These notes form an integral part of and should be read in conjunction with the accompanying consolidated financial report for the third quarter of 2025 ended on 30 September 2025.

I- Operation characteristics

1. License for establishment and operation, validity period

The Viet Capital Commercial Joint Stock Bank, previously known as the Gia Dinh Commercial Joint Stock Bank ("the Bank"), is a joint stock commercial bank established in the Socialist Republic of Vietnam.

The bank was established under Establishment and Operation License No. 0025/NH-GP issued by the State Bank of Vietnam ("the SBV") dated 22 August 1992. The Bank Establishment License No. 576/GP-UB was issued by the People's Committee of Ho Chi Minh City dated 8 October 1992. On 13 December 2011, the SBV issued Decision No. 2665/QĐ-NHNN approving the change of the bank's name to Viet Capital Commercial Joint Stock Bank.

Business Registration Certificate number 0301378892 was first registered on 16 October 1992. The Business Registration Certificate has been amended multiple times, with the most recent amendment on 19 June 2023. The Business Registration Certificate was issued by the Department of Planning and Investment of Ho Chi Minh City.

The principal activities of the Bank are to provide banking services including mobilising and receiving short-term, medium-term, and long-term deposits from various organizations and individuals; providing short-term, medium-term, and long-term loans to different organizations and individuals based on the nature and capacity of the Bank's capital; executing foreign exchange transactions; international trade financing services; discounting promissory notes, bonds, and other valuable papers; providing payment services and other banking services permitted by the State Bank of Vietnam.

2. Charter capital

The Bank's charter capital as at 30 September 2025 is VND 6,408.2 billion (as at 31 December 2024 is VND 5,518.46 billion).

3. The composition of the Board of Directors, the General Director's Board, and the Supervisory Board as at 30 September 2025

Board of Directors	Mr. Le Anh Tai	Chairman
	Ms. Nguyen Thanh Phuong	Vice Chairman
	Mr. Ngo Quang Trung	Member
	Mr. Nguyen Nhat Nam	Member
	Mr. Pham Quang Khanh	Independent Member
Board of Management and Chief Accountant	Mr. Ngo Quang Trung	General Director
	Mr. Le Van Be Muoi	Deputy General Director
	Mr. Phan Viet Hai	Deputy General Director
	Mr. Nguyen Thanh Tu	Deputy General Director
	Ms. Van Thanh Khanh Linh	Deputy General Director
	Mr. Ly Cong Nha	Finance Division Director cum Chief Accountant
Supervisory Board	Ms. Phan Thi Hong Lan	Head of Supervisory Board
	Mr. Le Hoang Nam	Member
	Ms. Nguyen Thi Thanh Thuy	Full-time Member

4. Location and operation network

The Bank's Head Office is located at HM Town Building, 412 Nguyen Thi Minh Khai Street, Ban Co Ward, Ho Chi Minh City, Vietnam. As at 30 September 2025, the Bank had one (1) Head Office, forty-one (41) branches, eighty-four (84) transaction offices nation-wide. (as at 31 December 2024, The Bank had 1 Head Office, 41 branches and 84 transaction offices nation-wide).

5. Subsidiary

As at 30 September 2025 and 31 December 2024, the Bank has one (1) subsidiary as follows:

Entity name	Business Registration Certificate	Nature of Business	Percentage of equity owned and voting rights of the Bank
Asset Management Company Limited – Viet Capital Commercial Joint Stock Bank	0311401011	Assets Management	100%

The principal activities of the subsidiary are to receive, manage collaterals related to the loans for the fastest handling and recovery, dispose collaterals under the Bank's disposal rights at market price in a form consistent with the provisions of the law, handle collaterals with appropriate measures, and implement other collateral management activities in accordance with legal regulations.

As at 16 February 2012, the SBV issued Decision No. 280/QĐ-NHNN approving the name change to Asset Management Company Limited - Viet Capital Commercial Joint Stock Bank.

The consolidated financial statements of the Bank as of and for the year ended 30 September 2025 include the financial statements of the Bank and its subsidiary (collectively referred to as the "the Bank and its subsidiary").

6. Total number of staff and employees

As at 30 September 2025, the Bank and its subsidiary had 2,930 employees (31/12/2024: 2,853 employees).

II- Accounting period and accounting currency

1. Fiscal year

The Bank and its subsidiary's fiscal year of the bank starts on 1 January to 31 December.

