To: - HANOI STOCK EXCHANGE

Based on the information disclosure regulations for listed organizations on the stock market, Central Container Joint Stock Company (Stock code: VSM) would like to provide an explanation regarding the fluctuation of profit after CIT on the consolidated statement of profit and loss for the third quarter of 2025, which has changed by 10% or more compared to the same period in 2024, as follows:

Item	Third quarter of 2025	Third quarter of 2024	Spread increase (+)/decrease (-)	Decrease rate (%)
Profit after CIT	3.044.086.662	3.391.403.575	- 347.316.913	10%

*** Reasons:**

In the third quarter of 2025, the Company's container transport and agency output decreased compared to the same period in 2024. This was the main reason for the decrease in profit after tax on the consolidated financial statements for the third quarter of 2025 compared to the same period in 2024.

The above is the main reason for the difference in profit after CIT on the consolidated statement of profit and loss for the third quarter of 2025 compared to the same period last year. Our company would like to explain to the Hanoi Stock Exchange.

Thank you very much!
