Auditors

A&C Auditing and Consulting Co., Ltd. has been appointed to perform the review on the Bank's Interim Separate Financial Statements for the first 6 months of the fiscal year ending 31 December 2025.

Responsibilities of the Board of Management

The Board of Management is responsible for the preparation of the Interim Separate Financial Statements to give a true and fair view of the interim separate financial position, the interim separate financial performance and the interim separate cash flows of the Bank during the period. In order to prepare these Interim Separate Financial Statements, the Board of Management must:

- select appropriate accounting policies and apply them consistently;
- make judgments and estimates reasonably and prudently;
- state clearly whether the accounting standards applied to the Bank are followed or not, and all the material differences from these standards are disclosed and explained in the Interim Separate Financial Statements;
- prepare the Interim Separate Financial Statements of the Bank on the going-concern basis, except for the cases that the going-concern assumption is considered inappropriate;
- design and implement effectively the internal control system to minimize the risks of material misstatements due to frauds or errors in the preparation and presentation of the Interim Separate Financial Statements.

The Board of Management hereby ensures that all the proper accounting books of the Bank have been fully recorded and can fairly reflect the financial position of the Bank at any time, and that all the accounting books have been prepared in compliance with the applicable Accounting System. The Board of Management is also responsible for managing the Bank's assets and consequently has taken appropriate measures to prevent and detect frauds and other irregularities.

The Board of Management hereby commits to the compliance with the aforementioned requirements in preparation of the Interim Separate Financial Statements.

Approval of the Interim Separate Financial Statements

The Board of Directors hereby approves the accompanying Interim Separate Financial Statements, which give a true and fair view of the interim separate financial position as of 30 June 2025 of the Bank, its interim separate financial performance and its interim separate cash flows for the first 6 months of the fiscal year ending 31 December 2025, in conformity with the Vietnamese Accounting Standards, the Financial Reporting Regime applicable to Credit Institutions issued by the State Bank of Vietnam and relevant statutory requirements on the preparation and presentation of the Interim Separate Financial Statements.

For and on behalf of the Board of Directors,

Tran Ngoc Minh
Chairman

Date: 27 August 2025

REPORT ON THE INTERIM FINANCIAL INFORMATION REVIEW

**To: THE SHAREHOLDERS, THE BOARD OF DIRECTORS AND THE BOARD OF MANAGEMENT
KIEN LONG COMMERCIAL JOINT STOCK BANK**

We have reviewed the accompanying Interim Separate Financial Statements of Kien Long Commercial Joint Stock Bank (hereinafter referred to as "the Bank"), which were prepared on 27 August 2025 (from page 06 to page 52), including the Interim Separate Statement of Financial Position as at 30 June 2025, the Interim Separate Income Statement, the Interim Separate Cash Flow Statement for the first 6 months of the fiscal year ending 31 December 2025 and the Notes to the Interim Separate Financial Statements.

Responsibility of the Board of Management

The Board of Management is responsible for the preparation, true and fair presentation of the Bank's Interim Separate Financial Statements in accordance with the Vietnamese Accounting Standards, the Financial Reporting Regime applicable to Credit Institutions issued by the State Bank of Vietnam and relevant statutory requirements on the preparation and presentation of the Interim Separate Financial Statements; and responsible for the internal control as the Board of Management determines necessary to enable the preparation and presentation of the Interim Separate Financial Statements to be free from material misstatement due to fraud or error.

Responsibility of Auditors

Our responsibility is to express conclusion on these Interim Separate Financial Statements based on our review. We have conducted the review in accordance with the Vietnamese Standard on Review Engagements No. 2410 – Review on interim financial information performed by independent auditor of the entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion of the Auditors

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Interim Separate Financial Statements have not given a true and fair view, in all material respects, of the interim separate financial position as at 30 June 2025 of the Bank, its interim separate financial performance and its interim separate cash flows for the first 6 months of the fiscal year ending 31 December 2025, in conformity with the Vietnamese Accounting Standards, the Financial Reporting Regime applicable to Credit Institutions issued by the State Bank of Vietnam and relevant statutory requirements on the preparation and presentation of the Interim Separate Financial Statements.

Other matter

The Interim Separate Financial Statements for the first 6 months of the fiscal year ended 31 December 2024 and the Separate Financial Statements for the fiscal year ended 31 December 2024 were respectively reviewed and audited by another auditing firm whose auditors expressed the unqualified opinion in the Report on the Interim Financial Information Review on 19 August 2024 and the Independent Auditor's Report on the Separate Financial Statements for the fiscal year ended 31 December 2024 on 26 March 2025.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

I. GENERAL INFORMATION

1. Establishment, operation, validity period

Kien Long Commercial Joint Stock Bank, formerly known as Kien Long Rural Joint Stock Bank (hereinafter referred to as “the Bank”) has been operating under:

- The Establishment and Operation License No. 0056/NH-GP dated 18 September 1995 issued by the State Bank of Vietnam (SBV);
- The Bank Establishment License No. 1115/GP-UB dated 02 October 1995 issued by the People’s Committee of Kien Giang Province.