2. Accounting and reporting currency

The currency used in the accounting work of the Bank and its subsidiary is the Vietnamese Dong ("VND"). According to Circular No. 49/2014/TT-NHNN, for the purpose of preparing consolidated financial statements, the figures are rounded to the millions and presented in units of million Vietnamese Dong ("million Dong").

III- Applied accounting standards and system

1. Accounting standards and system:

These consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for Credit Institutions stipulated by the SBV and the relevant statutory requirements applicable to financial reporting. These standards and statutory requirements may differ in some material respects from International Financial Reporting Standards and the generally accepted accounting principles and standards in other countries. Accordingly, the accompanying consolidated financial statements are not intended to present the consolidated financial position, consolidated results of operations and consolidated cash flows of the Bank in accordance with generally accepted accounting principles and practices in countries or jurisdictions other than Vietnam. Furthermore, their utilisation is not designed for those who are not informed about Vietnam's accounting principles, procedures and practices applicable to credit institutions.

2. Basis of measurement

The consolidated financial statements, except for the consolidated statement of cash flows, are prepared on the accrual basis using the historical cost concept. The consolidated statement of cash flows is prepared using the direct method.

IV- Applied accounting policy

1. Principle of preparation of consolidated financial statements

a. *Subsidiary*

Subsidiary is entity controlled by the Bank and its subsidiary. Control exists when the Bank and its subsidiary has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

The accounting policies of subsidiaries are adjusted, where necessary, to ensure consistency with the accounting policies adopted by the Bank and its subsidiary.

b. *Transactions are eliminated on consolidation*

Internal balances, transactions between the Bank and its subsidiary, income and expenses, unrealized internal profits or losses arising from internal transactions are eliminated when preparing consolidated financial statements.

2. Foreign currency transactions

All transactions of the Bank and its subsidiary are recorded in original currencies. Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the average of the buying and selling spot exchange rate of that currency ("spot exchange rate") ruling at the end of the last working day of the accounting period if the difference between this spot exchange rate and the weighted average of the buying and selling exchange rate ruling on the last working day of the accounting period is less than 1%, in the case of this difference is equal to or greater than 1%, the Bank uses the weighted average of the buying and selling exchange rate ruling on the last working day of the accounting period. Non-monetary assets and liabilities denominated in currencies other than VND are translated to VND at spot exchange rates ruling on transaction dates.

The transactions related to income/expenses in foreign currency are converted to VND at the average buying and selling exchange rate for immediate transfer on the date of the transaction. The exchange rate differences arising from the revaluation of foreign currency assets and liabilities to VND on the monthly reporting date are recorded in the "Foreign exchange differences" account on the consolidated financial statement and are recognized in the consolidated income statement at the end of the accounting period.

3. Derivatives

Currency forward contracts and currency swap contracts are recorded in consolidated financial statements according to the contract value. The difference between the amount of currencies committed to buy/sell at the exchange rate stated in the contract and the amount of currency converted at the spot rate at the effective date of currency forward contracts and currency swap contracts allocated to the consolidated statement of operating results by the straight-line method during the effective period of these contracts.

The balance of the currency forward contract is re-evaluated at the spot exchange rate at the end of each month. Unrealized gains/losses are recorded in the foreign exchange difference on the consolidated financial position report at the end of each month and are transferred to the consolidated income statement at the end of the fiscal year.

4. Loans to customers, purchased debts

Loans to customers are presented at the amount of outstanding principal less provision for credit losses. Provision for credit losses include specific provision for credit losses and general provision credit losses.

Short-term loans are those with repayment term within one year from the loan disbursement date. Medium-term loans are those with repayment term over one year to five years from the loan disbursement date. Long-term loans are those with repayment term over five years from the loan disbursement date.

a. Classification of loans to customers

Debt classification of due from and loans to other credit institutions, unlisted corporate bonds, loans to customers, entrusted loans, debts sold but not yet collected, debt repurchased, repurchased government bonds, purchases of promissory notes, treasury bills and certificates of deposit issued by other credit institutions and foreign bank branches (together referred to as "debts") is conducted in accordance with Circular 31/2024/TT-NHNN. The Bank carries out monthly debt classification based on the outstanding principals of debts at the last working day of the month. The bank implements debt classification using the quantitative method as follows:

Group		Description
1	Current debts	(a) Current debts are assessed as fully and timely recoverable for both principals and interests; or (b) Debts are overdue for a period of less than 10 days and assessed as fully recoverable for both overdue principals and interests, and fully and timely recoverable for both remaining principals and interests.
2	Special mentioned debts	(a) Debts are overdue for a period of between 10 days and 90 days; or (b) Debt with first-time adjusted repayment terms that is unmatured.
3	Sub-standard debts	(a) Debts are overdue for a period between 91 days and 180 days; or (b) Debt with first-time extended repayment term that is unmatured; or (c) Debts which interests are exempted or reduced because customers do not have sufficient capability to repay all interests under credit contracts; or (d) Debts under one of the following cases which have not been recovered in less than 30 days from the date of the recovery decision: <ul style="list-style-type: none"> ▪ Debts made incompliance with Clauses 1, 3, 4, 5, 6 of Article 134 of Laws on credit institutions; or ▪ Debts made incompliance with Clauses 1, 2, 3, 4 of Article 135 of Laws on credit institutions; or ▪ Debts made incompliance with Clauses 1, 2, 5 of Article 136 of Laws on credit institutions.

Group		Description
		(e) Debts are required to be recovered according to regulatory inspection conclusions; or (f) Debts to be collected under debt collection decisions by the bank due to customers' breach of the agreements made with the bank have not yet been collected within less than 30 days from the date of issuance of such decisions.
4	Doubtful debts	(a) Debts are overdue for a period between 181 days and 360 days; or (b) Debts that repayment term are restructured for the first time but still overdue for a period of 90 days under that restructured repayment term; or (c) Debts with second-time rescheduled debt which is unmaturing; or (d) Debts are specified in point (d) of sub-standard debts and overdue for a period between 30 days and 60 days after decisions of recovery have been issued; or (e) Debts are required to be recovered according to regulatory inspection conclusions but still overdue for a period up to 60 days since the recovery date as required by regulatory inspection conclusions; or (f) Debts to be collected under debt collection decisions due to customers' breach of the agreement have not yet been collected between 30 days and 60 days from the date of issuance of such decisions.
5	Loss debts	(a) Debts are overdue for a period more than 360 days; or (b) Debts that repayment terms are restructured for the first time and overdue for a period of 91 days or more under the first restructured repayment term; or (c) Debts that repayment terms are restructured for the second time and overdue under that second restructured repayment term; or (d) Debts that repayment terms are restructured for the third time or more, regardless of being overdue or not; or (e) Debts specified in point (d) of Sub-standard debts and overdue for a period of more than 60 days after decisions on recovery have been issued; or (f) Debts required to be recovered according to regulatory inspection conclusions but still outstanding with an overdue period over 60 days since the recovery date as required by regulatory inspection conclusions; or (g) Debts to be collected under debt collection decisions due to customers' breach of the agreement have not yet been collected over 60 days from the date of issuance of such decisions; (h) Debts of credit institutions under special control as announced by the SBV, or debts of foreign bank branches that capital and assets are blocked.

For off-statement of financial position commitments, the Bank classified them based on the number of overdue days from the date when the Bank performs committed obligations:

- Group 3 - Sub-standard debts: overdue less than 30 days;
- Group 4 - Doubtful debts: overdue from 30 days to less than 90 days;
- Group 5 - Loss debts: overdue from 91 days or more.

Where a customer owes more than one debt to the Bank, and has any of its debts classified into a higher risk group of debts, the Bank is obliged to classify the remaining debts of such customer into the group of debts with higher risk corresponding with their level of risk.

The Bank and its subsidiary is also required to use the results of debt classification as provided by the Credit Information Center of the SBV ("CIC") at the date of classification to adjust the results of its internal classification of debts. Where debts and off-statement of financial position commitments of one customer are classified by the Bank into a group of debts with lower risk as compared to those provided by CIC, the Bank is required to reclassify such debts and off-statement of financial position commitments to the group of debts as provided by CIC.

Debt classification for loans having rescheduled debt repayment term, exempted or reduced interest and fees in order to support customers affected by Covid-19 pandemic

The Bank and its subsidiary applies Circular No. 14/2021/TT-NHNN dated 7 September 2021 ("Circular 14") and Circular No. 03/2021/TT-NHNN dated 2 April 2021 ("Circular 03") of the State Bank of Vietnam, amending and supplementing certain provisions of Circular No. 01/2020/TT-NHNN dated 13 March 2020 ("Circular 01") of the State Bank of Vietnam regarding the restructuring of debt repayment terms, exemption and reduction of interest and fees, and maintaining the debt group to support customers affected by the Covid-19 pandemic.

Debt classification for loans having rescheduled debt repayment term, maintaining the debt group to assist customers facing difficulties in doing business and customers facing difficulties in repaying their customer loans.

