financial income

Financial income comprises interest income from bank deposits and loans receivable, dividend income, distributed profits and foreign exchange gains.

Interest income is recognised in the separate statement of income on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

Dividend income and distributed profits are recognised when the rights to receive such dividends and profits are established.

(n) Financial expenses

Financial expenses comprise interest expense on borrowings and bonds, and associated issuance costs (collectively referred to as "borrowing costs"); allowance for diminution in the value of long-term financial investments and foreign exchange losses.

Borrowing costs are recognised as an expense in the year in which they are incurred.

(o) Operating leases

Assets held under leases in terms of which the Company, as lessee, does not assume substantially all the risks and rewards of ownership are classified as operating leases and are not recognised in the separate balance sheet. Payments made under operating leases are recognised in the separate statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

(p) Related parties

Parties are considered to be related to the Company if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where the Company and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.

(q) Employees' share ownership plan

Shares issued to employees based on the employees' share ownership plan are issued at price as stipulated in the Board of Directors' resolution.

The Company has not determined the fair values of investments in subsidiaries for disclosure in the separate financial statements because there is currently no guidance on determination of fair value using valuation techniques under Vietnamese Accounting Standards or the Vietnamese Accounting System for enterprises. The fair values of these investments may differ from their carrying values.

- (*) As at 31 December 2024, these investments were determined to be diminished, therefore the Company made the allowance for diminution in value of these investments of VND856,974 million (1/1/2024: VND490,259 million). Allowance for diminution in value of these investments was determined and made in accordance with the accounting policies in Note 3(c).
- (**) This represents an investment in MSJ that the Company acquired through the exchangeable loan agreement. According to the terms and conditions of the loan agreement, the Company has the right to exchange the loan for 74.99% shares of MSJ ("the MSJ Investment") at the exchange value which will be determined at the exchange date upon the terms and conditions as stipulated in the loan agreement and its amendments. In October 2024, pursuant to an agreement between the Company and the counterparty, the Company exercised the right to exchange this loan for the MSJ Investment with the exchange value of VND985 billion. Accordingly, the investment cost was adjusted and the entire loan amount was offset against the payable for the MSJ Investment (Note 6(a) and Note 13).

(***) As at 31 December 2024 and 1 January 2024, MNS Meat is in the process of liquidation.

Form **B** 09 - **DN** (Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

Deferred tax assets have not been recognised in respect of these items because it is not probable that future taxable profit will be available against which the Company can utilise the benefits therefrom.

(c) Applicable tax rate

Under the prevailing corporate income tax laws, the Company has an obligation to pay corporate income tax to the government at usual income tax rate of 20% of taxable profits.

(d) Tax contingencies

The taxation laws and their application in Vietnam are subject to interpretation and change over time as well as from one tax office to another. The final tax position may be subject to review and investigation by a number of authorities, who are enabled by law to impose severe fines, penalties and interest charges. These facts may create tax risks in Vietnam that are substantially more significant than in other countries. The Board of Management believes that the Company has adequately provided for tax liabilities based on its interpretation of tax legislation, including on transfer pricing requirements and computation of corporate income tax. However, the relevant authorities may have different interpretations and the effect could be significant.