In 2006, the Bank was renamed to Kien Long Commercial Joint Stock Bank and its operation model was changed from a rural bank to an urban bank.

The Bank has been operating under the Business Registration Certificate No. 1700197787, initially registered on 10 October 1995, granted by Kien Giang Province Department of Planning and Investment. During its operation course, the Bank’s Business Registration Certificate has been amended several times, and the most recent amendment was made on 24 July 2024.

INTERIM SEPARATE FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Separate Financial Statements (cont.)**IV. ACCOUNTING POLICIES****1. Foreign currency translation**

All transactions of the Bank are recorded in original currencies. Monetary items denominated in currencies other than VND are translated into VND at the average of buying and selling spot exchange rate of that currency ("spot exchange rate") ruling at the end of the last working day of the accounting period if the difference between this spot exchange rate and the weighted average of the buying and selling exchange rates ruling on the last working day of the accounting period is less than 1%; in case this difference is equal to or greater than 1%, the Bank uses the weighted average of the buying and selling exchange rates ruling on the last working day of the accounting period. Non-monetary items denominated in currencies other than VND are translated to VND at the spot exchange rates ruling on the transaction dates.

Income and expenses in foreign currencies are translated into VND at the average of the buying and selling exchange rates ruling on the transaction dates.

Foreign exchange differences arising from monthly translation of monetary assets and liabilities are recognized in the "Foreign exchange differences" account in equity caption and then transferred to the Separate Income Statement at the end of the annual accounting period.

Translation exchange rate:

INTERIM SEPARATE FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Separate Financial Statements (cont.)

Credit risk classification of deposits (excluding deposits for payment) at local credit institutions, branches of overseas banks and provision thereof are made in accordance with Circular No. 31/2024/TT-NHNN dated 30 June 2024 (Circular 31) regulating the classification of assets in operations of commercial banks, non-bank credit institutions, foreign bank branches, and Decree No. 86/2024/NĐ-CP dated 11 July 2024 (Decree 86) providing for credit loss provision level, provision calculation method and utilization of provision in operations of credit institutions and foreign bank branches and cases in which credit institutions allocate forgivable interest.

The Bank has classified deposits at other credit institutions in accordance with a quantitative method as stipulated in above regulations. Specific provision for credit losses on deposits at credit institutions is calculated based on the overdue status of the principal outstanding or interest at the following rates:

• Group 1 (Standard loans)	:	0%
• Group 2 (Special-mentioned loans)	:	5%
• Group 3 (Sub-standard loans)	:	20%
• Group 4 (Doubtful loans)	:	50%
• Group 5 (Bad debts)	:	100%

Loans to other credit institutions

Loans to other credit institutions are loans with original term to maturity of less than 1 year.

Loans to other credit institutions are stated at the amount of principal outstanding less provision for credit losses on loans to credit institutions.

Credit risk classification of loans to credit institutions and specific provision thereof are made in accordance with Circular No. 31 and Decree 86 being similar to the policy that applies to deposits at other credit institutions as described above.

In accordance with Circular No. 31 and Decree 86, the Bank is not required to make general provision for deposits at other credit institutions.

4. Loans to customers and provision of credit risk

Loans are recognized when the loan agreement or loan receipt commitment is signed by the Bank and customer and the loan amount is released to customer by the Bank.

Loans are given to entities under such forms as loans by installments, loans according to credit lines, project loans, etc.

Collateral is mainly mortgage and pledge of assets in addition to trust receipts.

Classification of loans to customers

Loan classifications and provision for credit losses are made in accordance with Circular 31 and Decree 86. The Bank has made debt rescheduling, exemption or reduction of interest and fees, retention of debt category to assist borrowers affected by Covid-19 pandemic in accordance with Circular No. 01/2020/TT-NHNN dated 13 March 2020 (Circular 01), Circular No. 03/2021/TT-NHNN dated 02 April 2021 (Circular 03), Circular No. 14/2021/TT-NHNN dated 07 September 2021 (Circular 14) amending and supplementing certain articles of Circular 01, Circular No. 02/2023/TT-NHNN dated 23 April 2023 (Circular 02) and Circular No. 06/2024/TT-NHNN dated 18 June 2024 (Circular 06) amending and supplementing some articles of Circular 02 issued by the Governor of the SBV.

INTERIM SEPARATE FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Separate Financial Statements (cont.)

Where a customer owes more than one debt to the Bank, and has any of its debts transferred to a higher risk group of debts, the Bank is obliged to classify the remaining debts of such customer into the group of debts with higher risk corresponding with their level of risk, except for the debt balance after restructuring the repayment term and keeping the debt group unchanged as prescribed in Circular 01, Circular 03, Circular 14, Circular No. 02 and Circular 06, which is still due according to the time limit for restructuring, the Bank does not apply the principle of adjustment and reclassification into the group of debts with a higher level of risk.