From 24 April 2023, the Bank has implemented a policy to restructure the repayment term, maintaining the debt classification to support customers facing difficulties in production and business activities, as well as those struggling to repay loans for living and consumption needs, in accordance with Circular No. 02/2023/TT-NHNN issued by the State Bank of Vietnam on 23 April 2023, and Circular No. 06/2024/TT-NHNN issued on 18 June 2024.

b. Specific provision for credit losses

According to Decree 86/2024/ND-CP dated 11 July 2024 ("Decree 86"), specific provision are determined based on the debt balance and the debt classification results of each customer's loans at the end of the last day of the preceding month.

The specific provision is calculated based on the customer's loan balance less the discounted value of collateral assets.

	Specific provision rate
Group 1 – Current debts	0%
Group 2 – Special mentioned debts	5%
Group 3 – Sub-standards debts	20%
Group 4 – Doubtful debts	50%
Group 5 – Loss debts	100%

The value and discounted rate of the collateral assets are determined according to the regulation of Decree 86.

For customers with outstanding debts, they are entitled to restructuring of debt repayment terms, interest exemption and reduction according to the regulation of Circular 01, Circular 03 and Circular 14. The Bank and its subsidiary shall make specific provisions for these customers in accordance with the provisions of Circular 03. Accordingly, the Bank and its subsidiary shall make additional specific provision as follows:

Additional provision	Deadline
At least 30% of the total required additional specific provision	By 31 December 2021
At least 60% of the total required additional specific provision	By 31 December 2022
100% of the total required additional specific provision	By 31 December 2023

In addition, for customers whose outstanding debts are restructured and the debt group remains the same as prescribed in Circular 02, the Bank and its subsidiary shall determine the additional specific provision amount to be deducted according to Circular 02, whereby the Bank and its subsidiary shall make additional specific provision as follows:

Additional provision

Deadline

At least 50% of the total required additional specific provision

By 31 December 2023

100% of the total required additional specific provision

By 31 December 2024

c. General provision for credit losses

According to Decree 86, a general provision for credit loss is established at a rate of 0.75% of the total outstanding principal balance at the end of each month for debts from Group 1 to Group 4, excluding due from and loans to other credit institutions, the purchase of valued papers issued by other credit institutions, and the repurchase of government bonds.

d. Writing-off bad debts

Bad debts are debt in groups 3, 4 and 5.

In accordance with Decree 86, debts are written-off against the provision when they have been classified to Group 5 or when borrowers have been declared bankrupt or dissolved (for borrowers being organizations and enterprises) or borrowers are deceased or missing (for borrowers being individuals). Bad debts written-off against provision are recorded in the off-statement of financial position accounts for monitoring and debt collection. The amount collected from previously written-off bad debts is recognised in the statement of income upon receipt.

e. Loans sold to Vietnam Asset Management Company ("VAMC")

The bank sell loans to VAMC according to Decree No. 53/2013/ND-CP issued by the Government on 18 May 2013 ("Decree 53"), Decree No. 34/2015/ND-CP issued by the Government on 31 March 2015, amending and supplementing certain provisions of Decree 53 ("Decree 34"), Circular No. 19/2013/TT-NHNN issued by the State Bank of Vietnam (SBV) on 6 September 2013 ("Circular 19"), Circular No. 14/2015/TT-NHNN issued by SBV on 28 August 2015 ("Circular 14"), Circular No. 08/2016/TT-NHNN issued by SBV on 16 June 2016 ("Circular 08"), Circular No. 09/2017/TT-NHNN issued by SBV on 14 August 2017 ("Circular 09") regarding the amendment and supplementation of certain provisions of Circular 19 and the write-off from the consolidated financial situation report according to the guidelines in Official Letter No. 8499/NHNN-TCKT issued by SBV on 14 November 2013 ("Official Letter 8499") and Official Letter No. 925/NHNN-TCKT issued by SBV on 19 February 2014 ("Official Letter 925").

The special bonds issued by VAMC corresponding to the bad debt sold by the Bank are recorded as held-to-maturity debt securities issued by domestic economic organizations in the consolidated financial statements.

5. Due from and loans to other credit institutions

Due from and loans to other credit institutions are presented according to the principal balance at the end of the accounting period.

The credit risk classification of due from and loans to other credit institutions and the corresponding provision is carried out in accordance with Circular 31 and Decree 86. Accordingly, the Bank makes specific provisions for due from (excluding current account) and loans to other credit institutions according to the method stated in Note IV.4.

According to Circular 31 and Decree 86, the Bank is not required to make general provisions for due from and loans to other credit institutions.

6. Securities

a. *Available-for-sale securities*

Available-for-sale securities include debt securities that are acquired by the Bank and its subsidiary for the investment and available-for-sale purposes, not regularly traded but can be sold when there is a benefit.

Debt securities are recorded at par value at the purchase date. Accrued interest on securities before purchase or prepaid interest pending allocation, discounts/premiums (if any), are reflected in a separate account.

Provision for diminution in value of securities is made when the carrying value is higher than the market value in compliance with Circular No. 48/2019/TT-BTC dated 08 August 2019 ("Circular 48") issued by the Ministry of Finance and Circular No. 24/2022/TT-BTC dated 07 April 2022 amending and supplementing some articles of Circular 48. Government bonds, Government-guaranteed bonds and municipal bonds are exempted from such provisioning requirement. Provision expense is recognized in the "Net gain/(loss) from investment securities" account of the consolidated income statement.

b. *Held-to-maturity investment securities (excluding special bonds issued by VAMC)*

Held-to-maturity investment securities (excluding special bonds issued by VAMC) are debt securities purchased by the Bank and its subsidiary for earning interest and the Bank and its subsidiary has the capability and intention to hold these investments until maturity. Held-to-maturity securities have fixed or determined payments and maturity date. In case the securities are sold before the maturity date, these securities will be reclassified to securities held for trading or available-for-sale securities.

Held-to-maturity securities are recorded similarly as available-for-sale debt securities at Note IV.6.a.

c. *Special bonds issued by VAMC*

Special bonds issued by VAMC are fixed-term valuable papers used to purchase bad debts of the Bank. These special bonds are initially recognized at face value at the date of transaction and subsequently carried at the face value during the holding period. Face value of the special bonds equals to the outstanding balance of the debts sold less their unused specific provision.

During the holding period, the Bank annually calculate and make provision in accordance with Circular No. 14/2015/TT-NHNN dated 28 August 2015, of the State Bank Vietnam, amending and supplementing some articles of Circular No. 19/2013/TT-NHNN which regulates the purchase, sale and write-off bad debts of VAMC.

Specific provision for each special bond is recognized in the income statement in "Provision expense for credit loss". General provision is not required for the special bonds.

Upon receiving the debt sold to VAMC, the bank utilizes the risk provisions that have been allocated annually for special bonds to address bad debts, the difference between the provisions made and the unrecovered principal amount will be reversed and recorded in the income statement.

7. *Capital contribution, Long-term investments*

a. *Other long-term investments*

Other long-term investments are long-term capital contributions to other companies over which the Bank does not have control or significant influence. These long-term investments are initially recorded at cost at the time of investment. After initial recognition, these investments are measured at cost less any impairment losses.

b. Provision for long-term investment

Provision for long-term investment impairment is made if the economic organization in which the Bank is investing incurs a loss (except for planned losses identified in the business plan prior to investment) as guided by Circular 48. Accordingly, the provision amount is the difference between the total actual capital contribution of the parties at the investee and the actual equity multiplied by the Bank's ownership percentage in that entity. The provision for long-term investment impairment is reversed when the recoverable value of the long-term investments increases after the provision has been made. The provision is only reversed to the extent that the carrying amount of the investments does not exceed their carrying amount assuming no provision had been recognized.

8. Tangible fixed assets

a. Cost

The tangible fixed assets are presented at their original cost less accumulated depreciation. The original cost of tangible fixed assets includes the purchase price, import taxes, non-refundable purchase taxes, and directly related costs to bring the asset to its intended location and condition for the intended use. The costs incurred after tangible fixed assets have been put into operation, such as repair, maintenance, and overhaul costs, are recorded in the consolidated income statement for the period in which the costs are incurred. In cases where it can be clearly demonstrated that these costs enhance the expected future economic benefits derived from the use of tangible fixed assets beyond the standard operating level as initially assessed, these costs are capitalized as an additional cost basis of the tangible fixed assets.

b. Depreciation

Depreciation of tangible fixed assets is calculated on a straight-line basis over the estimated useful life of the assets. Useful life of the assets are estimated as follows:

• Buildings and structures	5 - 50 years
• Machinery and equipment	5 - 20 years
• Vehicles and transmission equipment	6 - 10 years
• Equipment and management tools	3 - 10 years
• Other tangible assets	4 - 25 years

c. Disposals

Profits and losses arising from the disposal or sale of fixed assets are determined by the difference between the net amount due to disposal and the residual value of the assets and are recorded as other incomes or other expenses in the consolidated income statement.