Where the Bank participates in a syndicated loan not being as the lead bank, the Bank reclassifies all debts (including the outstanding syndicated loan) of the customer into a higher risk group of debt as decided by the lead bank and by participating banks.

The Bank has used the result of the loan classification provided by the Credit Information Center ("CIC") to adjust its classifications on a monthly basis. Where the Bank classifies its customer loans to a lower risk group of debt compared to the classification provided by CIC, the Bank has to reclassify the loans into the higher risk group according to CIC classifications.

Provision for credit losses on loans to customers

Specific provision for credit losses on loans to customers is calculated using set rates applied to each loan group as follows:

• Group 1 (Standard loans)	:	0%
• Group 2 (Special-mentioned loans)	:	5%
• Group 3 (Sub-standard loans)	:	20%
• Group 4 (Doubtful loans)	:	50%
• Group 5 (Bad debts)	:	100%

A general provision is made at 0,75% of the outstanding balance of loans to customers at the end of each month, excluding the loans to customers which are classified as bad debts.

The specific provision is calculated based on the net credit exposure of each borrower, i.e. based on the borrower's loan balance at the end of each month less the allowed value of collateral assets in accordance with Circular 31 and Decree 86. Collateral assets with value of VND 50 billion or more for loans to related parties or other parties subject to credit restriction under Article 135 of Law on credit institutions and collateral assets with value of VND 200 billion or more for the other customers must be valued by a licensed asset valuation organization. Other than the above, collateral assets are valued in accordance with the Bank's internal policy and process. Collateral assets that do not satisfy the legal conditions are deemed to have zero value.

The specific provision is additionally made in accordance with Circular 14, Circular No. 02 and Circular No. 06 regulating debt restructure, exemption or reduction of interest and fees, retention of debt category by credit institutions and foreign bank branches to assist difficult customers.

Written-off loans to customers

Loans to customers are written off against the provision when loans to customers have been classified to Group 5 or when borrowers have declared bankruptcy or dissolved (for borrowers being organizations and enterprises) or borrowers are deceased or missing (for borrowers being individuals). The Bank's Risk Settlement Committee shall write off the loans when they consider that all reasonable efforts for recovery of bad debts, including legal actions, have been exhausted.

The Bank transfers written-off loans by recording them on off-statement of financial position accounts and continues to monitor and take measures to fully recover the debt according to the agreement signed with the clients.

INTERIM SEPARATE FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Separate Financial Statements (cont.)

Off-statement of financial position commitments

Off-statement of financial position commitments include guarantees, foreign exchange commitments and L/C commitments.

The classification of off-statement of financial position commitments is conducted solely for management, supervision of credit granting quality in accordance with the same accounting policy applied to loans to customers as described in the above mentioned Note.

All outstanding debts and value of off-statement of financial position commitments of one customer at a credit institution, foreign bank branch shall be classified into one debt group. For customer who has two debts and over and/or off-statement of financial position commitments at a credit institution, foreign bank branch and any one debt of them is classified in the group of higher risk than other debts or off-statement of financial position commitments, the credit institution, foreign bank branch shall classify the other debts or off-statement of financial position commitments of the customer in the group of highest risk level.

The classification of off-statement of financial position commitments is conducted solely for management, supervision of credit granting quality in accordance with the same accounting policy applied to loans to customers as described in the above mentioned Note. Unless the Bank has performed its payment obligation on other's behalf under the guarantee contracts, the classification of payment on other's behalf and provision therefor are in accordance with the same accounting policy applied to loans to customers as described in the above mentioned Note.

In accordance with Circular 11 and Decree 86, the Bank is not required to make provision for off-statement of financial position commitments.

5. Investment securities

Investment securities include available-for-sale investment securities and held-to-maturity investment securities. The Bank classifies investment securities at the time of acquisition as available-for-sale investment securities or held-to-maturity investment securities. In accordance with Official Letter No. 2601/NHNN-TCKT dated 14 April 2009 issued by the SBV, for investment securities, the Bank is allowed to reclassify maximum once after the initial classification at the time of acquisition.

Available-for-sale investment securities

Available-for-sale investment securities are debt securities or equity securities which are intended to be held for an indefinite period and may be sold at any time.

The Bank recognizes available-for-sale investment securities on order-matching date for listed securities or on the date when the Bank officially holds the ownership as prescribed by the laws for unlisted securities.

Available-for-sale investment securities are bills of exchange, debentures, deposit certificates and unlisted bonds which are recorded at costs less provision for credit losses. The classification of debts and provision for credit losses of these investments are made in accordance with the policy applicable to loans to customers. According to current regulations, the Bank does not make general provisions for bills of exchange, debentures, deposit certificates and bonds issued by other credit institutions.