9. Intangible fixed assets

a. Land use rights

Land use rights are expressed at historical cost minus the accumulated depreciation value. The initial historical cost of land use rights includes the purchase price and expenses directly related to the acquisition of land use rights. Depreciation is calculated using the straight-line method according to the licensed term.

The bank does not calculate amortization for land use rights indefinitely.

b. Computer software

The purchase price of new computer software, which is not a part attached to the relevant hardware, is capitalized and accounted for as an intangible fixed asset. Microcomputer software is distributed in a straight-line method within 3 to 20 years.

c. Disposals

Profits and losses arising from the disposal or sale of intangible fixed assets are determined by the difference between the net amount due to disposal and the residual value of the assets and are recorded as other incomes or other expenses in the consolidated income statement.

10. Other assets

Other assets, excluding receivables from credit activities, are recorded at cost less provision for risks for on-statement of financial position assets.

The other assets are considered for provisioning for risks related to on-statement of financial position assets based on the aging of overdue debts or according to the expected losses that may occur in cases where debts are not yet due for payment but the economic organization is in a state of bankruptcy or is undergoing dissolution procedures; the debtor is missing, fleeing, being prosecuted or tried by legal authorities, or is serving a sentence or has passed away. The incurred provision costs are recorded as operating expenses for the year.

For overdue assets, the Bank applies the provision level based on the duration of the overdue period in accordance with the guidelines of Circular 48, as follows:

Overdue	Provision rates
From over 6 months to under 1 year	30%
From 1 year to under 2 years	50%
From 2 years to under 3 years	70%
Above 3 years	100%

11. Accounting for leased assets transactions

Rents under operating leases are allocated in a straight-line basis to the "Other operating expenses" section of the income statement over the lease term.

12. Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, demand deposits at the SBV, demand deposits and due from other credit institutions with an original maturity of three months or less from the transaction date, securities with maturity of three months or less from date of purchase, which are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value at the reporting date.

13. Deposits from customers

Deposits from customers are recorded at historical cost.

14. Value papers issued

Value papers issued are recorded at historical cost.

15. Other liabilities

Other liabilities are recorded at historical cost.

16. Employees benefits

According to the Social Insurance Law, from 1 January 2009, the Bank and its employees are required to contribute to the unemployment insurance fund managed by Vietnam Social Insurance. The unemployment insurance paid by the Bank for the employees' working period is recorded as an expense in the consolidated income statement when incurred.

17. Provisions

A provision, except for the provision described in note IV.4 is recognized if, as a result of a past event, the Bank has a current legal or constructive obligation that can be reliably estimated, and it is certain that it will reduce future economic benefits to settle the liabilities arising from that obligation. Provisions are not recognized for future operating losses.

18. Owners' equity

a. Common stock

Common stock is classified as equity. Costs directly related to the issuance of common stock are recognized as a deduction from equity.

b. Share premium

Upon receiving capital from shareholders, the difference between the issue price and the par value of the shares is recorded in the "share premium" account in equity.

19. Reserves

According to Decree No. 93/2017/ND-CP issued by the Government of Vietnam on 7 August 2017 and Law on Credit Institution No. 32/2024/QH15 the bank must set aside mandatory reserve funds as follows before distributing profits:

	Periodic/annual allocation	Maximum balance
Capital supplementary reserve	10% profit after tax	Chartered capital
Financial reserve	10% profit after tax	Not specified

The financial reserve fund is used to cover the remaining part of the losses and damages to assets that occur during the business process after being compensated by the compensation money from the organizations or individuals responsible for the losses, from insurance organizations, and using the provisions set aside in the expenses; used for other purposes as prescribed by law.

Other funds belonging to equity are allocated from the after-tax profits of the Bank. The rate of allocation for these funds is determined by the General Meeting of Shareholders, in accordance with legal regulations.

The remaining profit after deducting the aforementioned fund allocations and distributing dividends to shareholders is recorded as the retained earnings of the Bank.

20. Bonus and welfare fund

The bonus and welfare fund, not mandated by law, is allocated from after-tax profits and is permitted to be fully distributed, primarily used to pay for the staff and employees of the Bank. The bonus and welfare fund are recorded in the Bank's liabilities.

21. Interest income and interest expenses

Interest income and interest expenses are recognized in the consolidated income statement on accrual basis. The recognition of accrued interest income arising from loans classified in Groups 2 to 5 in accordance with Circular 31 and loans with repayment term restructuring and loan classification retention according to regulations will not be recognized in the consolidated income statement. Suspended interest income is reversed and monitored off-statement of financial position and recognized in the consolidated income statement upon actual receipt.