Other available-for-sale investment securities are recognized at cost less provision for diminution in value. Provision for diminution in value is made when the actual market price of securities is lower than the price recorded in the accounting books. The Bank does not make provisions for Government bonds, Government-guaranteed bonds and local government bonds.

INTERIM SEPARATE FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Separate Financial Statements (cont.)

Premiums and discounts arising from purchases of available-for-sale debt securities are amortized to the Interim Separate Income Statement using the straight-line method for the period from the date of acquisition of securities to the maturity date of such securities. In case such securities are sold before the maturity date, the unamortized premiums and discounts are fully recorded in the Interim Separate Income Statement at the selling date.

Interest income after acquiring available-for-sale investment securities is recognized in the Interim Separate Income Statement on an accrual basis. Interest income received before the acquisition of available-for-sale investment securities is recorded as a decrease in their carrying values.

The provisions for credit losses and impairment of available-for-sale investment securities as mentioned above are reversed if there is a subsequent increase in the recoverable amount after the provision being recognized. A provision is reversed only to the extent that the investments' carrying amount does not exceed the carrying amount that would have been determined if no provision had been recognized.

Available-for-sale investment securities are derecognized when the right to receive cash flows from these securities has expired or the Bank has transferred substantially all risks and rewards of ownership of these securities.

Held-to-maturity investment securities

Held-to-maturity investment securities are debt securities with fixed maturities and fixed or determinable payments where the Bank has the positive intention and ability to hold until maturity.

The Bank recognizes held-to-maturity investment securities on order-matching date for listed securities or on the date when the Bank officially holds the ownership as prescribed by the laws for unlisted securities.

Held-to-maturity investment securities are bills of exchange, debentures, deposit certificates and unlisted bonds which are recorded at costs less provision for credit losses. The classification of debts and provision for credit losses of these investments are made in accordance with the policy applicable to loans to customers. According to current regulations, the Bank does not make general provisions for bills of exchange, debentures, deposit certificates and bonds issued by other credit institutions.

Other held-to-maturity investment securities are recognized at cost less provision for diminution in value. Provision for diminution in value is made based on the assessment of the recoverability of these held-to-maturity investment securities.

Premiums and discounts arising from acquisition of held-to-maturity debt securities are amortized to the Interim Separate Income Statement using the straight-line method for the period from the date of acquisition of securities to the maturity date of such securities.

Interest income after acquiring held-to-maturity investment securities is recognized in the Interim Separate Income Statement on an accrual basis. Interest income received before the acquisition of held-to-maturity investment securities is recorded as a decrease in their carrying values.

The provisions for credit losses and impairment of held-to-maturity investment securities as mentioned above are reversed if there is a subsequent increase in the recoverable amount after the provision being recognized. A provision is reversed only to the extent that the investments' carrying amount does not exceed the carrying amount that would have been determined if no provision had been recognized.

Held-to-maturity investment securities are derecognized when the right to receive cash flows from these securities has expired or the Bank has transferred substantially all risks and rewards of ownership of these securities.

INTERIM SEPARATE FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Separate Financial Statements (cont.)

6. Investments in subsidiary

Subsidiary is an entity controlled by the Bank. Control exists when the Bank has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account.

Investments in the subsidiary are stated at cost less allowances for diminution in value. Allowance for impairment of investments in the subsidiary is made when the subsidiary suffers from losses at the rate equal to the difference between the actual capital invested by investors in the subsidiary and the actual owner's equity multiplying (x) by the Bank's rate of actual charter capital contributed in the subsidiary. If the subsidiary is consolidated into Consolidated Interim Financial Statements, the basis for impairment allowances is the Consolidated Interim Financial Statements.

Increases/(decreases) in the allowance for impairment of investments in the subsidiary as at the statement of financial position date are recorded into the Interim Separate Income Statement. An allowance is reversed only to the extent that the investments' carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognized.

7. Tangible fixed assets

Tangible fixed assets are determined by their historical costs less accumulated depreciation. Historical costs of tangible fixed assets include all the expenses paid by the Bank to bring the asset to its working condition for its intended use. Other expenses arising subsequent to initial recognition are included into historical costs of fixed assets only if it can be clearly demonstrated that the expenditure has resulted in future economic benefits expected to be obtained from the use of these assets. Those which do not meet the above conditions will be recorded into costs during the period.

When a tangible fixed asset is sold or disposed, its historical cost and accumulated depreciation are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied are as follows:

<u>Fixed assets</u>	<u>Years</u>
Buildings and structures	5 – 50
Machinery and equipment	5 – 15
Motor vehicles	6 – 10
Office equipment	3 – 8
Other fixed assets	5 – 10

8. Intangible fixed assets

Intangible fixed assets are determined by their initial costs less accumulated amortization.

Initial costs of intangible fixed assets include all the costs paid by the Bank to bring the asset to its working condition for its intended use. Other costs relevant to intangible fixed assets arising subsequent to initial recognition are included into operation costs during the period only if these costs are associated with a specific intangible fixed asset and result in future economic benefits expected to be obtained from the use of these assets.

When an intangible fixed asset is sold or disposed, its initial costs and accumulated amortization are written off, then any gain or loss arising from such disposal is included in the income or the expenses during the period.

KIEN LONG COMMERCIAL JOINT STOCK BANK

INTERIM SEPARATE FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Separate Financial Statements (cont.)

The Bank's intangible fixed assets include:

Land use right

Land use right includes all the actual expenses paid by the Bank directly related to the land being used such as expenses to obtain the land use right, registration fees, etc. The land use right is amortized in accordance with the straight-line method over the land using period (i.e. 36 - 49 years); if the land use right is permanent, it is not amortized.

Computer software

Expenses attributable to computer software, which is not a part associated with the relevant hardware, will be capitalized. Costs of computer software include all the expenses paid by the Bank until the date the software is put into use. The computer software is amortized in accordance with the straight-line method from 3 to 8 years.

9. Operating leased assets

A lease is classified as an operating lease if it transfers substantially all the risks and rewards incident to ownership belonging to the lessor. The lease expenses are allocated in the Bank's operation costs in accordance with the straight-line method over the lease term and do not depend on the method of lease payment.

10. Other assets

Acquisition of fixed assets, construction in progress

Acquisition of fixed assets, construction in progress represent the costs of acquisition of assets, repair of head office, construction and upgrading of software which have not been fully completed. No depreciation is provided for construction in progress during the period of construction and upgrading.

Foreclosed assets

Foreclosed assets are assets of which the ownership was transferred to the Bank and awaiting settlement.

Other assets

Other assets, except for receivables from credit activities, are stated at cost less provision for credit losses on other assets.

Provision for losses on other assets is made based on the overdue status of debts or based on anticipated losses on undue debts which may occurred when an economic organization is bankrupted or liquidated or debtor is missing, running away, being prosecuted, in prison, under a trial or pending execution of sentences or deceased. Provision made is recognized as operating expense during the period.

For overdue debts, the Bank makes provision for credit losses using the provision rate that is applied for overdue period in accordance with Circular No. 48/2019/TT-BTC dated 08 August 2019 of the Ministry of Finance on the basis of the debt age or estimated loss as follows:

- As for overdue debts:
 - 30% of the value of debts overdue between 6 months and less than 1 year.
 - 50% of the value of debts overdue between 1 year and less than 2 years.
 - 70% of the value of debts overdue between 2 years and less than 3 years.
 - 100% of the value of debts overdue from 3 years or more.
- As for doubtful debts: Provision is made on the basis of the estimated loss.

Increases/(decreases) in the obligatory provision for doubtful debts as at the statement of financial position date are recorded into operating expenses.

11. Liabilities

Liabilities including borrowings from the Government and the SBV, deposits and borrowings from other credit institutions, deposits from customers and other liabilities are presented at their costs.

12. Provisions for payables

Provisions are recorded when the Bank has present obligations (legal or constructive) as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and a reliable estimate can be made of the amount of the obligation.

If time causes material effects, the provisions will be determined by deducting the amount to be spent in future to settle the liability at the pre-tax discount rate that reflects the assessments of the time value of money and the specific risks from this liability in the current market.

13. Financial derivatives

Financial derivatives are recognized on the Interim Separate Statement of Financial Position at contract value at the transaction date and subsequently revalued at fair value. Gains or losses from disposal of derivative are recognized in the Interim Separate Income Statement. Unrealized gains or losses are not recognized in the Interim Separate Income Statement, but are recognized in difference on the revaluation of derivatives in the Interim Separate Statement of Financial Position and are included in the Separate Income Statement at the end of annual accounting period.

14. Owner's equity and funds

Charter capital

Ordinary shares are classified as owner's equity. Incremental costs directly attributable to the issue of ordinary shares are recognized as a deduction from owner's equity.

Treasury shares

When a share capital in the owner's equity is redeemed, the amount payable including the expenses related to the transaction is recorded as treasury shares and a corresponding decrease in owner's equity then is recognized. When this share capital is re-issued, the difference between the re-issuance price and carrying value of treasury shares is recorded in "Share premiums".

Reserves

According to Decree No. 135/2025/NĐ-CP dated 12 June 2025 issued by the Government of Vietnam on financial regime applicable to credit institutions, the Bank is required to make the following statutory reserves before distribution of profit:

	<u>Annual allocation</u>	<u>Maximum balance</u>
Reserve to supplement charter capital	10% of profit after tax	Charter capital
Financial reserve	10% of profit after tax	Not specified

The reserve to supplement charter capital is to supplement the Bank's charter capital.