22. Fees and commission income

Fees and commission income include fee income and expenses from payment services, treasury services, and other services. Income and expenses from service activities are recognized when the services are provided.

23. Dividend income

The dividend is recorded in the consolidated income statement when the Bank's entitlement to receive the dividend is established.

24. Other income

Other revenues are recognized on a cash basis.

25. Principles and methods of recording corporate income tax and corporate income tax expenses

Corporate income tax is calculated on the profits of the period, including current income tax and deferred income tax. Corporate income tax is recognized in the consolidated statement of profit or loss, except in cases where there are income taxes related to items recognized directly in equity, in which case these income taxes are also recognized directly in equity.

The current income tax is the tax payable based on taxable income for the year, using the tax rates in effect at the end of the fiscal year, and any tax adjustments payable related to previous years.

Deferred tax is determined for temporary differences between the tax base of assets and liabilities and their carrying amount recorded in the consolidated financial reporting purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

26. Related parties

The related parties are businesses and individuals, directly or indirectly through one or more intermediaries, who have control over the Bank and its subsidiaries or are under the control of the Bank and its subsidiaries, or share common control with the Bank and its subsidiaries. The affiliated parties and individuals who directly or indirectly hold voting rights of the Bank and its subsidiaries that have a significant influence on the Bank and its subsidiaries, key management personnel including members of the Board of Directors, members of the Board of Management, members of the Supervisory Board, close family members of these individuals or affiliated parties, or companies affiliated with these individuals are also considered related parties.

In considering the relationship of each stakeholder, attention must be paid to the nature of the relationship rather than merely its legal form.

27. Off-statement of financial position commitments

Off-statement of financial position commitments include guarantees, payment acceptances, and unconditional irrevocable loan commitments with specific execution timelines.

The classification of off-statement of financial position commitments is carried out solely for the purpose of managing and monitoring the quality of credit activities in accordance with regulations.

According to Decree 86, the bank are not required to set provisions for off-statement of financial position commitments.

V – Notes to the statement of financial position

1. Cash on hand

	30 September 2025	31 December 2024
	VND million	VND million
In VND	485,415	565,544
In foreign currencies	27,877	45,337

2. Balances with the State Bank of Vietnam

Balances with the State Bank of Vietnam (the “SBV”) include settlement and compulsory reserve.

According to the regulations of the State Bank of Vietnam regarding mandatory reserves, banks are allowed to maintain a floating balance in the mandatory reserve account. The average monthly mandatory reserve balance must not be lower than the mandatory reserve ratio multiplied by the average deposit balance of the previous month at the Bank as follows:

Deposit at the Bank

The average balance of the previous month:

From customers:

- Deposit with term less than 12 months in foreign currencies
- Deposits with term over 12 months in foreign currencies
- Deposits with term less than 12 months in VND
- Deposits with term over 12 months in VND

From overseas credit institutions:

- Deposits in foreign currencies

IX- Financial risk management

38. Risk management related to financial instruments

Risk is always inherent in the Bank's operation but it is managed by detective procedures, periodical evaluation and control depending on the risk limit and other existed controls. The risk management process is critical to the Bank's profitability and each individual of the Bank has responsibility to prevent risks relating to their work. The Bank has exposure to risks such as: credit risk, liquidity risk, market risk (classified as business risk and non-business risk). In addition, the Bank also exposed to operational risk.

The independent risk control process does not take into account business risks such as changes in environment, technology and industry structure. These risks are controlled by strategy planning process of the Bank.

39. Credit risk

Credit risk is the possibility of loss in the Group's operations due to customers' failure or inability to perform their obligations as committed.

In order to performing credit risk management, the Bank issued credit policies and instructions to standardise credit activities of the Bank.

The Bank controls and manages the credit risk by establishing credit limit based on the level of risk that the Bank can accept with each customer, each geographical area and each industry. The credit limit of each customer is established by using the credit rating system in which each customer would be classified at each specific risk level. This level can be changed and updated regularly.

The Bank has established the credit quality review process that allows early prediction of changes in financial position and credit-worthiness of counterparties based on qualitative and quantitative factors.

40. Market risk

a. Interest rate risk

Interest rate risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates. The Bank will expose to interest rate risk when there is a gap between maturity date or interest repricing date of assets, liabilities and off-statement of financial position commitments in a specific period of time.