The purpose of financial reserve is:

- to compensate the unrecoverable losses, damages of assets or liabilities during the Bank's course of business;
- to compensate the Bank's losses according to Decision of the General Meeting of Shareholders.

Financial reserves and reserve to supplement charter capital are non-distributable and are classified as part of owner's equity.

Other equity funds are appropriated from profit after tax. Appropriation from profit after tax and use of other funds must be approved by the General Meeting of Shareholders. These funds are not regulated by the laws and are allowed to distribute fully.

Notes to the Interim Separate Financial Statements (cont.)

Bonus and welfare funds

Bonus and welfare funds are not required by laws, are appropriated from profit after tax and are fully distributable, and are used primarily to make payments to the Bank's employees. Bonus and welfare funds are recognized in the Bank's liabilities.

15. Off-interim separate statement of financial position items

From time to time, the Bank has outstanding commitments to grant credit. These commitments take the form of approved loans and overdraft facilities. The Bank also provides financial guarantees and letters of credit to guarantee the performance of customers to third parties. The contingent liabilities and commitments may expire without being advanced in whole or in part. Therefore, the amounts do not represent a firm commitment of future cash flows.

16. Interest income, interest expenses and cessation of estimated interest receivable

Interest income is recognized in the Interim Separate Income Statement on the accrual basis, except for interest income from debts classified in Group 2 to Group 5 and debts classified in Group 1 (Standard loans) resulting from implementation of special policies of the State being recognized in the Interim Separate Income Statement upon receipt.

When debts classified as Standard loans resulting from implementation of special policies of the State, their interest income incurring during the period is not recorded as income but recorded in the off-statement of financial position. Interest income from these debts is recognized in the Interim Separate Income Statement upon receipt.

Interest from deposits, from investments in bonds and debentures, etc., is the amounts of interest receivable during the period.

Payments for interest on loans and deposits are recorded on the basis of estimates.

17. Income from service provisions

Income from service provisions consists of fees received from settlement services, cashier services and other services. Income received from settlement services, cashier services and other services is recognized upon receipt.

18. Income from dividends

Dividends and profit received are recognized when the Bank has the right to receive dividends or profit from the capital contribution.

19. Corporate income tax

Corporate income tax includes current income tax and deferred income tax.

Current income tax

Current income tax is the tax amount computed based on the assessable income. Assessable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

Deferred income tax

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between book values of assets and liabilities serving the preparation of the Financial Statements and the values for tax purposes. Deferred income tax liabilities are recognized for all the temporary taxable differences. Deferred income tax assets are recorded only when there is an assurance on the availability of assessable income in the future against which the temporarily deductible differences can be used.

Notes to the Interim Separate Financial Statements (cont.)

Carrying values of deferred corporate income tax assets are considered as at the statement of financial position date and will be reduced to the rate that ensures enough assessable income against which the benefits from part of or all of the deferred income tax can be used. Deferred corporate income tax assets, which have not been recorded before, are considered as at the statement of financial position date and are recorded when there is certainly enough assessable income to use these unrecognized deferred corporate income tax assets.

Deferred income tax assets and deferred income tax liabilities are determined at the estimated rate to be applied in the period when the assets are recovered or the liabilities are settled based on the effective tax rates as at the statement of financial position date. Deferred income tax is recognized in the Interim Separate Income Statement. In the case that deferred income tax is related to the items of the owner's equity, corporate income tax will be included in the owner's equity.

The Bank shall offset deferred tax assets and deferred tax liabilities if:

- The Bank has the legal right to offset current income tax assets against current income tax liabilities; and
- Deferred income tax assets and deferred income tax liabilities are relevant to corporate income tax which is under the management of one tax authority either:
 - Of the same subject to corporate income tax; or
 - The Bank has intention to pay current income tax liabilities and current income tax assets on a net basis or recover tax assets and settle tax liability simultaneously in each future period to the extent that the majority of deferred income tax liabilities or deferred income tax assets are paid or recovered.

20. Financial assets

Classification of financial assets

The classification of these financial assets depends on their nature and the purpose and is determined at the date of initial recognition. The financial assets of the Bank include financial assets recognized at fair values through Income Statement, held-to-maturity investments, deposits at the SBV, deposits at and loans to other credit institutions, loans and receivables, and available-for-sale financial assets.

Financial assets recognized at fair values through Income Statement

A financial asset is classified as an asset recognized at fair value through Income Statement if it is held for trading or is categorized in the group of assets reflected at fair value through Income Statement at the date of initial recognition.

Financial asset will be classified as securities held for trading if:

- It is purchased or created mainly for the purpose of repurchase in a short term;
- The Bank intends to hold for the purpose of gaining profits in a short term;
- It is a derivative financial instrument (except derivative financial instruments identified as a financial guarantee contract or an effective risk protection instrument).