The Bank usually monitors interest rate gaps, compares the domestic market with international market for timely adjustments. In addition, the application of internal risk management became more effective thanks to the deployment of Internal Funds Transfer Pricing System and Concentrated Payment System, so that all capital and payment transactions of the Bank are performed by the Head Office. This helps the Bank monitor the capital changes and reduce the potential errors as well as the unnecessary complicated procedures more effectively.

Analysis of assets and liabilities in term of interest repricing period

The interest repricing period is the period from the reporting date to earlier of contractual repricing date or maturity date of assets and liabilities, depend on which factors come sooner.

The following assumptions and conditions are applied in analysing the interest repricing period of assets and liabilities of the Bank:

- Cash on hand; derivatives and other financial assets; long-term investments; other assets (including fixed assets and other assets) and other liabilities are categorised as interest free.
- Balances with the SBV are classified as demand deposits so the interest repricing period is categorised as up to 1 month.
- The actual interest rate reset period of investment securities is calculated based on the actual maturity period at the end of the fiscal year for each type of security.
- The interest repricing period of deposits with and loans to other credit institutions; loan to customers; due to and borrowings from other credit institutions and deposits from customers are defined as follows:
 - Items with the fixed interest rate during the contract term: the interest repricing period is from the end of accounting period to maturity date.
 - Items with the variable interest rate: the interest repricing period is from the end of accounting period to the earlier of contractual repricing date or maturity date.
- The actual interest rate reset period for issued valuable papers is based on the remaining maturity period of each type of valuable paper.

b. Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates.

The Bank was established and operates in Vietnam and its accounting currency is VND, major transactions of the Bank are also in VND. The financial assets and liabilities of the Bank is mainly denominated in VND, a part in USD. However, some of the Bank's other financial assets and financial liabilities are denominated in currencies other than VND and USD. The Bank has defined limits on the level of exposure by each currency. The currency position is monitored daily and the Bank takes risk mitigation actions to ensure that the currency position is within the defined limit.

The Bank's assets and liabilities categorised by currencies are translated into VND as follows:

Items	EUR equivalent	USD equivalent	Other currencies equivalent	Total
Assets				
I- Cash and gold	80	27,079	718	27,877
II- Balances with the SBV	-	17,455	-	17,455
III- Due from and loans to other credit institutions	942	917,275	5,257	923,474
IV- Securities held for trading	-	-	-	-
V- Derivatives and other financial assets	-	-	-	-
VI- Loan to customers and purchase debt	-	99,767	-	99,767

Foreign exchange position on and off-statement of financial position	814	(1,559,843)	4,105	(1,554,924)

c. Liquidity risk

Liquidity risk is the risk that the Bank has difficulties in fulfilling its obligations for financial liabilities. Liquidity risk arises when the Bank does not have ability to fulfil the payment obligations when financial liabilities are due under both normal and stressed conditions. To reduce the liquidity risk, the Bank has to mobilise from various capitals besides the basic capital of the Bank has asset management policies which have flexible liquidity, follow the future cash flows and daily liquidity. The Bank should evaluate the expected cash flows and available ability of current guaranteed assets in case of mobilising more capital.

Liquidity risk is limited by holding a large amount of cash and cash equivalents under demand deposits with other credit institutions, balances with the SBV and other credit institutions and valuable papers. Safety ratio that taken into account risk factor are also used to manage liquidity risk.

The maturity period of assets and liabilities represents the remaining term of the assets and liabilities from the date of the consolidated financial statements to the payment date as stipulated in the contract or issuance terms.

The following assumptions and conditions are applied in analysing the maturity of assets and liabilities of the Bank:

- Balances with the SBV are classified as demand deposits, included compulsory reserve. The balance of compulsory reserve depends on elements and term of deposits from customers of the Bank.
- The maturity of due from and loans to other credit institutions, derivatives and other financial assets and loans to customers are determined based on the contractual maturity date. The actual maturity date can be changed as the loans contracts are extended.
- The maturity of investment securities is based on the contractual maturity date of each securities.
- The maturity of long-term equity investments is categorised over 5 years because these investments do not have exact maturity date and the Bank has intention to hold them in long-term.
- The maturity of fixed assets is determined by the remaining useful lives of assets.
- The maturity of due to and borrowings from other credit institutions and deposits from customers is determined based on the characteristics of each type or the maturity date specified in the contracts. Demand deposits from other credit institutions and customers are performed as requirements of customer and categorised as call deposits. The maturity for borrowings and term deposits are determined based on contractual maturity date. In practice, they can be renewed and therefore the actual maturities of those assets and liabilities may be longer than the original contractual terms.