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or identified payments and fixed maturity periods which the Bank has the intention and ability to hold until the dates of maturity.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or identified payments, which are not listed on the market.

INTERIM SEPARATE FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Separate Financial Statements (cont.)

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets determined as available for sale or not classified as financial assets recognized at fair values through Income Statement, held-to-maturity investments, loans and receivables.

Initial carrying value of a financial asset

Financial assets are recognized at the acquisition date and are derecognized at the selling date. At the date of initial recognition, financial assets recognized at fair values through Income Statement are determined at the fair value, other financial assets are recognized according acquiring price/issuing cost plus other costs directly related to the acquisition or issuance of that financial asset.

21. Financial liabilities and equity instrument

Financial instruments are classified as financial liabilities or equity instruments upon the dates of initial recognition in conformity with the nature and definitions of financial liabilities or equity instruments.

Financial liabilities

The classification of financial liabilities depends on their nature and purposes and is determined at the date of initial recognition. The Bank's financial liabilities include financial liabilities recognized at fair values through Income Statement and other financial liabilities.

Financial liabilities recognized at fair values through Income Statement

Financial liability is classified as the liability recognized at fair value through Income Statement if it is held for trading or is categorized in the group of liabilities reflected at fair value through Income Statement upon initial recognition.

Financial liabilities will be classified as securities held for trading if:

- It is issued or created mainly for the purpose of repurchase in a short term;
- The Bank intends to hold for the purpose of gaining profits in a short term;
- It is a derivative financial instrument (except derivative financial instruments identified as a financial guarantee contract or an effective risk protection instrument).

At the date of initial recognition, the financial liabilities recognized at fair values through Income Statement are determined at the fair value.

Other financial liabilities

Other financial liabilities include deposits and loans from the SBV and other credit institutions, deposits from customers, and other payables.

At the date of initial recognition, except for the liabilities related to financial lease or convertible bonds which are recognized at allocated value, other financial liabilities are initially recognized at historical costs plus other costs directly related to those financial liabilities.

The allocated value is determined equally to the initially recognized value of that financial liability less the principals which a bank has to repay, plus or minus the accumulated allocations calculated based on the actual interest method of the difference between the initially recorded value and the value upon maturity date, minus the deductions (directly or through a provision account) due to impairment or since it cannot be recovered.

Actual interest method is a method of calculating the allocated value of one financial liability or of a group of financial liabilities and distributing incomes or expenses in the related period. The effective interest rate is the discount interest rate of cash flows estimated to be settled or obtained in the future throughout the expected life cycle of a financial instrument or in a shorter period, if necessary, to return to the current net carrying value of a financial liability.

INTERIM SEPARATE FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Separate Financial Statements (cont.)***Equity instrument***

Equity instrument is the contract which can prove the remaining benefits in the assets of the Bank after deducting all of its liabilities.

22. Offsetting financial instruments against each other

Financial assets and financial liabilities will be offset against each other and are reflected at their net values on the Interim Separate Statement of Financial Position when, and only when, the Bank:

- has a legal right to offset the recognized amounts; and
- has intention either to settle on a net basis, or to realize the asset and to settle the liability simultaneously.

23. Segment reporting

A business segment is a distinguishable component of the Bank that is engaged in manufacturing or providing products or services and that is subject to risks and returns that are different from those of other business segments.

A geographical segment is a distinguishable component of the Bank that is engaged in manufacturing or providing products or services within a particular economic environment and that is subject to risks and returns that are different from those of components operating in other economic environments.

The segment information is prepared and presented in conformity with the accounting policies applicable to the preparation and presentation of the Interim Separate Financial Statements of the Bank.

24. Related parties

Related parties include enterprises and individuals that directly or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with the Bank and its subsidiary. Associates and individuals owning, directly or indirectly, an interest in the voting power of the Bank and subsidiary that gives them significant influence over the Bank and its subsidiary, key management personnel, including members of Board of Directors, members of Board of Management, members of Supervisory Board and close family members of these individuals and companies associated with these individuals also constitute related parties.

In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

IX. FINANCIAL RISK MANAGEMENT**1. General overview**

The Bank's operations are exposed to the following financial risks: credit risks, liquidity risks and market risks. The Bank's Board of Management is generally responsible for giving guidance, supervising and judging the risks as well as maintaining an effective risk control and compliance culture. The Board of Management of the Bank is responsible for developing objectives and basic principles in financial risk control for the Bank, including design of the detailed policies on risk identification and measurement, risk limitations and regulations on risk prevention. Risk control is implemented by all the units and departments in line with the policies and procedures approved by the Board of Management.

The Risk Management Department of the Bank supports the daily risk control at the Bank under the direction of the Board of Management. Together with other departments, the Risk Management Department is responsible for developing the risk control system as well as the tools and methods to identify, measure, monitor, control and assess risks.

Additionally, the Internal Control Department of the Bank is responsible for performing the independent review on the internal risk control and control environment of the Bank.

2. Credit risk

Credit risk is the risk of financial loss to the Bank if a counterparty to a financial instrument fails to meet its contractual obligations. Credit risk of the Bank mainly arises from its loans and advances.

Policies on credit risk management and minimization

In order to manage credit risk, the Bank has applied the following tools: development of policies and issuance of regulations on credit risk control; development of credit procedures; credit rate; regulations on credit line; review on credit risks; development of credit rank system and debt classification; authority decentralization in credit activities.

The Bank has managed credit risk by setting up risk limitations related to customers or groups of customers acquiring loans in accordance with the regulations of the SBV. Additionally, credit risks are also managed by analysis on the ability of customers and potential customers on making payments to both interest and principal.

Risk concentration level of financial assets with credit risk

The non-derivative financial assets classified according to the geographical area are presented in Note No. X.

The maximum level of credit risks without consideration to collateral or methods for credit minimization

The maximum credit risk of each financial asset is its carrying value as reflected on the Interim Separate Statement of Financial Position as well as on off-statement of financial position items of the financial instruments without consideration to collateral or other methods for credit risk minimization.

The Bank's maximum exposures to credit risk are as follows:

	<u>Ending balance</u>	<u>Beginning balance</u>
<i>Credit risk exposures relating to interim separate statement of financial position items</i>

INTERIM SEPARATE FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Separate Financial Statements (cont.)

Operating in an industry where operation of the Bank is very sensitive to the changes of the market and false reports, the Bank has been applying the measures to control the liquidity risk as follows:

- Maintaining the liquidity ratios that ensure the liquidity, deposit insurance in accordance with the regulations of the SBV;
- Managing its capital sources centrally in order to ensure the liquidity of the Bank by researching, analyzing term differences, making estimates on time and values of major disbursements which may have effects on the inflows and outflows. From that, the Bank has set out limits and developed appropriate investment portfolios which have high liquidity and can be converted in cash to meet the regular or irregular demands for cash withdrawals of customers;
- Actively following up, analyzing, assessing and being responsible to disclose information in order to help customers understand clearly all the operations of the Bank.

4. Market risk

The Bank is exposed to market risk which arises from the fluctuations in future cash flows of financial instruments due to the changes in the market. The market risk arises from the open status of interest rate and currency, which are under the effects of changes in market in general and each type of market in particular as well as affected by the fluctuations on the market, such as interest rate, credit, exchange rate.

The market risks related to operation of the Bank include currency risk and interest rate risk.

Interest rate risk

The interest rate risk occurs when the future cash flows of a financial instrument unexpectedly fluctuate due to the changes in market interest rates. The Bank manages this risk by controlling the differences in monthly interest rates.

The Bank measures risk by analyzing the sensitivity of the interest rate, i.e. classification of bonds and other documents into group of market risk level, based on currency type, due date, etc.

In order to manage the interest rate risk, the Bank has been applying the policies on interest rate risk management on the basis of ALCO reporting system to analyze the difference between debt-equity assets in each term, calculate the Duration Gap of the debt-equity assets, the interest rates of the items of capital and assets, and has given out appropriate solutions for treatments accordingly:

- Giving loans at the floating interest rates, which enables the Bank to apply flexible interest rates to loans suitably with the fluctuation of the market rates of interest;
- Maintaining a reasonable difference between deposit interest rates and loan interest rates, complying with the regulations on capital safety of the SBV.

INTERIM SEPARATE FINANCIAL STATEMENTS

For the first 6 months of the fiscal year ending 31 December 2025

Notes to the Interim Separate Financial Statements (cont.)**Currency risks**

Currency risk is a form of risk arising from changes in currency exchange rates. The Bank was established and operates in Vietnam and the accounting currency is VND, major transactions of the Bank are also in VND. The financial assets and liabilities of the Bank are mainly denominated in VND, a part in USD, EUR and others.

The Bank's strategy in managing currency risk is to develop a system of limits to manage the state of currencies. The state of currencies is managed on a daily basis and a risk prevention strategy is used to ensure that the state of currencies remains in the set limits. Additionally, the Bank also has used other tools, such as optimizing the repayment period of loans, forecasting the exchange rate, maintaining an appropriate structure of loans and debts in foreign currency and VND.

In order to minimize the currency risk, the Bank has developed and applied its policies on foreign currency management as follows:

- Complying fully with the regulations of the SBV;
- Establishing and managing foreign currency in open position;
- Controlling risks by separating functions of each department and section, giving regulations on decentralization, transaction limits and stopped loss limit;
- Diversifying the derivative products.

All transactions in and out of the statement of financial position items are included into the foreign currency status right upon its generation.

The following statement summarizes the exchange rate risk of the Bank as at 30 June 2025. This statement presents the assets and liabilities of the Bank according to the carrying values and currency types.
